3. Approval of Minutes

It was **M/S/C** to approve the minutes of the January 26, 2011 meeting with a change to Item 8.b. Outside Professionals' report on page 4 to read "Leiderman reported on the Orange County 3% at age 50 litigation. The Court of Appeals heard oral arguments last week. Orange County's main argument was that the retroactive portion of the enhanced formula was a debt that exceeded the county's revenue, and since it was not approved by the voters, it was unconstitutional. A decision is expected within 90 days". (Yes: Buck, Cabral, Gaynor, Hast, Holcombe, Telles, Viramontes, Watts)

4. Routine Items

It was **M/S/C** to approve the routine items of the February 9, 2011 meeting. (Yes: Buck, Cabral, Gaynor, Hast, Holcombe, Telles, Viramontes, Watts)

5. Segal Presentation on Five Year Projection of Employer Rate Projections - Paul Angelo and John Monroe

Angelo gave an overview of the five-year projection of estimated employer contribution rate changes noting that projections are estimates and not a guarantee of future results. Rate changes are assumed to be from asset gains and losses that are funded as a level percentage of the Association's total active payroll base. Angelo noted the projections are based on information as of 12/31/09 and actual returns for 2010 above the assumed interest rate will have positive changes on these figures.

Angelo defined each cost group's volatility index (VI) as the market value of assets divided by payroll. A higher VI results in less stable contribution rates, and can result from more generous benefits as compared to payroll, more retirees, an older workforce, shorter careers or the issuance of Pension Obligation Bonds.

He compared the VI for each cost group to the "relative VI". He defined "relative VI" as the specific cost group's VI divided by the average VI for the aggregate plan. The Segal Company estimated the rate change due to investment related net asset losses for each individual cost group by multiplying the rate changes for the aggregate plan by the relative volatility index for each cost group.

Angelo illustrated the effect of payroll changes on the VI. He stated as payroll decreases the VI increases due to the market value of assets remaining the same. Angelo noted the employer rate

changes do not include subvention. The modeling projections are intended to serve as illustrations of future financial outcomes that are based on the information available at the time and actual experience may differ due to variables such as demographic experience, the economy, stock market performance and the regulatory environment.

In public comment, Randy Musgraves, Central Contra Costa Sanitary District, stated he is concerned with the discussion of moving employers between cost groups when they increase or decrease in staff size around the 50 member threshold. He mentioned the Board researched a rate stabilization fund for employers in the past and did not find it feasible. He encourages individual employers to create a rate stabilization fund on their own.

6. COLA Increase- Paul Angelo and John Monroe

Monroe reviewed the recommendation from The Segal Company regarding the recommended cost of living increase (COLA) for retirees. Rounded to the nearest .5%, the current recommendation is for a 1.5% increase effective April 1, 2011.

It was **M/S/C** to adopt the actuary's recommendation of a 1.5% COLA effective April 1, 2011. (Yes: Buck, Cabral, Gaynor, Hast, Holcombe, Telles, Viramontes, Watts)

8. Consider and take possible action on semi-annual rebalancing report from staff

11. Miscellaneous

(a) Staff Report -

Leedom reported she has the draft CALAPRS General Assembly agenda for attending Board members.

The Los Angeles Trustees Roundtable Conference will be on the next meeting agenda.

CCCERA received the GFOA Award for "Outstanding Achievement in Popular Financial Reporting for CCCERA's first PAFR, issued for 2009.

The March 23, 2011 and May 25, 2011 meetings will be added to a future agenda for possible rescheduling due to conference conflicts.

Hally reported CCCERA received a distribution of Tesla stock from DBL Investors and sold it immediately for a profit.

Levy reported SB 27, introduced by State Senator Simitian, includes some provisions similar to last year's AB 1987, regarding inclusion in "compensation earnable" items such as cash conversions and final settlement pay, for those retiring after July 1, 2012. The bill also includes the requirement of an audit function under which the retirement board would have to determine whether compensation was paid for the principal purpose of enhancing a member's retirement benefits. For those retiring on or after January 1, 2013, there would be a mandatory period of separation of 180 days between retirement and re-hire.

Two appellate court opinions were recently issued. The first in the County of Orange v. Association of Orange County Deputy Sheriffs, et al. case. The appellate court rejected the County's argument that the retroactive portion of the pension enhancement from 2% at age 50 to 3% at age 50 was unconstitutional. The second case had to do with the retroactive application of pension enhancement to certain state employees, whereby their status would be reclassified from "miscellaneous" to "safety" members. The appellate court agreed with the California Department of Personnel Administration that the reclassification of past service was not included in the legislation approving the enhancement, and therefore the past service could not be subject to the enhancement.

Cabral asked if we have any ties to the firms in the hedge fund scandals regarding insider trading. Hally reported to his knowledge we have none.

Buck requested information on how the absence of terminal pay for new hires would affect employer contribution rates. Leedom reported the information should be provided to The Segal Company within the next 30 days.

Gaynor reported he attended the CALAPRS Trustee Roundtable which had a presentation on Securities Litigation monitoring services.
