CONSTITUTION
OF THE STATE OF CALIFORNIA
ARTICLE XVI PUBLIC FINANCE
Section 17

SEC. 17. The State shall not in any manner loan its credit, nor shall it subscribe to, or be interested in the stock of any company, association, or corporation, except that the State and each political subdivision, district, municipality, and public agency thereof is hereby authorized to acquire and hold shares of the capital stock of any mutual water company or corporation when the stock is so acquired or held for the purpose of furnishing a supply of water for public, municipal or governmental purposes; and the holding of the stock shall entitle the holder thereof to all of the rights, powers and privileges, and shall subject the holder to the obligations and liabilities conferred or imposed by law upon other holders of stock in the mutual water company or corporation in which the stock is so held.

Notwithstanding any other provisions of law or this Constitution to the contrary, the retirement board of a public pension or retirement system shall have plenary authority and fiduciary responsibility for investment of moneys and administration of the system, subject to all of the following:

(a) The retirement board of a public pension or retirement system shall have the sole and exclusive fiduciary responsibility over the assets of the public pension or retirement system. The retirement board shall also have sole and exclusive responsibility to administer the system in a manner that will assure prompt delivery of benefits and related services to the participants and their beneficiaries. The assets of a public pension or retirement system are trust funds and shall be held for the exclusive purposes of providing benefits to participants in the pension or retirement system and their beneficiaries and defraying reasonable expenses of administering the system.

(b) The members of the retirement board of a public pension or retirement system shall discharge their duties with respect to the system solely in the interest of, and for the exclusive purposes of providing benefits to, participants and their beneficiaries, minimizing employer contributions thereto, and defraying reasonable expenses of administering the system. A retirement board's duty to its participants and their beneficiaries shall take precedence over any other duty.

(c) The members of the retirement board of a public pension or retirement system shall discharge their duties with respect to the system with the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with these matters would use in the conduct of an enterprise of a like character and with like aims.

(d) The members of the retirement board of a public pension or retirement system shall diversify the investments of the system so as to minimize the risk of loss and to maximize the rate of return, unless under the circumstances it is clearly not prudent to do so.

(e) The retirement board of a public pension or retirement system, consistent with the exclusive fiduciary responsibilities vested in it, shall have the sole and exclusive power to provide for actuarial services in order to assure the competency of the assets of the public pension or retirement system.

(f) With regard to the retirement board of a public pension or retirement system

which includes in its composition elected employee members, the number, terms, and method of selection or removal of members of the retirement board which were required by law or otherwise in effect on July 1, 1991, shall not be changed, amended, or modified by the Legislature unless the change, amendment, or modification enacted by the Legislature is ratified by a majority vote of the electors of the jurisdiction in which the participants of the system are or were, prior to retirement, employed.

(g) The Legislature may by statute continue to prohibit certain investments by a retirement board where it is in the public interest to do so, and provided that the prohibition satisfies the standards of fiduciary care and loyalty required of a retirement board pursuant to this section.

(h) As used in this section, the term "retirement board" shall mean the board of administration, board of trustees, board of directors, or other governing body or board of a public employees' pension or retirement system; provided, however, that the term "retirement board" shall not be interpreted to mean or include a governing body or board created after July 1, 1991 which does not administer pension or retirement benefits, or the elected legislative body of a jurisdiction which employs participants in a public employees' pension or retirement system.

(Sec. 17 amended Nov. 3, 1992, by Prop. 162. Initiative measure.)

The valuation shall be conducted under the supervision of an actuary and shall cover the mortality, service, and compensation experience of the members and beneficiaries, and shall

evaluate the assets and liabilities of the retirement fund. Upon the basis of the investigation, valuation, and recommendation of the actuary, the board shall, at least 45 days prior to the beginning of the succeeding fiscal year, recommend to the board of supervisors the changes in the rates of interest, in the rates of contributions of members, and in county and district appropriations as are necessary. With respect to the rates of interest to be credited to members and to the county or district, the board may, in its sound discretion, recommend a rate which is higher or lower than the interest assumption rate established by the actuarial survey. §31453.5. Normal contribution rate; computation

Notwithstanding Section 31587, and in accordance with Section 31453 or 31510.1, the board may determine county or district contributions on the basis of a normal contribution rate which shall be computed as a level percentage of compensation which, when applied to the future compensation of the average new member entering the system, together with the required member contributions, will be sufficient to provide for the payment of all prospective benefits of such member. The portion of liability not provided by the normal contribution rate shall be amortized over a period not to exceed 30 years.

(Amended by Stats. 1983, Ch. 886, Sec. 2)

§31453.6. Funding period to amortize unfunded accrued actuarial obligations; new amortization periods; requests

Notwithstanding any other provision of this chapter, the board of retirement may, at the request of the board of supervisors, adopt a funding period of 30 years to amortize unfunded accrued actuarial obligations, as determined by their actuary or by an actuary employed by the board of investments, for benefits applicable to all membership categories for the purpose of determining employer contribution rates for counties and districts. The board of retirement shall approve a new amortization period based upon a request from the board of supervisors that demonstrates a financial necessity. The board of retirement may deny a request when the request would subject the fund to an unsound financial risk. A board of retirement may take an action pursuant to this section only once.

(Added by Stats. 1992, Ch. 707, Sec. 3, Effective September 15, 1992)

§31454. Adjustment by board or governing body of rates of interest, contributions, and appropriations

(b) (1) The governing body of a district within the county system that is not governed

(E) The total number of retired members of the retirement system who elected to have their retirement allowance provided by bank draft, such as a check.

(F) The total number of retired members of the retirement system who elected to have their retirement allowance deposited to a prepaid account, consistent with this section and Section 31590.2.

(G) Information detailing all costs to the retirement system with respect to implementing and administering the option of a prepaid account, consistent with this section and Section 31590.2, respectively.

(H) To the extent feasible, a summary of comments, feedback, or experiences received from a retired member who elected to have their retirement allowance deposited to a prepaid account card, consistent with this section and Section 31590.2, and with respect to obtaining, using, or the replacement of, a prepaid account card for their retirement allowance.

(2) The report pursuant to paragraph (1) shall be submitted in compliance with Section 9795.

§31452.65. Issuance of duplicate for lost or destroyed warrant

Upon receipt of proof, satisfactory to the board, that a warrant or check drawn in payment of a retirement allowance or in payment of any other account due from the retirement system has been lost or destroyed, the treasurer or other entity authorized by the board upon request of the board of retirement shall as provided by Section 31590 issue a duplicate warrant or check bearing the same date as the original in payment of the same amount, without requiring a bond from the payee, and the treasurer or other entity authorized by the board shall pay the duplicate in lieu of the original warrant or check and any losses incurred by reason of the issuance of duplicate warrants or checks shall be a charge against the account from which the payment is derived.

The computation for any absence shall be based on the compensation of the position held by the member at the beginning of the absence. Compensation, as defined in Section 31460, that has been deferred shall be deemed "compensation earnable" when earned, rather than when paid.

(2)

(A) To the extent a retirement system has not defined "grade," it may define "grade," as described in paragraph (1), to mean a number of employees considered together because they share similarities in job duties, schedules, unit recruitment requirements, work location, collective bargaining unit, or other logical work-related group or class. A single employee shall not constitute a group or class.

(B) Subparagraph (A) shall not be operative in any county until the board of supervisors of that county, by resolution adopted by majority vote, makes that subparagraph applicable in the county. Nothing in subparagraph (A) shall change the holding in *Alameda County Deputy Sheriff's Association v. (b) "Compensation earnable" does not include, in any case, the following:

(1) Any compensation determined by the board to have been paid to enhance a member's retirement benefit under that system. That compensation may include:

(A) Compensation that had previously been provided in kind to the member by the employer or paid directly by the employer to a third party other than the retirement system for the benefit of the member, and which was converted to and received by the member in the form of a cash payment in the final average salary period.

(B) Any one-time or ad hoc payment made to a member, but not to all similarly situated members in the member's grade or class.

(C) Any payment that is made solely due to the termination of the member's employment, but is received by the member while employed, except those payments that do not exceed what is earned and payable in each 12-month period during the final average salary period regardless of when reported or paid.

(2) Payments for unused vacation, annual leave, personal leave, sick leave, or compensatory time off, however denominated, whether paid in a lump sum or otherwise, in an amount that exceeds that which may be earned and payable in each 12-month period during the final average salary period, regardless of when reported or paid.

(3) Payments for additional services rendered outside of normal working hours, whether paid in a lump sum or otherwise.

(4) Payments made at the termination of employment, except those payments that do

not exceed what is earned and payable in each 12-month period during the final average salary period, regardless of when reported or paid.

(c) The terms of subdivision (b) are intended to be consistent with and not in conflict with the holdings in *Salus v. San Diego County Employees Retirement Association* (2004) 117 Cal.App.4th 734 and *In re Retirement Cases* (2003) 110 Cal.App.4th 426.

This section is intended only to authorize the termination of those benefits which the governing body of a county or district elected to increase over the basic benefits or to make applicable in addition to the basic benefits pursuant to the provisions of this chapter. A current employee who has elected to have the applicability of such provision or provisions terminated may not rescind such an election unless the governing body of the county or district again makes the particular provision or provisions applicable to the county or district through the adoption of a subsequent ordinance or resolution. Any such election made by a current employee shall be binding upon the employee's spouse and all others claiming benefits under such employee's entitlement.

This section is intended only to authorize the termination of those benefits which the governing body of a county or district elected to increase over the basic benefits or to make applicable in addition to the basic benefits pursuant to the provisions of this chapter. Nothing herein shall be construed as authorizing the governing body of a county or district to terminate the basic benefits required under the provisions of this chapter.

The governing board of a county or district, prior to adopting an ordinance or resolution allowing the termination of the applicability of any increased benefit provisions, shall provide written explanation of the effect and impact of such termination for each member requesting termination of the applicability of any such provisions.

(a) This section shall apply to the retirement system of Contra Costa County and only if the board of supervisors of that county adopts, by majority vote, a resolution making this section applicable in the county. Notwithstanding any other law, the board of supervisors may make this section applicable in the county on a date specified in the resolution, which date may be different than the date of the resolution.

(b) (1) When the board of supervisors meets and confers pursuant to the Meyers-Miliias-Brown Act (Chapter 10 (commencing with Section 3500) of Division 4 of Title 1) with the Contra Costa County Deputy Sheriffs' Association, the parties may agree, pursuant to a memorandum of understanding as described in Section 3505.1, that the provisions of this section shall apply to safety employees represented by the Contra Costa County Deputy Sheriffs' Association.

(2) The terms of any agreement reached with the Contra Costa County Deputy Sheriffs' Association pursuant to this subdivision shall be made applicable by the board of supervisors to unrepresented county employees who are safety members in the Contra Costa County Sheriff's Office and in similar job classifications as employees within applicable bargaining units and the supervisors and managers of those employees.

(3) An ordinance or resolution adopted pursuant to this section may establish different retirement benefits for different bargaining units of safety employees represented by the Contra Costa County Deputy Sheriffs' Association and the unrepresented groups of safety employees in similar job classifications and the supervisors and managers of those employees. The ordinance or resolution may also establish the time period during which employees may make an election under this section and the date on which an employee shall be employed to be subject to this section.

(c) (1) Notwithstanding any other law, if the board of supervisors makes a particular provision or provisions of this chapter providing for increased benefits applicable to safety employees of the county represented by the Contra Costa County Deputy Sheriffs' Association through the adoption of an ordinance or resolution, the board of supervisors may at any time thereafter adopt another ordinance or resolution terminating the applicability of that provision or provisions as to current employees of the county who elect by written notice filed with the board to have the applicability of the provision or provisions terminated as to those employees. This section is intended only to authorize the termination of those benefits that the board of supervisors elected to increase over the basic benefits or to make applicable in addition to the basic benefits pursuant to the provisions of this chapter. Nothing in this section shall be construed as authorizing the board of supervisors to terminate the basic

benefits required under the provisions of this chapter.

(2) The board of supervisors, prior to adopting an ordinance or resolution allowing the termination of the applicability of any increased benefit provisions shall provide a written explanation of the effect and impact of the termination for each member requesting termination of the applicability of any provisions.

(3) The board of supervisors shall require members requesting termination of the applicability of any provisions to sign an affidavit stating that the member has been fully informed regarding the effect of the termination, and understands that the termination of a provision or provisions is irrevocable. The affidavit shall also state that the employee has chosen termination of the provision or provisions of the employee's own free will and was not coerced into termination of any provision by the employer or any other person and shall waive and release any right to a benefit under the terminated provision or provisions for the period of service following the election.

(4) The board of supervisors shall, in the ordinance or resolution granting current employees the option of electing to have the applicability of the provision or provisions terminated, and consistent with the memorandum of understanding described in subdivision (b), specify the provision or provisions that shall be applicable to current employees making the election. More than one optional set of provisions may be made available for election, including, but not limited to, the "3 Percent at 55" retirement formula, a cost-of-living adjustment, and the definition of final compensation pursuant to Section 31462 or 31462.1.

(5) Employees who elect to have the provision or provisions terminated, shall have their retirement allowance for service rendered after the effective date of election calculated on the basis of the provision made applicable by the board of supervisors. Except as otherwise provided in this section, the retirement allowance for service rendered prior to the effective date of the election shall be calculated on the basis of the provision or provisions applicable during that period of service and the retirement allowance for service rendered on or after the effective date of the election shall be calculated on the basis of the provision or provisions applicable during that period of service. The total retirement allowance for an employee subject to this section shall be the sum of the retirement allowance calculated for service rendered prior to the effective date of the election and the retirement allowance calculated for service rendered on or after the effective date of the election. Any employee who has made an election shall not be eligible for retirement unless the employee meets the minimum requirements of the provision or provisions applicable at the date of retirement.

(6) Any employee who has made an election that the definition of "final compensation" in Section 31462.1 no longer applies, shall have the definition of "final compensation" in Section 31462.1 applied to all service rendered prior to the effective date of the election and the definition of "final compensation" in Section 31462 applied to all service rendered on or after the effective date of the election. For purposes of applying Section 31835 to a retirement system other than the retirement system in Contra Costa County, the highest average compensation described in this paragraph shall apply.

(7) Any employee who has made an election that a cost-of-living adjustment provision of Article 16.5 (commencing with Section 31870) no longer applies shall have the cost-of-living adjustment provision, if any, for service rendered prior to the effective date of the election calculated on the basis of the cost-of-living adjustment provision applicable during that period of service. Any cost-of-living adjustment provision specified by the board of supervisors for service rendered after the effective date of the election shall apply solely to that service. A termination of benefits shall be consistent with the memorandum of understanding described in subdivision (b).

(8) A current employee who has elected to have the applicability of the provision or provisions terminated may not rescind that election, unless the board of supervisors again

makes the particular provision or provisions applicable to the employees who are represented by the Contra Costa County Deputy Sheriffs' Association, through the adoption of a subsequent ordinance or resolution pursuant to a memorandum of understanding as described in Section 3505.1.

(9) An election made by a current employee shall be binding upon the employee's spouse and all others claiming benefits under that employee's entitlement.

(Amended by Stats. 2011, Ch. 68 (SB 373), Sec. 1)

(a) An active member may elect, by written notice filed with the board, to make contributions pursuant to this section and to receive up to five years of service credit in the retirement system for additional retirement credit, if the member has completed at least five years of credited service with that retirement system.

(b) As used in this section, "additional retirement credit" means time that does not otherwise qualify as county service, public service, military service, medical leave of absence, or any other time recognized for service credit by the retirement system.

(c) Notwithstanding any other provision of this chapter, service credit for additional retirement credit may not be counted to meet the minimum qualifications for service retirement or for purposes of establishing eligibility for benefits based on 30 years of service, additional ad hoc cost-of-living benefits based on service credit, health care benefits, or any other benefits based upon service credit.

(d) A member who elects to make contributions and receive service credit for additional retirement credit shall contribute to the retirement fund, prior to the effective date of his or her retirement, by lump-sum payment or by installment payments over a period not to exceed 10 years, an amount that, at the time of commencement of purchase, in the opinion of the board and the actuary, is sufficient to not place any additional financial burden upon the retirement system.

§31486.4. Retirement; time of vesting; eligibility; application; benefits (Santa Barbara)

(a) Retirement of a member or former member who has met the requirements for age and service shall be made by the board, at which time the member or former member becomes a retired member.

(b) Any member who has completed 10 years of service shall be vested under the plan created by this article.

(c) Any vested member or vested former member who has attained the age of 65 years may be retired upon filing with the board a written application on a form provided by the board for normal retirement setting forth the desired effective retirement date.

(d) Any vested member or vested former member who has attained the age of 55 years may be retired upon filing with the board a written application on a form provided by the board for early retirement setting forth the desired effective retirement date.

(e) The normal retirement pension shall consist of an annual allowance payable in monthly installments for the life of the retired member equal to 2 percent of his or her final compensation multiplied by the number of years of service to the preceding completed month to which the member is entitled to be credited at retirement, not to exceed 35 years, added to 1 percent of the member’s final compensation multiplied by the number of years of service in excess of 35, not to exceed 10 years, reduced by the estimated primary insurance amount, if any, multiplied by the fraction of the number of years of service with the employer subject to coverage under the federal system, not to exceed 35 years, divided by 35.

In no event shall the normal retirement pension, when added to the estimated primary insurance amount, exceed 70 percent of the member’s final compensation unless the years of service to which the member is entitled to be credited at retirement exceeds 35, in which case the normal retirement pension, when added to the estimated primary insurance amount, shall not exceed 80 percent of the member’s final compensation.

(f) The early retirement pension shall consist of an annual allowance payable in monthly installments for the life of the retired member in an amount which is the actuarial equivalent of the normal retirement pension to which the retired member would be entitled if otherwise eligible for normal retirement, which shall be computed by multiplying the normal retirement pension by the early retirement adjustment factor set forth opposite the member’s age as of the birthday immediately preceding the date of the retirement, in the following table:

Age	ERA Factor
55	.39
56	.43
57	.47
58	.51
59	.56
60	.61
61	.67
62	.74
63	.82
64	.90

The ERA Factors set forth in this subdivision shall be used until adjusted by the board in accordance with the interest and mortality tables adopted by the board.

(g) The board, upon the advice of the actuary, shall establish and adjust, as required, the table of estimated primary insurance amounts, which shall be utilized in computing the retirement benefit. For purposes of this article, the primary insurance amount shall be estimated based on the employee's age and salary as of the date of retirement or the date of termination of a vested member, whichever is applicable provided that:

(1) An employee's prior career earnings shall be assumed to have been subject to the federal system and to have increased on a year-to-year basis at a rate equivalent to the rate of increase in the average per worker total wages reported by the Social Security Administration, and

(2) For those members who have not attained the normal retirement age under the federal system as of the date of retirement (i) future earnings in employment covered by the federal system shall be assumed to continue at the rate of pay received by the employee from the employer as of the date of retirement or the date of termination of a vested member, which is applicable, and (ii) future wage bases, as defined by the federal system, shall be assumed to continue at the wage base in effect in the year of retirement or the year of termination of a vested member, whichever is applicable, and (iii) cost-of-living increases in the year of retirement and delayed retirement credit provided under the federal system shall not be included in the calculation of the estimated primary insurance amount.

(h) The employer shall certify the years of service to be credited at retirement and the final compensation to be utilized in computing the normal and early retirement pension.

(i) At the time of application for retirement, the member or former member shall provide adequate proof (1) of age and (2) of the eligibility of persons, if any, who at that time would otherwise qualify for the survivor allowance provided for in Section 31492.

(j) Notwithstanding subdivision (e) of Section 31491, any retired member receiving a normal retirement pension shall, as soon as possible but not later than six months following retirement, present evidence required by the board of the retired member's actual primary insurance amount. For purposes of this subdivision, the actual primary insurance amount shall be the amount payable under the federal system on the retired member's date of retirement without regard to delayed retirement credit or any deductions on account of work. Following receipt of that evidence, the board shall adjust the retired member's pension from the date of retirement to equal the amount of the pension to which he or she would have been entitled on that date had the estimated primary insurance amount equaled the actual primary insurance amount.

If there is no surviving spouse entitled to this allowance, or if he or she dies before every child of the deceased

retired member, including stepchild or adopted child, attains the age of 18 years, then the allowance that the surviving spouse would have received had she or he lived, shall be paid to the deceased retired member's child or children under the age of 18 years. However, the right of any child to share in the allowance shall cease upon the death or marriage of the child or upon the child attaining the age of 18 years.

(b) If, upon the death of a retired member, there is no surviving spouse or child entitled to the allowance under this section, and the total retirement allowance income received by the member during his or her lifetime did not exceed his or her accumulated normal contributions, if any, the member's designated beneficiary shall be paid an amount equal to the excess of his or her accumulated normal contributions over his or her total retirement allowance income.

(c) A vested member, or vested former member, in lieu of the normal or early retirement pension for the retired member's life alone, may elect to have the actuarial equivalent of the retired member's pension as of the date of retirement applied to a lesser amount payable throughout the retired member's life, and thereafter to have a survivor allowance as approved by the board, upon the advice of the actuary, continued throughout the life of and paid to the person or persons having an insurable interest in the life of the retired member, as the member or former member nominates by written designation duly executed and filed with the board at the time of retirement.

(d) A member who elects to make contributions and receive service credit for additional retirement credit shall contribute to the retirement fund, prior to the effective date of his or her retirement, by lump-sum payment or by installment payments over a period not to exceed 10 years, an amount that, at the time of commencement of purchase, in the opinion of the board and the actuary, is sufficient to not place any additional financial burden upon the retirement system.

(e) No member may receive service credit under this section for additional retirement credit that he or she has not completed payment pursuant to subdivision (d) before the effective date of his or her retirement or, if applicable, prior to the date provided in Section 31485.8.

§31491. Retirement; time of vesting; eligibility; application; benefits (Los Angeles)

(a) Retirement of a member or former member who has met the requirements for age and service shall be made by the board, at which time the member or former member becomes a retired member.

(b) Any member who has completed 10 years of service shall be vested under the plan created by this article.

(c) Any vested member or vested former member who has attained the age of 65 years may be retired upon filing with the board a written application on a form provided by the board for normal retirement setting forth the desired effective retirement date.

(d) Any vested member or vested former member who has attained the age of 55 years may be retired upon filing with the board a written application on a form provided by the board for early retirement setting forth the desired effective retirement date.

(e) The normal retirement pension shall consist of an annual allowance payable in monthly installments for the life of the retired member equal to 2 percent of his or her final compensation multiplied by the number of years of service to the preceding completed month to which the member is entitled to be credited at retirement, not to exceed 35 years, added to 1 percent of the member's final compensation multiplied by the number of years of service in excess of 35, not to exceed 10 years, reduced by the estimated primary insurance amount, if any, multiplied by the fraction of the number of years of service with the employer subject to coverage under the federal system, not to exceed 35 years, divided by 35.

In no event shall the normal retirement pension, when added to the estimated primary insurance amount, exceed 70 percent of the member's final compensation unless the years of service to which the member is entitled to be credited at retirement exceeds 35, in which case the normal retirement pension, when added to the estimated primary insurance amount, shall not exceed 80 percent of the member's final compensation.

(f) The early retirement pension shall consist of an annual allowance payable in monthly installments for the life of the retired member in an amount which is the actuarial equivalent of the normal retirement pension to which the retired member would be entitled if otherwise eligible for normal retirement, which shall be computed by multiplying the normal retirement pension by the early retirement adjustment factor set forth opposite the member's age as of the

birthday immediately preceding the date of retirement, in the following table:

Age	ERA Factor
55	.39
56	.43
57	.47
58	.51
59	.56
60	.61
61	.67
62	.74
63	.82
64	.90

The ERA factors set forth in this subdivision shall be used until adjusted by the board in accordance with the interest and mortality tables adopted by the board.

(g) The board, upon the advice of the actuary, shall establish and adjust, as required, the table of estimated primary insurance amounts, which shall be utilized in computing the retirement benefit. For purposes of this article, the primary insurance amount shall be estimated based on the employee's age and salary as of the date of retirement or the date of termination of a vested member, whichever is applicable, provided that:

(1) An employee's prior career earnings shall be assumed to have been subject to the federal system and to have increased on a year-to-year basis at a rate equivalent to the rate of increase in the average per worker total wages reported by the Social Security Administration, and

(2) For those members who have not attained the normal retirement age under the federal system as of the date of retirement (i) future earnings in employment covered by the federal system shall be assumed to continue at the rate of pay received by the employee from the employer as of the date of retirement or the date of termination of a vested member, whichever is applicable, and (ii) future wage bases, as defined by the federal system, shall be assumed to continue at the wage base in effect in the year of retirement or the year of termination of a vested member, whichever is applicable, and (iii) cost-of-living increases in the year of retirement and delayed retirement credit provided under the federal system shall not be included in the calculation of the estimated primary insurance amount.

(h) The employer shall certify the years of service to be credited at retirement and the final compensation to be utilized in computing the normal and early retirement pension.

(i) At the time of application for retirement, the member or former member shall provide adequate proof (1) of age and (2) of the eligibility of persons, if any, who at that time would otherwise qualify for the survivor allowance provided for in Section 31492.

(j) Notwithstanding subdivision (e) of Section 31491, any retired member receiving a normal retirement pension shall, as soon as possible but not later than six months following retirement, present evidence required by the board of the retired member's actual primary insurance amount. For purposes of this subdivision, the actual primary insurance amount shall be the amount payable under the federal system on the retired member's date of retirement without regard to delayed retirement credit or any deductions on account of work. Following receipt of that evidence, the board shall adjust the retired member's pension from the date of retirement to equal the amount of the pension to which he or she would have been entitled on that date had the estimated primary insurance amount equaled the actual primary insurance amount.

(Added by Stats. 1981, Ch. 910, Sec. 1, Effective September 28, 1981)

§31491.1. Adjustment of member's retirement benefit according to member's actual primary insurance amount (Los Angeles)

For the purposes of this section, the actual primary insurance amount shall be the amount being paid under the federal system. Following receipt of that evidence, the board shall adjust the retired member's pension to equal the amount of the pension to which he or she would have been entitled on that date had the estimated primary insurance amount equaled the actual insurance amount.

(b) The adjustment calculated in subdivision (a) shall be applied to the retired member's pension beginning in the month upon which the retired member presents evidence required by the board.

(c) This section shall not be operative in any county until the board of supervisors, by resolution adopted by majority vote, makes this section applicable.

(Added by Stats. 2001, Ch. 31 (AB 1214), Sec. 1)

§31491.2. Adjustment of member's retirement benefit according to member's federal estimated primary insurance amount (Los Angeles)

(a) Notwithstanding Section 31491, any retired member receiving a retirement pension may present evidence in the form required by the board of the retired member's federal estimated primary insurance amount provided that the retired member is not receiving a federal primary insurance amount. For the purposes of this section, the federal estimated primary insurance amount shall be the amount payable under the federal system as of the retired member's normal federal retirement age. Should the federal estimated primary insurance amount equal zero, the retired member shall not have his or her pension benefit reduced for an estimated primary insurance amount as required in subdivision (e) of Section 31491.

(b) Following receipt of that evidence, the board shall adjust the retired member's pension to equal the amount of the pension to which he or she would have been entitled on that date had the estimated primary insurance amount calculated in Section 31491 equaled zero.

(c) The adjustment calculated in subdivision (a) shall be applied to the retired member's pension beginning in the month upon which the retired member presents evidence required by the board.

(a) Notwithstanding subdivision (f) of Section 31491, for those members retiring on or after the operative date of this section, the early retirement pension shall consist of an annual allowance payable in monthly installments for the life of the retired member in an amount that is the actuarial equivalent of the normal retirement pension to which the retired member would

be entitled if otherwise eligible for normal retirement, which shall be computed by multiplying the normal retirement pension by the early retirement adjustment factor set forth opposite the member's age as of the birthday immediately preceding the date of retirement, in the following table:

Age	ERA Factor
55	.3748
56	.4109
57	.4511

63	.8113
64	.8998

(b) For those members retiring on or after the operative date of this section, paragraph (2) of subdivision (g) of Section 31491 shall not apply, but with regard to those members who have not attained the age of 62 years as of the date of retirement (1) future earnings in employment covered by the federal system shall be assumed to continue at the rate of pay received by the employee from the employer as of the date of retirement or the date of termination of employment of a vested member, whichever is applicable, until the member attains the age of 62 years, and (2) future wage bases, as defined by the federal system, shall be assumed to continue at the wage base in effect in the year of retirement or the year of termination of employment of a vested member, whichever is applicable, until the member attains the age of 62 years, and (3) cost-of-living increases in the year of retirement and delayed retirement credit provided under the federal system shall not be included in the calculation of the estimated primary insurance amount.

For purposes of this subdivision, the actual primary insurance amount shall be the amount actually payable under the federal system on the retired member's date of retirement without regard to delayed retirement credit or any deductions on account of work, or the estimate of that amount as set forth on a current earnings and benefits estimate statement provided by the Social Security Administration. Following receipt of that evidence, the board shall adjust the retired member's pension from the date of retirement to equal the amount of the pension to which he or she would have been entitled on that date had the estimated primary insurance amount equaled the actual primary insurance amount.

(d) This section shall only be applicable to Los Angeles County and shall not become operative until the board of supervisors of that county elects, by resolution adopted by a majority vote, to make this section operative in the county.

(Added by Stats. 2001, Ch. 778 (AB 399), Sec. 2, Effective October 13, 2001, as an urgency statute)

§31492. Death benefits; election for lower pension to obtain different survivor allowance (Los Angeles)

(a)(1) Upon the death of a retired member, 50 percent of the retirement pension, if not modified in accordance with the optional survivor allowance in subdivision (b), (c) or (d), shall

be continued during and throughout the life of his or her surviving spouse, if she or he was married to the member at least one year prior to the date of retirement. If there is no surviving spouse entitled to this allowance, or if he or she dies before every child of the deceased retired member, including every stepchild or adopted child, attains the age of 18 years, then the allowance that the spouse would have received had she or he survived, shall be paid to the deceased retired member's child or children under the age of 18 years. If the survivor allowance is to be paid to surviving children, it shall be divided among the children in equal shares. However, the right of any child to share in the allowance shall cease upon his or her death, marriage, or upon attaining the age of 18 years.

(2) Notwithstanding any other provisions of this subdivision, the allowance otherwise payable to the children of the retired member shall be paid to the children through the age of 21 years, if the children remain unmarried and are regularly enrolled as full-time students in any accredited school as determined by the board.

(b) If, upon the death of a retired member, there is no surviving spouse or child entitled to the allowance under this section, and the total retirement allowance income received by the member during his or her lifetime did not equal or exceed his or her accumulated normal contributions, if any, the member's designated beneficiary shall be paid an amount equal to the excess of his or her accumulated normal contributions over his or her total retirement allowance income.

(c)(1) A vested member, or vested former member, in lieu of the retirement allowance and survivor allowance, if any, otherwise payable to a retired member and his or her surviving spouse pursuant to this article, may elect to have the actuarial equivalent of these benefits, as of the date of retirement, applied to a lesser amount payable throughout the retired member's life and to an increased survivor allowance as approved by the board, upon the advice of the actuary, continued throughout the life of and paid to his or her surviving spouse, if he or she was married to the member at least one year prior to the date of retirement. If there is no surviving spouse entitled to this allowance, or if he or she dies before every child of the deceased retired member, including every stepchild and adopted child, attains the age of 18 years, then the increased survivor allowance that the spouse would have received had he or she survived shall be paid to the deceased retired member's child or children under the age of 18 years. If the increased survivor allowance is to be paid to surviving children, it shall be divided among the children in equal shares. However, the right of any child to share in the allowance shall cease upon his or her death, marriage, or attaining the age of 18 years.

(2) Notwithstanding any other provision of this subdivision, the increased allowance otherwise payable to the children of the retired member shall be paid to the children through the age of 21 years if the children remain unmarried and are regularly enrolled as full-time students in any accredited school as determined by the board.

(3) The election pursuant to this subdivision may not, in the opinion of the board and the actuary, place any additional burden upon the retirement system. If a member makes the election, the member's normal or early retirement benefit shall be reduced by the additional actuarial cost to the system resulting from the increased survivor allowance. The actuarial cost of the survivor allowance payable under this subdivision shall be calculated taking into account the life expectancy of the member's surviving spouse.

(4) This subdivision is not operative unless the county board of supervisors, by resolution adopted by a majority vote, makes this subdivision operative in the county. This subdivision applies only to members who retire after the operative date of this subdivision.

(d) A vested member, or vested former member, in lieu of the normal or early retirement pension for the retired member's life alone and the survivor allowance, if any, that would be payable under subdivision (a) or (c), may elect to have the actuarial equivalent of the retired member's pension as of the date of retirement applied to a lesser amount payable throughout

the retired member's life, and to a survivor allowance as approved by the board, upon the advice of the actuary, that, upon the death of the retired member, shall continue throughout the life of and be paid to the person or persons having an insurable interest in the life of the retired member, as the member or former member nominates by written designation duly executed and filed with the board at the time of retirement. The member's normal or early retirement benefit shall be reduced by the actuarial cost of the survivor allowance elected.

(Amended by Stats. 2001, Ch. 778 (AB 399), Sec. 5, Effective October 13, 2001, as an urgency statute)

§31494.1. Transfer of general members in noncontributory plan to contributory plan; retirement benefits; retirement service credit; contributions; rights to benefits; payment of contributions after death; operative date

(a) In accordance with the provisions of this section, general members, whose retirement benefits are governed by the noncontributory plan created by this article, may transfer to the contributory plan. Contributory plan shall mean Retirement Plan D. Transfer may be made by election upon written application executed by the member and filed with the board on or before the election date and shall be effective on the transfer date, subject to the terms and conditions set forth in this section. The election date shall be that date identified in the resolution adopted by the board of supervisors declaring this section to be operative. The transfer date shall be that date on which the member completes deposit of all contributions required by Section 31494.3. The election is voluntary and may be revoked upon written notice received by the board prior to the transfer date.

(b) The retirement benefits of members electing to transfer and transferred members shall be governed and defined by this section. In the event of conflict, this section shall supersede and prevail over other provisions, or application of provisions, otherwise contained in this article.

(c) Transferred members relinquish, waive, and forfeit any and all vested or accrued benefits available under any other retirement plan provided to members of the retirement system, and shall be entitled only to the benefits available under the contributory plan.

(d) Transferred members shall receive retirement service credit for that period of service with the employer, for which the members were otherwise eligible to receive credit under the plan created by this article. Transferred members shall also receive retirement service credit for that period of service for which the member made contributions pursuant to Section 31490.5.

(e) Transferred members may receive retirement service credit for service other than that with the employer, for which the members were credited or were eligible to receive credit under the plan created by this article, by written application executed by the member and filed with the board on or before the election date.

(f) The employer, the members who have elected to transfer, and transferred members shall make contributions to the retirement fund in accordance with the rates, and in the same manner, as prescribed under the contributory plan. The monthly contributions shall commence for the month next following the transfer date or that date 120 days after the election date, whichever is earlier.

(g) For purposes of calculating member contributions required under Section 31494.3, the entry age of a transferred member shall be that entry age as reflected in the retirement records maintained on behalf of the board.

(h) Failure of a member to deposit the contributions at the time and in the manner required by subdivision (a) of Section 31494.3 shall result in the cancellation of his or her election to transfer.

(i) Failure of a member to deposit the contributions at the time and in the manner required by subdivision (b) or (c) of Section 31494.3 shall result in the cancellation and forfeiture of his or her right to elect credit for other service under subdivision (e).

(j) Prior to the transfer date, the rights to retirement, disability, survivors, and death benefits of members who have made the election to transfer shall remain the same as defined and governed by this article. If those members die, terminate service, or make application for retirement prior to the transfer date, or fail to deposit all required contributions as required by Section 31494.3, all member contributions and regular interest shall be refunded to the member or member's survivor.

(k) Notwithstanding any other provision contained in this section or Section 31494.3, in the event of the death of a member who has elected to transfer prior to the transfer date, the spouse of the member, or the minor children of the member if no spouse survives the member, may elect to pay the balance of contributions required by Section 31494.3, and if the contributions are deposited in the retirement fund within 120 days after the death of the member, the spouse of the member, or if no spouse survives the member, the minor children of the member, shall be entitled to rights and benefits as if the deceased member had deposited all contributions required by Section 31494.3.

(l) Prior to the transfer date, the rights to retirement, disability, survivors, and death benefits of members who have made the election to transfer shall remain the same as defined and governed by this article. If those members die, terminate service, or make application for retirement prior to the transfer date, all member contributions and regular interest shall be refunded to the member or the member's survivor.

(m) This section shall be operative at such time or times as may be mutually agreed to in memoranda of understanding executed by the employer and employee representatives if the board of supervisors adopts, by majority vote, a resolution declaring that the section shall be operative.

§31494.2. Members whose benefits are governed by Retirement Plan D; election to change plan membership in Retirement Plan E; terms with respect to retirement, survivors', or other benefits; definitions; application and operative effect (Los Angeles)

(a) A general member whose benefits are governed by Retirement Plan D may, during a period of active employment, elect to change plan membership and become a member, prospectively, in Retirement Plan E. The election shall be made upon written application signed by the member and filed with the board, pursuant to enrollment procedures and during an

enrollment period established by the board, which enrollment period shall not occur more frequently than once every three years for that member. The change in plan membership shall be effective as of the transfer date, as defined in subdivision (d). Except as otherwise provided in this section, the rights and obligations of a member who elects to change membership under this section shall be governed by the terms of this article on and after the transfer date. Prior to the transfer date, the rights to retirement, survivors', or other benefits payable to a member and his or her survivors or beneficiaries shall continue to be governed by Retirement Plan D.

(b) Except as otherwise provided in this section, effective as of the transfer date, a member who has transferred to Retirement Plan E pursuant to this section and his or her survivors or beneficiaries shall receive retirement, survivors', and other benefits that shall consist of: (1) the benefits to which they are entitled under the terms of Retirement Plan E, but based on the member's service credited only under that plan, and payable at the time and in the manner provided under Retirement Plan E, and (2) the benefits to which they would have been entitled under the terms of Retirement Plan D had the member remained a member of Retirement Plan D, but based on the member's service credited only under that plan, and payable at the time and in the manner provided under Retirement Plan D. Except as otherwise provided in this section, the calculation of the member's, survivors', or beneficiaries' benefits under each plan shall be subject to that plan's respective, separate terms, including, but not limited to, the definitions of "final compensation" and provisions establishing cost-of-living adjustments, establishing minimum retirement age and service requirements, and governing integration with federal social security payments. Notwithstanding the foregoing, the aggregate service credited under both retirement plans shall be taken into account for the purpose of determining eligibility for and vesting of benefits under each plan.

(c) Notwithstanding any other provision of Retirement Plan D or Retirement Plan E:

(1) A member who has transferred to Retirement Plan E pursuant to this section may not retire for disability and receive disability retirement benefits under Retirement Plan D.

(2) If a member who has transferred to Retirement Plan E pursuant to this section dies prior to retirement, that member's survivor or beneficiary may not receive survivor or death benefits under Retirement Plan D but shall receive a refund of the member's contributions to Retirement Plan D together with all interest credited thereto.

(d) As used in this section:

(1) "Period of active employment" means a period during which the member is actively performing the duties of a full-time or part-time employee position or is on any authorized paid leave of absence, except a leave of absence during which the member is totally disabled and is receiving, or is eligible to receive, disability benefits, either during or after any elimination or qualifying period, under a disability plan provided by the employer.

(2) "Retirement Plan D" means the contributory retirement plan otherwise available to members of the system between June 1, 1979, and December 31, 2012, inclusive.

(3) "Retirement Plan E" means the noncontributory retirement plan established under this article.

(4) "Transfer date" means the first day of the first month that is at least 30 days after the date that the application is filed with the board to change plan membership under subdivision (a).

(e) This section shall only be applicable to Los Angeles County and shall not become operative until the board of supervisors of that county elects, by resolution adopted by a majority vote, to make this section operative in the county.

(Amended by Stats. 2016, Ch. 134 (AB 2376), Sec. 1)

§31494.3. Cost of contributions for members transferring to contributory plan, provision, deposit, amount; members applying for service credit relating to federal and military service; members applying for service credit relating to prior service and public service other than military and federal; operative date (Los Angeles)

(a) Members who have elected to transfer under Section 31494.1 shall be provided within 90 days of the election date the cost of contributions required for that period of all creditable service with the employer prior to the month for which monthly contributions are to commence, as prescribed in subdivision (f) of Section 31494.1, and shall deposit in the retirement fund, the amount hereinafter provided in this subdivision, by lump sum, or regular monthly installments, or both, over the period of time determined by a resolution adopted by a majority vote of the board of retirement, but in any event prior to the date of application for retirement or, if applicable, the date provided in Section 31485.8, the date of termination, or the date of death. The amount shall equal the sum of the contributions a member would have made to the retirement fund for that length of time as that for which the member shall receive credit as service, computed in accordance with the rate of contribution applicable to the member under the contributory plan, based upon entry age, and in the same manner as prescribed under the plan as if the plan had been in effect during the entire period of all creditable service, together with regular interest thereon.

(b) All service previously purchased by the member pursuant to Section 31490.5, if any, shall be recalculated in accordance with the rate of contribution applicable to the member under the contributory plan, based upon the entry age, and in the same manner as prescribed under the plan as if the contributory plan had been in effect during the entire period of all creditable service, together with regular interest thereon. All contributions paid by the member pursuant to Section 31490.5, if any, shall be credited toward the amount owed under subdivision (a) and all periods of service credited under the plan created by this article shall be transferred to the contributory plan upon completion of payment of that amount.

(c) Any member who applies for service credit under subdivision (e) of Section 31494.1 relating to federal and military service, shall be provided within 90 days of the election date the cost of contribution required for that service, and shall deposit in the retirement fund the amount hereinafter provided in this subdivision by lump sum, or regular monthly installments, or both, over the period of time determined by a resolution adopted by a majority vote of the board of retirement, but in any event prior to the date of application for retirement, date of termination, or death. The amount shall equal the sum of twice the contributions the member would have made to the retirement fund for the length of time as that for which the member has elected to receive credit as service, computed by applying the rate of contribution applicable to the member under the contributory plan, based upon entry age, to the monthly compensation first earnable by the member as of the most recent date of entry into the retirement system, multiplied by the number of months for which the member has elected to receive credit, together with regular interest thereon.

(d) Any member who applies for service credit under subdivision (e) of Section 31494.1, relating to prior service as defined in the bylaws of the board, other than qualifying service under Section 31490.5, and public service other than military and federal service, shall be provided within 90 days of the election date the cost of contribution required for that service, and shall deposit in the retirement fund the amount hereinafter provided in this subdivision, by lump sum or regular monthly installments, or both, over the period of time determined by a resolution adopted by a majority vote of the board of retirement, but in any event prior to the date of application for retirement or, if applicable, prior to the date provided in Section 31485.8, the date of termination, or the date of death. The amount shall equal that sum of contributions the member would have made to the retirement fund for the length of time as that for which the member has elected to receive credit as service, calculated in the same manner as prescribed

in the bylaws of the board relating to credit for prior service, except that such contribution shall be computed by applying the rate of contribution applicable to the member under the contributory plan, based upon entry age.

(e) This section shall be operative in a county at such time or times as may be mutually agreed to in memoranda of understanding executed by the employer and employee representatives if the board of supervisors adopts, by majority vote, a resolution declaring that the section shall be operative in the county.

§31494.5. Members whose benefits are governed by Retirement Plan E; election to change plan membership to Retirement Plan D; benefit terms (Los Angeles)

(a) A general member whose benefits are governed by Retirement Plan E may, during a period of active employment, elect to change plan membership and become a member, prospectively, in Retirement Plan D. The election shall be made upon written application signed by the member and filed with the board, pursuant to enrollment procedures and during an enrollment period established by the board, which enrollment period shall not occur more frequently than once every three years for that member. The change in plan membership shall be effective as of the transfer date, as defined in subdivision (g). Except as otherwise provided in this section, the rights and obligations of a member who elects to change membership under this section shall be governed by the terms of Retirement Plan D on and after the transfer date. Prior to the transfer date, the rights to retirement, survivors', or other benefits payable to a member and his or her survivors or beneficiaries shall continue to be governed by Retirement Plan E.

(b) If a member has made the election to change plans under subdivision (a), monthly contributions by the member and the employer under the terms of Retirement Plan D shall commence as of the transfer date. For the purposes of calculating the member's contribution rate under Retirement Plan D, his or her entry age shall be deemed to be his or her age at his or her birthday nearest the transfer date; however, if the member exchanges service credit in accordance with subdivision (c), with regard to contributions made for periods after that exchange, his or her entry age shall be adjusted and deemed to be the member's age at his or her birthday nearest the date on which begins the most recent period of unbroken service credited under Retirement Plan D, taking into account service purchased under subdivision (c). In no event shall the exchange of service under subdivision (c) affect the entry age with respect to, or the cost of, employee contributions made, or service purchased, prior to the exchange.

(c)(1) A general member who has elected to change plans under subdivision (a) also may elect to exchange, at that time or any time thereafter, but prior to the earlier of his or her application for retirement, termination from employment, or death, some portion designated in whole-month increments, or all of the service credited under Retirement Plan E for an equivalent amount of service credited under Retirement Plan D, provided, however, that the member may not exchange less than 12 months' service or, if less, the total service credited under Retirement Plan E. The exchange shall be effective on the date when the member completes the purchase of that service by depositing in the retirement fund, by lump sum or regular monthly installments, over the period of time determined by a resolution adopted by a majority vote of the board of retirement, or both, but in any event prior to the earlier of his or her death or the date that is 120 days after the effective date of his or her retirement, the sum of: (1) the contributions the member would have made to the retirement fund under Retirement Plan D for that length of time for which the member shall receive credit as service under Retirement Plan D, computed in accordance with the rate of contribution applicable to

the member under Retirement Plan D, based upon his or her entry age, and in the same manner prescribed under Retirement Plan D as if that plan had been in effect during the period for which the member shall receive service credit, and (2) the regular interest thereon.

(2) For the purposes of this subdivision, a member's entry age shall be deemed to be the member's age at his or her birthday nearest the date on which begins the most recent period of unbroken service credited under Retirement Plan D following completion of the service exchange under this subdivision. A member may receive credit for a period of service under only one plan and in no event shall a member receive credit for the same period of service under both Retirement Plan D and Retirement Plan E.

(3) A member who fails to complete the purchase of service as required under this subdivision shall be treated as completing an exchange of service under Retirement Plan E for an equivalent amount of service under Retirement Plan D only with regard to the service that actually has been purchased through completed deposit with the retirement fund of the requisite purchase amount, calculated in accordance with this subdivision.

(d) Except as otherwise provided in this section, effective as of the transfer date, a member who has transferred to Retirement Plan D pursuant to this section and his or her survivors or beneficiaries shall receive retirement, disability, survivors', death, or other benefits that shall consist of: (1) the benefits to which they are entitled under the terms of Retirement Plan D, but based on the member's service credited only under that plan, and payable at the time and in the manner provided under Retirement Plan D, and (2) the benefits to which they would have been entitled under the terms of Retirement Plan E had the member remained a member of Retirement Plan E, but based on the member's service credited only under that plan, and payable at the time and in the manner provided under Retirement Plan E. Except as otherwise provided in this section, the calculation of the portion of a member's or beneficiary's benefit that is attributable to each plan is subject to that plan's respective, separate terms, including, but not limited to, the definitions of "final compensation" and provisions establishing cost-of-living adjustments, establishing minimum age and service requirements, and governing integration with federal social security payments. Notwithstanding the foregoing, the aggregate service credited under both Retirement Plan D and Retirement Plan E shall be taken into account for the purpose of determining eligibility for, and vesting of, benefits under each plan.

(e) Notwithstanding any other provision of Retirement Plan D or Retirement Plan E, a member who transfers into Retirement Plan D under this section may retire for service-connected or nonservice-connected disability and receive disability benefits under Retirement Plan D only if he or she has either (1) completed two continuous years of active service after his or her most recent transfer date, or (2) earned five years of retirement service credit under Retirement Plan D after his or her most recent transfer date. Notwithstanding any other provision to the contrary, a member who becomes disabled and does not meet either of these conditions (1) may apply for and receive only a deferred or service retirement allowance, or (2) may elect to transfer prospectively back to Retirement Plan E, and for the purposes of calculating his or her retirement benefits under this section, shall in lieu of credit under Retirement Plan D be credited with service under Retirement Plan E as provided under subdivision (g) of Section 31488 during any period he or she is totally disabled and is receiving, or eligible to receive, disability benefits, either during or after any elimination or qualifying period, under a disability plan provided by the employer up to the earlier of the date he or she retires or no longer qualifies for disability benefits. If a member dies before he or she is eligible to retire and before completing either two continuous years of active service after the transfer date into Retirement Plan D or after earning five years of retirement service credit under

Retirement Plan D after that transfer date, that member's beneficiary shall not be entitled to the survivor allowance under Section 31781.1 or 31781.12, if operative.

(f) Notwithstanding any other provisions of Retirement Plan D or Retirement Plan E, a member who has transferred to Retirement Plan D pursuant to this section and who retires for disability when eligible under this section and Retirement Plan D, may not also retire for service and receive service retirement benefits under Retirement Plan E. However, for the purpose of calculating disability benefits under Retirement Plan D, the "sum to which he or she would be entitled as service retirement" or his or her "service retirement allowance," as those terms are used in Sections 31726, 31726.5, and 31727.4, shall consist of the blended benefit to which the member would be entitled under subdivision (d) if he or she retired for service, not just the service retirement benefit to which he or she would be entitled under Retirement Plan D.

(g) As used in this section:

(1) "Active service" means time spent on active, on-the-job performance of the duties of a full-time or part-time position and on any authorized paid leaves of absence; provided, however, that any authorized paid leave of absence or part-time service shall not constitute active service if the leave of absence or part-time service is necessitated by a preexisting disability, injury, or disease. The board of retirement shall determine whether or not a leave of absence or part-time service is necessitated by a preexisting disability, injury, or disease, and thus excluded from the member's active service, based upon evidence presented by the employer and the member upon request by the board.

(2) "Entry age" means the age used for calculating the normal rate of contribution to Retirement Plan D with respect to a member who has transferred membership to Retirement Plan D under this section.

(3) "Period of active employment" means a period during which the member is actively performing the duties of a full-time or part-time employee position or is on any authorized paid leave of absence, except a leave of absence during which the member is totally disabled and is receiving, or is eligible to receive, disability benefits, either during or after any elimination or qualifying period, under a disability plan provided by the employer.

(4) "Retirement Plan D" means the contributory retirement plan otherwise available to members of the system between June 1, 1979, and December 31, 2012, inclusive.

(5) "Retirement Plan E" means the noncontributory retirement plan established under this article.

(6) "Transfer date" means the first day of the first month that is at least 30 days after the date that the application is filed with the board to change plan membership under subdivision (a).

(h) This section shall only be applicable to Los Angeles County and shall not become operative until the board of supervisors of that county elects, by resolution adopted by a majority vote, to make this section operative in the county.

§31495.5. Retirement or death allowances payable on or after operative date of section, to or on account of any member of Retirement Plan E who retires or dies or who has retired or died, as of April 1 each year; increase or decrease by amount equal to member's automatic COLA and as calculated by board of retirement before April 1 of each year; election to purchase elective COLA; amount of required contributions; allowances with respect to death and disability; definitions; application and operative effect (Los Angeles)

(a) Notwithstanding any other provision of this article, every retirement allowance or death allowance payable, on or after the operative date of this section, to or on account of any member of Retirement Plan E who retires or dies or who has retired or died shall, as of April 1 each year, be increased or decreased by an amount equal to that member's automatic COLA, as defined in subdivision (f) and as calculated by the board of retirement before April 1 of each year. No decrease in the cost of living shall reduce an allowance below the amount being received by the member or his or her beneficiary on the effective date of the allowance or the operative date of this section, whichever is later.

(b) A Retirement Plan E member may elect to purchase an elective COLA, as defined in subdivision (f), with regard to some portion (designated in whole-month increments) or all of his or her months of Retirement Plan E service earned prior to the operative date of this section. The member may also elect to purchase an elective COLA, as defined in subdivision (f), with regard to some portion (designated in whole-month increments) or all of his or her months of Retirement Plan E service purchased pursuant to Section 31490.5, including service rendered after June 4, 2002, but prior to becoming a member of this system.

(c) The election shall be made upon written application signed by the member and filed with the board pursuant to election procedures and during election periods established by the board. The purchase of the elective COLA shall be effective only when the member has paid contributions necessary to purchase the designated amount of service for which he or she shall receive the elective COLA. The amount of required contributions shall be determined by the board, subject to the following:

(1) The cost of purchasing service for elective COLA purposes shall be determined by the board of retirement such that no elective COLA liability shall be borne by the county and no diminution in the funding ratio of the system shall result.

(2) The cost charged to the member for purchasing the elective COLA service shall be based upon the assumption that the member retires at the age of 65 years.

(3) Members may pay for the elective COLA by lump-sum payment or monthly installments over a period to be determined by a resolution adopted by a majority vote of the board of retirement, or both, but in any event prior to the earlier of his or her death or the date that is 120 days after the effective date of his or her retirement.

(4) If a member fails to timely complete the purchase of his or her elective COLA, he or she shall receive an elective COLA calculated only with regard to that amount of service actually purchased.

(5) If a Retirement Plan E member dies prior to retirement, any contributions made toward the purchase of an elective COLA, and all interest credited thereto, shall be refunded to the deceased member's surviving spouse or, if there is no surviving spouse, to the deceased member's surviving child or children under the age of 18 years, divided among those children in equal amounts, or, if there is no surviving spouse or surviving child or children under the age of 18 years, to the deceased member's estate.

(d) If a Retirement Plan E member elects and purchases an elective COLA, then, notwithstanding any other provision of this article, every Retirement Plan E allowance or postretirement death allowance payable on and after the operative date of this section, to or on account of that member who retires or dies or who has retired or died shall, as of April 1 of each year, be increased or decreased by an amount equal to that member's elective COLA

as calculated by the board of retirement before April 1 of each year. No decrease in the cost of living shall reduce an allowance below the amount being received by the member or his or her beneficiary on the effective date of the allowance or this provision, whichever is later.

Notwithstanding any other provisions of this section, if a member retires before attaining the age of 65 years, his or her elective COLA shall be actuarially reduced to reflect that earlier retirement age unless, within 120 days after his or her retirement, he or she contributes by lump-sum the amount necessary to complete the purchase of his or her elective COLA as determined by the board. If, upon a member's retirement, the board of retirement determines that a member has paid more contributions than necessary to purchase his or her elective COLA in accordance with subdivision (b), the member shall receive a refund of those excess contributions and all interest credited thereto. Upon retirement or termination of employment, but before he or she begins receiving his or her elective COLA, a member may revoke his or her election to purchase an elective COLA and receive a refund of any contributions made toward the purchase of the elective COLA and all interest credited thereto.

(e) If a Retirement Plan E member or former member is totally disabled, begins receiving disability benefits, other than state-mandated benefits, under a disability plan provided by the employer on or after the operative date of this section, and, on or after that date, his or her employment terminates, then, for purposes of calculating the member's or former member's final compensation, his or her predisability compensation, as previously adjusted in accordance with this subdivision and paragraph (5) of subdivision (f), shall, as of April 1 of each year after his or her employment terminates and during a period for which he or she both remains totally disabled and earns "service" within the meaning of subdivision (g) of Section 31488, be increased or decreased by an amount equal to that member's or former member's predisability compensation adjustment as calculated by the board of retirement before April 1 of each year.

(f) As used in this section:

(1) "Automatic COLA" means, with respect to any member of Retirement Plan E, an amount equal to the allowance then being received (including any automatic or elective COLAs previously received), multiplied by a percentage (rounded to the nearest one-tenth of 1 percent) derived by taking the number of months of service the member earned on and after the operative date of this section, dividing by the member's total months of service, and multiplying by a percentage equal to the lesser of 2 percent or the percentage found by the board of retirement to approximate to the nearest one-half of 1 percent the percentage of annual increase or decrease in the cost of living as of January 1 of each year as shown by the then current CPI, as adjusted for the amount applied from a prior year. For purposes of applying this formula, the amount of any annual cost-of-living increase under the CPI in excess of the 2 percent maximum shall be accumulated and applied in future years in which the annual cost-of-living increase under the CPI is less than the 2 percent maximum.

(2) "CPI" means the Bureau of Labor Statistics Consumer Price Index for All Urban Consumers for the area in which the county seat is situated.

(3) "Elective COLA" means, with respect to any member of Retirement Plan E, an amount equal to the allowance then being received (including any automatic or elective COLAs previously received), multiplied by a percentage (rounded to the nearest one-tenth of 1 percent) derived by taking the number of months of service the member purchased in accordance with subdivision (b), dividing by the member's total months of service, and multiplying by a percentage equal to the lesser of 2 percent or the percentage found by the board of retirement to approximate to the nearest one-half of 1 percent the percentage of annual increase or decrease in the cost of living as of January 1 of each year as shown by the then current CPI, as adjusted for the amount applied from a prior year. For purposes of applying this formula, the amount of any annual cost-of-living increase under the CPI in excess of the 2 percent maximum shall be accumulated and applied in future years in which the annual cost-of-living increase under the CPI is less than the 2 percent maximum.

(4) "Predisability compensation" means a member's last 12 months of compensation earnable preceding the date his or her employment terminates while he or she is receiving disability benefits, other than state-mandated benefits, under a disability plan provided by the employer because he or she is totally disabled. The employer shall provide the board of retirement with the information necessary for a member's predisability compensation to be determined.

(5) "Predisability compensation adjustment" means, with respect to any member or former member of Retirement Plan E qualifying under subdivision (e), an amount equal to that member's or former member's predisability compensation as previously adjusted under this section, multiplied by a percentage equal to the lesser of 2 percent or the percentage found by the board of retirement to approximate to the nearest one-half of 1 percent the percentage of annual increase or decrease in the cost of living as of January 1, of each year as shown by the then current CPI, as adjusted for the amount applied from a prior year. For the purpose of applying this formula, the amount of any annual cost-of-living increase under the CPI in excess of the 2 percent maximum shall be accumulated and applied in future years in which the annual cost-of-living increase under the CPI is less than the 2 percent maximum.

(g) This section shall only be applicable to Los Angeles County and shall not become operative until the board of supervisors of that county elects, by resolution adopted by a majority vote, to make this section operative in the county.

(b) A member who transfers to the retirement plan created by this article shall have refunded, within a reasonable period of time, not to exceed nine months from the date of receipt of election to transfer by the board, the member's accumulated contributions, together with interest thereon, which are credited to the member's account. (Added by Stats. 1982, Ch. 1381, Sec. 1)

§31497.3. Retirement; time of vesting; eligibility; application; benefits (San Mateo)

(a) Retirement of a member or former member who has met the requirements for age and service shall be made by the board, at which time the member or former member becomes a retired member.

(b) Any member who has completed 10 years of service shall be vested under the plan created by this article.

(c) Any vested member or vested former member who has attained the age of 65 years may be retired upon filing with the board a written application on a form provided by the board for normal retirement setting forth the desired effective retirement date.

(d) Any vested member or vested former member who has attained the age of 55 years may be retired upon filing with the board a written application on a form provided by the

board for early retirement setting forth the desired effective retirement date.

(e) The normal retirement pension shall consist of an annual allowance payable in monthly installments for the life of the retired member equal to 2 percent of his or her final compensation multiplied by the number of years of service to the preceding completed month to which the member is entitled to be credited at retirement, not to exceed 35 years, added to 1 percent of the member's final compensation multiplied by the number of years of service in excess of 35, not to exceed 10 years, reduced by the estimated primary insurance amount, if any, multiplied by the fraction of the number of years of service with the employer subject to coverage under the federal system, not to exceed 35 years, divided by 35.

In no event shall the normal retirement pension, when added to the estimated primary insurance amount, exceed 70 percent of the member's final compensation unless the years of service to which the member is entitled to be credited at retirement exceeds 35, in which case the normal retirement pension, when added to the estimated primary insurance amount, shall not exceed 80 percent of the member's final compensation.

(f) The early retirement pension shall consist of an annual allowance payable in monthly installments for the life of the retired member in an amount which is the actuarial equivalent of the normal retirement pension to which the retired member would be entitled if otherwise eligible for normal retirement, which shall be computed by multiplying the normal retirement pension by the early retirement adjustment factor set forth opposite the member's age as of the birthday immediately preceding the date of retirement, in the following table:

Age	ERA Factor
55	.39
56	.43
57	.47
58	.51
59	.56
60	.61
61	.67
62	.74
63	.82
64	.90

The ERA factors set forth in this subdivision shall be used until adjusted by the board in accordance with the interest and mortality tables adopted by the board.

(g) The board, upon the advice of the actuary, shall establish and adjust, as required, the table of estimated primary insurance amounts, which shall be utilized in computing the retirement benefit. For purposes of this article, the primary insurance amount shall be estimated based on the employee's age and salary as of the date of retirement or the date of termination of a vested member, whichever is applicable, provided that:

(1) An employee's prior career earnings shall be assumed to have been subject to the federal system and to have increased on a year-to-year basis at a rate equivalent to the rate of increase in the average per worker total wages reported by the Social Security Administration, and

(2) For those members who have not attained the normal retirement age under the federal system as of the date of retirement (i) future earnings in employment covered by the federal system shall be assumed to continue at the rate of pay received by the employee from the employer as of the date of retirement or the date of termination of a vested member, whichever is applicable, and (ii) future wage bases, as defined by the federal system, shall be assumed to continue at the wage base in effect in the year of retirement or the year of termination of a vested member, whichever is applicable, and (iii) cost-of-living increases in the year of retirement and delayed retirement credit provided under the federal system shall not be

included in the calculation of the estimated primary insurance amount.

(h) The employer shall certify the years of service to be credited at retirement and the final compensation to be utilized in computing the normal and early retirement pension.

(i) At the time of application for retirement, the member or former member shall provide adequate proof (1) of age and (2) of the eligibility of persons, if any, who at that time would otherwise qualify for the survivor allowance provided for in Section 31497.7.

(j) Notwithstanding subdivision (e) of Section 31497.3, any retired member receiving a normal retirement pension shall, as soon as possible but not later than six months following retirement, present evidence required by the board of the retired member's actual primary insurance amount. For purposes of this subdivision, the actual primary insurance amount shall be the amount payable under the federal system on the retired member's date of retirement without regard to delayed retirement credit or any deductions on account of work. Following receipt of that evidence, the board shall adjust the retired member's pension from the date of retirement to equal the amount of the pension to which he or she would have been entitled on that date had the estimated primary insurance amount equaled the actual primary insurance amount.

(Added by Stats. 1982, Ch. 1381, Sec. 1)

§31497.7. Death benefits; election for lower pension to obtain different survivor allowance (San Mateo)

(a) Upon the death of a retired member, 50 percent of the retirement pension, if not modified in accordance with the optional survivor allowance in subdivision (b), shall be continued during and throughout the life of his or her surviving spouse, if he or she was married to the member at least one year prior to the date of retirement. If there is no surviving spouse entitled to this allowance, or he or she dies before every child of the deceased retired member, including stepchild or adopted child, attains the age of 18 years, then the allowance which the surviving spouse would have received had she or he lived, shall be paid to the deceased retired member's child or children under the age of 18 years. If the survivor allowance is to be paid to surviving children, the allowance shall be divided among the children in equal amounts. However, the right of any child to share in the allowance shall cease upon his or her death, marriage, or upon attaining the age of 18 years.

Notwithstanding any other provisions of this subdivision, the allowance otherwise payable to the children of the retired member shall be paid to the children through the age of 21, if the children remain unmarried and are regularly enrolled as full-time students in any accredited school as determined by the board.

(b) A vested member, or vested former member, in lieu of the normal or early retirement pension for the retired member's life alone, may elect to have the actuarial equivalent of the retired member's pension as of the date of retirement applied to a lesser amount payable throughout the retired member's life, and thereafter to have a survivor allowance as approved by the board, upon the advice of the actuary, continued throughout the life of and paid to the person or persons having an insurable interest in the life of the retired member, as the member or former member nominates by written designation duly executed and filed with the board at the time of retirement.

(c) Designations pursuant to subdivision (b) shall not, in the opinion of the board and the actuary, place any additional burden upon the retirement system.

(Added by Stats. 1982, Ch. 1381, Sec. 1)

§31498. Employment subsequent to effective date of article; certification; automatic coverage (San Mateo)

(a) Any person employed subsequent to the effective date of this article who would

otherwise qualify as a member shall not become a member until he or she certifies to the board his or her election to be covered by the retirement plan established by this article or to be covered by the retirement provisions and benefits otherwise available to members on the date preceding the effective date of this article. As a condition of continued employment, the certification shall be made within 60 days of employment. The employer shall make available to the person a disclosure of the elements of each of the available retirement plans prior to accepting his or her election.

(b) If the person does not elect to be covered by either Retirement Plan 2 or Retirement Plan 3 within 60 days of employment, the person shall automatically be covered by Retirement Plan 2 and no certification shall be required.

(Amended by Stats. 1992, Ch. 707, Sec. 4, Effective September 15, 1992)

§31498.3. Transfer to Plan 3 by general members; change of election upon reemployment not permitted (San Mateo)

(a) General members may, within 180 days of the effective date of this article, elect to transfer to the retirement plan created by this article upon proper application executed by the member and filed with the board.

(b) The retirement benefits of the transferred members are governed and defined by this article.

(c) Transferring members relinquish and waive any and all previously available vested or accrued retirement, survivor, disability and death benefits. However, notwithstanding any other provision of this article, a transferring member shall receive credit for no more than 24 months of public service performed prior to December 31, 1969, including service with the employer, military service, and any other public service to which the member would otherwise be eligible under this chapter, except that member contributions shall not be collected.

(d) The transfer by the member is voluntary and shall be irrevocable, unless the board of supervisors, by resolution, authorizes Retirement Plan 3 members to transfer to Retirement Plan 2, under terms and conditions specified in the resolution. These terms may include, but are not limited to, an eligibility provision based on the number of years in county service, a provision for crediting service in Retirement Plan 2 only for that service rendered after adoption of the resolution, or an eligibility provision allowing members to transfer to Retirement Plan 2 all county service rendered under Retirement Plan 3 provided the member deposits into the retirement fund within a specified time an amount equal to the contributions he or she would have made during that time, had he or she been a member of Retirement Plan 2, together with regular interest on that amount. The resolution may establish different conditions for different job classifications or groups, and for represented bargaining units, conditions mutually agreed upon by the employer and the employee representative. The board of supervisors may also establish any other conditions it deems necessary or desirable.

(e) Any member who has elected or transferred to the plan created by this article and who terminates his or her employment and is later reemployed shall not be entitled to change his or her election upon that reemployment, unless a resolution, enacted by the board of supervisors subsequent to the member's election to transfer to the new plan, so provides.

(Amended by Stats. 1991, Ch. 344, Sec. 2, Effective August 6, 1991. Applicable as of March 1, 1991, pursuant to Ch. 344, Sec. 3)

(2) A member who transfers to the retirement plan created by this article shall have refunded, within a reasonable period of time, not to exceed nine months from the date of receipt of election to transfer by the board, the member's accumulated contributions, together with interest thereon, which are credited to the member's account. Interest shall be credited to the June 30 or December 31 date, whichever is later, immediately preceding the date of the refund warrant. Any refund under this section shall be payable to the member.

(b)(1) Except as provided in Sections 31499.3 and 31499.7 and under reciprocal provisions of this article, a member who was in public service prior to becoming a member may not elect to receive credit in this retirement plan for that public service time, and may not receive credit for that prior public service.

(2) Absence from work or termination of employment while an eligible employee or disability beneficiary, as defined by a disability plan provided by the employer, may not be considered as breaking the continuity of service.

(3) For the purposes of subdivision (b) of Section 31499.4, an unpaid leave of absence of not to exceed one year, or a leave of absence for which an employee receives any benefit which has been approved by the employer, may not be considered an interruption of service. However, the period of time of unpaid leave may not be considered as service in calculating the benefits otherwise provided under this article.

(Amended by Stats. 2004, Ch. 533 (AB 2234), Sec. 13)

§31499.3. Credit for public service prior to becoming member; interruption of service (Merced)

(a) An active member governed by the provisions of this article may elect, by written

notice filed with the board, to make contributions and receive credit in this retirement system for service with the county that was rendered prior to his or her current membership in the system and for which he or she would not otherwise be entitled to receive credit pursuant to this article.

(b) Notwithstanding any other provision of this chapter, service credit received by a member pursuant to this section may not be counted to meet the minimum qualifications for service or disability retirement, additional cost-of-living benefits, health care benefits, or any other benefits based on service credit.

(c) Any member who elects to make contributions and receive service credit pursuant to this section shall contribute to the retirement fund, prior to the effective date of his or her retirement or, if applicable, prior to the date provided in Section 31485.7, by lump-sum payment or by installment payments over a period not to exceed 10 years, an amount that is equal to the present value of the additional liability incurred by the system in crediting the prior service, based upon actuarial assumptions in effect for the retirement system at the time the election is made.

(d) No member may receive any service credit under this section for which he or she has not completed payment pursuant to subdivision (c) before the effective date of his or her retirement or, if applicable, before the date provided in Section 31485.7. Subject to the limitations of federal law, a member who has elected to make payments in installments may complete payment by lump sum at any time prior to the effective date of his or her retirement.

(e) Any sums paid by a member pursuant to this section shall be considered to be and administered as contributions by the member.

(f) This section is not operative until the board of supervisors elects, by resolution adopted by a majority vote, to make this section operative in the county.

(Added Stats. 2004, Ch. 533 (AB 2234), Sec. 15. Former section repealed in 2004. Ch. 533, Sec. 4)

§31499.4. Retirement of member; vested membership; computation of allowance (Merced)

(a) Retirement of a member or former member who has met the requirements for age and service shall be made by the board, at which time the member or former member becomes a retired member.

(b) Any member who has completed 10 years of service shall be vested under the plan created by this article.

(c) Any vested member or vested former member who has attained the age of 65 years may be retired upon filing with the board a written application on a form provided by the board for normal retirement setting forth the desired effective retirement date.

(d) Any vested member or vested former member who has attained the age of 55 years may be retired upon filing with the board a written application on a form provided by the board for early retirement setting forth the desired effective retirement date.

(e) The normal retirement pension shall consist of an annual allowance payable in monthly installments for the life of the retired member equal to 2 percent of his or her final compensation multiplied by the number of years of service to the preceding completed month to which the member is entitled to be credited at retirement, not to exceed 35 years, added to 1 percent of the member's final compensation multiplied by the number of years of service in excess of 35, not to exceed 10 years, reduced by the estimated primary insurance amount, if any, multiplied by the fraction of the number of years of service with the employer subject to coverage under the federal system, not to exceed 35 years, divided by 35.

In no event shall the normal retirement pension, when added to the estimated primary insurance amount, exceed 70 percent of the member's final compensation unless the years of

service to which the member is entitled to be credited at retirement exceeds 35, in which case the normal retirement pension, when added to the estimated primary insurance amount, shall not exceed 80 percent of the member's final compensation.

(f) The early retirement pension shall consist of an annual allowance payable in monthly installments for the life of the retired member in an amount which is the actuarial equivalent of the normal retirement pension to which the retired member would be entitled if otherwise eligible for normal retirement, which shall be computed by multiplying the normal retirement pension by the early retirement adjustment factor set forth opposite the member's age as of the birthday immediately preceding the date of retirement, in the following table:

Age	ERA Factor
55	.39
56	.43
57	.47
58	.51
59	.56
60	.61
61	.67
62	.74
63	.82
64	.90

The ERA Factors set forth in this subdivision shall be used until adjusted by the board in accordance with the interest and mortality tables adopted by the board.

(g) The board, upon the advice of the actuary, shall establish and adjust, as required, the table of estimated primary insurance amounts, which shall be utilized in computing the retirement benefit. For purposes of this article, the primary insurance amount shall be estimated based on the employee's age and salary as of the date of retirement or the date of termination of a vested member, whichever is applicable, provided that:

(1) An employee's prior career earnings shall be assumed to have been subject to the federal system and to have increased on a year-to-year basis at a rate equivalent to the rate of increase in the average per worker total wages reported by the Social Security Administration, and

(2) For those members who have not attained the normal retirement age under the federal system as of the date of retirement (i) future earnings in employment covered by the federal system shall be assumed to continue at the rate of pay received by the employee from the employer as of the date of retirement or the date of termination of a vested member, whichever is applicable, and (ii) future wage bases, as defined by the federal system, shall be assumed to continue at the wage base in effect in the year of retirement or the year of termination of a vested member, whichever is applicable, and (iii) cost-of-living increases in the year of retirement and delayed retirement credit provided under the federal system shall not be included in the calculation of the estimated primary insurance amount.

(h) The employer shall certify the years of service to be credited at retirement and the final compensation to be utilized in computing the normal and early retirement pension.

(i) At the time of application for retirement, the member or former member shall provide adequate proof (1) of age and (2) of the eligibility of persons, if any, who at that time would otherwise qualify for the survivor allowance provided for in Section 31499.8.

(j) Notwithstanding subdivision (e) of Section 31499.4, any retired member receiving a normal retirement pension shall, as soon as possible but not later than six months following retirement, present evidence required by the board of the retired member's actual primary insurance amount. For purposes of this subdivision, the actual primary insurance amount shall

be the amount payable under the federal system on the retired member's date of retirement without regard to delayed retirement credit or any deductions on account of work. Following receipt of that evidence, the board shall adjust the retired member's pension from the date of retirement to equal the amount of the pension to which he or she would have been entitled on that date had the estimated primary insurance amount equaled the actual primary insurance amount.

(Added by Stats. 1983, Ch. 558, Sec. 4, Effective July 28, 1983)

§31499.5. Death of retired member; survivors' benefits (Merced)

(a) Upon the death of a retired member, 50 percent of the retirement pension, if not modified in accordance with the optional survivor allowance in subdivision (b), shall be continued during and throughout the life of his or her surviving spouse, if he or she was married to the member at least one year prior to the date of retirement. If there is no surviving spouse entitled to this allowance, or if he or she dies before every child of the deceased retired member, including stepchild or adopted child, attains the age of 18 years, then the allowance which the surviving spouse would have received had she or he lived, shall be paid to the deceased retired member's child or children under the age of 18 years. If the survivor allowance is to be paid to surviving children, the allowance shall be divided among the children in equal amounts. However, the right of any child to share in the allowance shall cease upon his or her death, marriage, or upon attaining the age of 18 years.

Notwithstanding any other provisions of this subdivision, the allowance otherwise payable to the children of the retired member shall be paid to the children through the age of 21, if the children remain unmarried and are regularly enrolled as full-time students in any accredited school as determined by the board.

(b) A vested member, or vested former member, in lieu of the normal or early retirement pension for the retired member's life alone, may elect to have the actuarial equivalent of the retired member's pension as of the date of retirement applied to a lesser amount payable throughout the retired member's life, and thereafter to have survivor allowance as approved by the board, upon the advice of actuary, continued throughout the life of and paid to the person or persons having an insurable interest in the life of the retired member, as the member or former member nominates by written designation duly executed and filed with the board at the time of retirement.

(c) Designations pursuant to subdivision (b) shall not, in the opinion of the board and the actuary, place any additional burden upon the retirement system.

(Added by Stats. 1983, Ch. 558, Sec. 4, Effective July 28, 1983)

§31499.6. Election of employee to become member (Merced)

Any person employed subsequent to the effective date of this article who would otherwise qualify as a member shall not become a member until he or she certifies to the board his or her election to be covered by the retirement plan established by this article or to be covered by the retirement provisions and benefits otherwise available to members on the date preceding the effective date of this article. As a condition of continued employment, the certification shall be made within 60 days of employment. The employer shall make available to the person a disclosure of the elements of each of the available retirement plans prior to accepting his or her election.

(Added by Stats. 1983, Ch. 558, Sec. 4, Effective July 28, 1983)

§31499.7. Transfers to plan (Merced)

(a) General members may, within 180 days of the effective date of this article, elect to transfer to the retirement plan created by this article upon proper application executed by the

member and filed with the board. Such transfer is voluntary and shall be irrevocable.

(b) The retirement benefits of the transferred members are governed and defined by this article.

(c) Transferring members relinquish and waive any and all previously available vested or accrued retirement, survivor, disability and death benefits. However, notwithstanding any other provision of this article, a transferring member shall receive credit for no more than 24 months of public service performed prior to December 31, 1969, including service with the employer, military service, and any other public service to which the member would otherwise be eligible under this chapter, except that member contributions shall not be collected.

(d) Any member who has elected or transferred to the plan created by this article and who terminates his or her employment and is later reemployed shall not be entitled to change his or her election upon such reemployment.

(Added by Stats. 1983, Ch. 558, Sec. 4, Effective July 28, 1983)

§31499.9. Severability (Merced)

If any provision of this article, or the application thereof, to any person or circumstances, is held invalid, the invalidity shall not affect other provisions or application of the article which can be given effect without the invalid provisions or application and, to this end the provisions of this article are severable.

§31499.14. Retiring of member or former member; vesting; application; normal or early retirement pensions; computation; proof of age and eligibility (Stanislaus)

(a) Retirement of a member or former member who has met the requirements for age and service shall be made by the board, at which time the member or former member becomes a retired member.

(b) Any member who has completed 10 years of service shall be vested under the plan created by this article.

(c) Any member who is not vested, whose employment terminated, and who is then reemployed shall not receive credit for his or her previous service credited under Plan 3, provided, that the service was rendered in Plan 3.

(d) Any vested member or vested former member who has attained the age of 65 years may be retired upon filing with the board a written application on a form provided by the board for normal retirement setting forth the desired effective retirement date.

(e) Any vested member or vested former member who has attained the age of 55 years may be retired upon filing with the board a written application on a form provided by the board for early retirement setting forth the desired effective retirement date.

(f) The normal retirement pension shall consist of an annual allowance payable in monthly installments for the life of the retired member equal to 2 percent of his or her final compensation multiplied by the number of years of service to the preceding completed month to which the member is entitled to be credited at retirement, not to exceed 35 years, added to 1 percent of the member's final compensation multiplied by the number of years of service in excess of 35, not to exceed 20 years, reduced by the estimated primary insurance amount, if any, multiplied by the fraction of the number of years of service with the employer subject to coverage under the federal system, not to exceed 35 years, divided by 35.

In no event shall the normal retirement pension, when added to the estimated primary insurance amount, exceed 70 percent of the member's final compensation unless the years of service to which the member is entitled to be credited at retirement exceeds 35, in which case the normal retirement pension, when added to the estimated primary insurance amount, shall not exceed 80 percent of the member's final compensation.

(g) The early retirement pension shall consist of an annual allowance payable in monthly installments for the life of the retired member in an amount which is the actuarial

equivalent of the normal retirement pension to which the retired member would be entitled if otherwise eligible for normal retirement, which shall be computed by multiplying the normal retirement pension by the early retirement adjustment factor set forth opposite the member's age as of the birthday immediately preceding the date of retirement in the following table:

Age	ERA Factor
55	.39
56	.43
57	.47
58	.51
59	.56
60	.61
61	.67
62	.74
63	.82
64	.90

The early retirement adjustment factor set forth in this subdivision shall be used until adjusted by the board in accordance with the interest and mortality tables adopted by the board.

(h) The board, upon the advice of the actuary, shall establish and adjust, as required, the table of estimated primary insurance amounts, which shall be utilized in computing the retirement benefit. For purposes of this article, the primary insurance amount shall be estimated based on the employee's age and salary as of the date of retirement or the date of termination of a vested member, whichever is applicable, provided that:

(1) An employee's prior career earnings shall be assumed to have been subject to the federal system and to have increased on a year-to-year basis at a rate equivalent to the rate of increase in the average per worker total wages reported by the Social Security Administration, and

(2) For those members who have not attained the normal retirement age under the federal system as of the date of retirement (A) future earnings in employment covered by the federal system shall be assumed to continue at the rate of pay received by the employee from the employer as of the date of retirement or the date of termination of a vested member, whichever is applicable, and (B) future wage bases, as defined by the federal system, shall be assumed to continue at the wage base in effect in the year of retirement or the year of termination of a vested member, whichever is applicable, and (C) cost-of-living increases in the year of retirement and delayed retirement credit provided under the federal system shall not be included in the calculation of the estimated primary insurance amount.

(i) The employer shall certify the years of service to be credited at retirement and the final compensation to be utilized in computing the normal and early retirement pension.

(j) At the time of application for retirement, the member or former member shall provide adequate proof (1) of age and (2) of the eligibility of persons, if any, who at that time would otherwise qualify for the survivor allowance provided for in Section 31499.15.

(k) Notwithstanding subdivision (f), any retired member receiving a normal retirement pension shall, as soon as possible but not later than six months following retirement, present evidence required by the board of the retired member's actual primary insurance amount. For purposes of this subdivision, the actual primary insurance amount shall be the amount payable under the federal system on the retired member's date of retirement without regard to delayed retirement credit or any deductions on account of work. Following receipt of that evidence, the board shall adjust the retired member's pension from the date of retirement to equal the amount of the pension to which he or she would have been entitled on that date had the

estimated primary insurance amount equaled the actual primary insurance amount.

(Added by Stats. 1985, Ch. 175, Sec. 1)

§31499.15. Survivor allowance (Stanislaus)

(a) Upon the death of a retired member, 50 percent of the retirement pension, if not modified in accordance with the optional survivor allowance in subdivision (b), shall be continued during and throughout the life of his or her surviving spouse, if he or she was married to the member at least one year prior to the date of retirement. If there is no surviving spouse entitled to this allowance, or if he or she dies before every child of the deceased retired member, including stepchild or adopted child, attains the age of 18 years, then the allowance which the surviving spouse would have received had he or she lived, shall be paid to the deceased retired member's child or children under the age of 18 years. If the survivor allowance is to be paid to surviving children, the allowance shall be divided among the children in equal amounts. However, the rights of any child to share in the allowance shall cease upon his or her death, marriage, or upon attaining the age of 18 years.

Notwithstanding any other provisions of this subdivision, the allowance otherwise payable to the children of the retired member shall be paid to the children through the age of 21, if the children remain unmarried and are regularly enrolled as full-time students in any accredited school as determined by the board.

(b) A vested member, or vested former member, in lieu of the normal or early retirement pension for the retired member's life alone, may elect to have the actuarial equivalent of the retired member's pension as of the date of retirement applied to a lesser amount payable throughout the retired member's life, and thereafter to have a survivor allowance as approved by the board, upon the advice of the actuary, continued throughout the life of and paid to the person or persons having an insurable interest in the life of the retired member, as the member or former member nominates by written designation duly executed and filed with the board at the time of retirement.

(c) No designation pursuant to subdivision (b) shall, in the opinion of the board and the actuary, place any additional actuarial cost burden upon the retirement system.

(Added by Stats. 1985, Ch. 175, Sec. 1)

§31499.16. Certification of election to be covered by retirement plan (Stanislaus)

Any person employed subsequent to the effective date of this article who would otherwise qualify as a member shall not become a member until he or she certifies to the board his or her election to be covered by the retirement plan established by this article or to be covered by the retirement provisions and benefits otherwise available to members on the date preceding the effective date of this article. As a condition of continued employment, the certification shall be made within 60 days of employment. The employer shall make available to the person a disclosure of the elements of each of the available retirement plans prior to accepting his or her election.

(Added by Stats. 1985, Ch. 175, Sec. 1)

§31499.17. Transfer to retirement plan created by this article; election and application; benefits (Stanislaus)

(a) General members may, within 180 days of the effective date of this article, elect to transfer to the retirement plan created by this article upon proper application executed by the member and filed with the board.

(b) The retirement benefits of the transferred members are governed and defined by this article.

(c) Transferring members relinquish and waive any and all previously available vested or accrued retirement, survivor, disability and death benefits. All transferring members whose

contributions for public service have been refunded to them shall not receive credit for that service.

(d) Any member who selects Retirement Plan 3 upon reentering into county service and who has not received credit as a Plan 3 member for previous county service, may elect to repurchase his or her previous service by redepositing his or her withdrawn contributions, plus interest, from date of termination, and shall then receive credit for that service under the plan status at the time of original employment.

(e) Any member who has elected or transferred to the plan created by this article and who terminates his or her employment and is later reemployed shall not be entitled to change his or her election upon that reemployment, unless a resolution, enacted by the board of supervisors subsequent to the member's election to transfer to the new plan, so provides.

(f) A plan transfer by a member is voluntary and shall be irrevocable, unless the board of supervisors, by resolution, authorizes Retirement Plan 3 members to transfer to a retirement plan authorized under Article 8 (commencing with Section 31670), under the terms and conditions specified in the resolution. The terms may include, but are not limited to, (1) an eligibility provision based on the number of years in county service, or (2) a provision for crediting service in the plan which (A) the member transfers to only for that service rendered after adoption of the resolution or (B) an eligibility provision that, for the purposes of Article 10 (commencing with Section 31720), considers years in county service from the date the member transfers to a new plan unless the prior county service credit is restored, or both. The resolution may establish different service credit conditions for various job classifications or groups, or for various represented bargaining units, different conditions agreed upon by the employer and the employee representative, or both. The board of supervisors may also establish other conditions it deems necessary or desirable.

Article 2.1

Additional Plan for Counties of the First Class (Los Angeles)

(Article 2.1 added by Stats. 1989, Ch. 1300, Sec. 1, Effective October 1, 1989, Applicable as prescribed by Section 31510)

§31510. Los Angeles County; application of article; purpose; limitations on benefits; priority of application (Los Angeles)

(a) This article shall be applicable to all members of the retirement system of any county of the first class, as defined by Section 28020, as amended by Chapter 1204 of the Statutes of 1971, and Section 28022, as amended by Chapter 43 of the Statutes of 1961.

(b) The purpose of this article is to provide a defined contribution plan which, in conjunction with retirement benefit provisions otherwise contained in this chapter, will provide approximately the same level of retirement benefits to persons who first become members on or after January 1, 1990, and are subject to the limitations set forth in Section 415 of the Internal Revenue Code of 1986, as they would receive under the other retirement benefit provisions in the absence of those limitations, while not affecting the rate of either member or employer contributions to the retirement system. In addition, it is intended that subdivisions (c) and (d) constitute an election under Section 414(b)(10)(C) of the Internal Revenue Code of 1986 with respect to all retirement plans within the retirement system.

(c) Notwithstanding any other provision of this part, the benefits payable to any person who first becomes a member on or after January 1, 1990, shall be subject to the limitations set forth in Section 415 of the Internal Revenue Code of 1986, as adjusted pursuant to Section

414(d)(1)(A) and (B).

(d) Notwithstanding any other law, the benefits payable to any person who first became a member prior to January 1, 1990, shall not be subject to the limitations set forth in Section 415(b) of the Internal Revenue Code of 1986, except to the extent required by subsection (b)(10) (A) of Section 415.

(e) The election described in subdivision (b) shall apply to all employers whose employees are members of the retirement system of the county on December 31, 1989.

(f) The retirement benefits of all persons who first become members of the retirement system on or after January 1, 1990, and participate in Safety Plan B or General Plan D shall be governed by this chapter applicable to those plans and by this article.

(g) Subdivisions (c) and (d) shall not become operative until the board of supervisors has taken the actions required by subdivision (a) of Section 31510.2.

(h) In the event of a conflict, this article shall supersede and prevail over other provisions or application of provisions otherwise contained in this chapter.

(Added by Stats. 1989, Ch. 1300, Sec. 1, Effective October 1, 1989)

§31510.1. Definitions (Los Angeles)

Unless the context otherwise requires, the definitions contained in this section govern the construction of this article.

(a) "Board" means the board of retirement.

(b) "Employer" means the county, district, or agency whose employees are members of the retirement system of the county.

(c) "General Plan F" means the defined contribution plan established in accordance with this article for the benefit of certain members of General Plan D.

(d) "Plan F" means General Plan F and Safety Plan F, collectively.

(e) "Prior plan" means Safety Plan B or General Plan D, as the context requires.

(f) "Safety Plan F" means the defined contribution plan established in accordance with this article for the benefit of certain members in Safety Plan B.

(Added by Stats, 1989, Ch. 1300, Sec. 1, Effective October 1, 1989)

§31510.2. General and Safety Plan F; establishment; participants; credit of prior contributions; benefits; compliance with federal tax law; administration; annuity defined; termination of plan (Los Angeles)

(a) The board of supervisors of any county subject to this article shall establish two defined contribution retirement plans authorized by Section 401 of the Internal Revenue Code of 1986. The terms of the plans shall be mutually agreed to by the employer and employee representatives of affected employees prior to adoption or amendment by the board of supervisors. The plans shall be known as General Plan F and Safety Plan F and are referred to collectively as plan F.

(b) Any general member described in subdivision (f) of Section 31510 shall participate in General Plan F, and any safety member described in subdivision (f) of Section 31510 shall participate in Safety Plan F, after commencement of his or her participation in the prior plan.

(c) The board, upon the advice of the actuary, shall determine the portion of the member contributions otherwise required under the prior plan that shall be credited to plan F in lieu of being credited to the other plan. In doing so, the board shall provide for the level of contributions to plan F that is the minimum amount sufficient to satisfy the purposes set forth in subdivision (b) of Section 31510.

(d) The right of the member to benefits derived from member contributions vests under plan F upon the commencement of participation in plan F.

(e) If a member or beneficiary becomes entitled to receive a benefit in the form of an annuity under the terms of the prior plan, the member's account in plan F shall be converted to the same form of annuity as is payable to the member or beneficiary from the prior plan. The amount of the annuity payable under the prior plan, calculated prior to the application of this article (including the limitations set forth in Section 415 of the Internal Revenue Code of 1986), shall be reduced by the amount of the annuity generated under plan F as described in the preceding sentence. The amount payable from plan F shall be paid at the same time and in the same manner as the annuity payable from the prior plan and may be provided through an annuity contract purchased from an insurance company, at the discretion of the board. Notwithstanding the foregoing, if the member's account in plan F does not exceed three thousand five hundred dollars (\$3,500), it shall be paid to the member or beneficiary as a lump-sum payment, in lieu of the benefit otherwise payable under plan F.

(f) If a member or beneficiary becomes entitled to receive the member's accumulated contributions and interest from the prior plan, the member or beneficiary shall receive the member's account balance from plan F consisting of the member's accumulated contributions and actual earnings at the same time and in the same manner.

(g) In applying the limitations set forth in Section 415 of the Internal Revenue Code of 1986, benefits or annual additions in qualified retirement plans maintained by an employer separate from the retirement system shall be reduced first. Any additional reduction shall be made to the benefits from plans within the retirement system other than plan F, and then lastly to the annual addition to plan F.

(h) Plan F shall be administered in accordance with subsection (a) of Section 401 of the Internal Revenue Code of 1986 and the Treasury Regulations issued thereunder. The plan shall state that it is intended to be a profit-sharing plan wherein contributions are determined without regard to current or accumulated profits.

(i) For the purpose of this article, the term "annuity" means the combined benefit provided by an annuity, as defined in Section 31457, and the pension, as defined in Section 31471.

(j) To the extent any county subject to this article terminates General Plan F or Safety Plan F, or both of them, with respect to any group of members and in accordance with their terms and adopts a replacement benefits program under Section 31899.4 for those members in lieu of that plan or plans, this section shall be inoperative in that county with respect to those members. In any event, the election made pursuant to subdivision (b) of Section 31510, the provisions of subdivisions (c), (d), (e), (f), and (h) of Section 31510, and the provisions of Section 31510.3 shall remain operative in that county.

(Added by Stats. 1989, Ch. 1300, Sec. 1, Effective October 1, 1989)

(Amended by Stats. 2003, Ch. 520 (AB 1585), Sec. 2)

§31510.3. Disability benefits (Los Angeles)

It is intended that disability benefits payable from the retirement system pursuant to Article 10 (commencing with Section 31720), in the event of the member's termination of employment for disability, are compensation for personal injury or sickness, and therefore would not be subject to the limitations set forth in Section 415 of the Internal Revenue Code of 1986. If the Internal Revenue Service rules that the disability benefits are subject to those limitations, any employer which is subject to this article shall provide an alternate disability benefit equal to the decrease in the disability benefit caused by application of those limitations, through a long-term disability plan which shall be separate from the retirement system. The terms of that long-term disability plan shall be mutually agreed to by the employer and employee representatives and adopted by the board of supervisors.

(Added by Stats. 1989, Ch. 1300, Sec. 1, Effective October 1, 1989)

§31510.4. Contributions; maintenance to not affect; interest credit (Los Angeles)

It is intended that the maintenance of plan F not affect the rate of either member or employer contributions to the retirement system. The board may set a rate of regular interest credited to contributions to the prior plan made with respect to members participating in plan F that is different than the rate of regular interest credited to contributions made with respect to members not participating in plan F, if necessary to effectuate that intent.

(Added by Stats. 1989, Ch. 1300, Sec. 1, Effective October 1, 1989)

(h) Except as otherwise provided, any member who upon retirement receives a retirement pension calculated in accordance with sections or provisions added to this article subsequent to the effective date of this article shall have his or her pension calculated under each such section or provision only for the period of time that those sections or provisions were in effect, unless otherwise mutually agreed between the employer and its employee representatives.

(i) Unless specifically otherwise provided therein, no amendment to this article enacted subsequent to the effective date of this article shall apply to any county or to the employees of any county unless and until mutually agreed to by the employer and employee representatives and adopted by majority resolution of the board of supervisors.

(g) The board, upon the advice of the actuary, shall establish and adjust, as required, the table of estimated primary insurance amounts, which shall be utilized in computing

the retirement benefit. For purposes of this article, the primary insurance amount shall be estimated based on the employee's age as of the date of retirement or the date of termination of a vested member, whichever is applicable, and the employee's earnings, provided that:

(1) An employee's earnings prior to the first day of service with the employer shall be assumed to have been zero, and

(2) An employee's earnings during the period of service shall include only those earnings paid by the employer, and

(3) For those members who have not attained the normal retirement age under the federal system as of the date of retirement (i) future earnings in employment covered by the federal system shall be assumed to continue at the rate of pay received by the employee from the employer as of the date of retirement or the date of termination of a vested member, whichever is applicable, and (ii) future wage bases, as defined by the federal system, shall be assumed to continue at the wage base in effect in the year of retirement or the year of termination of a vested member, whichever is applicable, and (iii) cost-of-living increases in the year of retirement and delayed retirement credit provided under the federal system shall not be included in the calculation of the estimated primary insurance amount.

(h) The employer shall certify the years of service to be credited at retirement and the final compensation to be utilized in computing the normal and early retirement pension.

(i) Notwithstanding subdivision (e), any retired member receiving a normal retirement pension may present evidence required by the board of the retired member's actual primary insurance amount. For purposes of this subdivision, the actual primary insurance amount shall be the amount payable under the federal system on the retired member's date of retirement without regard to delayed retirement credit or any deductions on account of work or any reductions on account of early retirement. Following receipt of that evidence, the board shall adjust the retired member's pension from the date of retirement to equal the amount of the pension to which he or she would have been entitled on that date had the estimated primary insurance amount equaled the actual primary insurance amount.

(j) All part-time and intermittent employees of a county which elects to be subject to this article shall not be eligible to participate in the retirement plans provided by this article.

(Added by Stats. 1985, Ch. 1480, Sec. 1)

§31511.5. Surviving spouse benefits (Ventura)

Notwithstanding any other provision of this chapter to the contrary, no surviving spouse benefit shall be paid to a surviving spouse of a member who at the time of death had not met the minimum age and service credit requirements for service retirement.

(Added by Stats. 1985, Ch. 1480, Sec. 1)

§31511.6. Transfer to plan; time for election (Ventura)

General members may, within 180 days of the operative date of this article, elect to transfer to the retirement plan created by this article upon proper application executed by the member and filed with the board. Furthermore, any general member who does not elect to transfer during this 180-day period, may elect to transfer within the 30 days prior to any annual anniversary of the operative date of this article. Such a transfer is voluntary and shall be irrevocable.

§31539. Correction of error; Prospective and retroactive adjustments; Rights and remedies; Period of limitation

(a) The board of retirement may, in its discretion, correct any error made in the calculation of a retired member's monthly allowance or any other benefits under this chapter, if either of the following exist:

(1) The error in the calculation of the member's monthly allowance or other benefits under this chapter was made as a result of fraudulent reports for compensation made, or caused to be made, by the member for his or her own benefit.

(2) The member caused his or her final compensation to be improperly increased or otherwise overstated at the time of retirement and the system applied that overstated amount as the basis for calculating the member's monthly retirement allowance or other benefits under this chapter.

(b) The retirement allowance or other benefits under this chapter with respect to a retired member described in subdivision (a) shall be adjusted prospectively to the amount that would have been payable if the overstatement of the member's final compensation had not occurred.

(c) Adjustment of the member's retirement allowance or other benefits may also be implemented retroactively and include the collection or return of the overpayment of benefits. The board of retirement may direct staff to correct the overpayment of benefits by offsetting the amount to be recovered against future benefits. Adjustments to correct the overpayment of benefits may also be made by adjusting the allowance so that the retired member or the retired member and his or her beneficiary, as the case may be, will receive the actuarial equivalent of the allowance to which the member is entitled.

(d) The rights and remedies provided in this section are in addition to any other rights and remedies any party may have at law or in equity. Nothing in this section shall preclude any party from instituting an action for declaratory or other relief in lieu of proceeding under this section.

(e) The period of limitation of actions under this section shall be 10 years and that period shall commence either from the date of payment or upon discovery of the facts described in subdivision (a), whichever date is later. The board shall determine the applicability of the period of limitation in any case, and its determination with respect to the running of any period of limitation shall be conclusive and binding for purposes of correcting the error.

(Added by Stats. 2004, Ch. 466 (SB 1206), Sec. 1)

§31540. Obligations of retirement system to members, of county or district to retirement system, of members to retirement system; payments for adjustment of errors or omissions (Los Angeles)

(a) The obligations of the retirement system to its members continue throughout their respective memberships, and the obligations of the retirement system to, and in respect to, retired members continue throughout the lives of the retired members, and thereafter until all obligations to the members' beneficiaries under optional settlements have been discharged. The obligations of the county or district to the retirement system with respect to members employed by them, respectively, continue throughout the memberships of the members, and the obligations of the county or district to the retirement system with respect to retired members formerly employed by them, respectively, continue until all of the obligations of the retirement system to those retired members have been discharged. The obligations of any member to the retirement system continue throughout his or her membership, and thereafter until all of the obligations of the retirement system to that member have been discharged.

(b) For the purposes of payments into or out of the retirement fund for adjustment of errors or omissions, the period of limitation of actions shall be three years, and shall be applied as follows:

(1) In cases in which the retirement system makes an erroneous payment to a member or beneficiary, the system's right to collect shall expire three years from the date of payment.

(2) In cases in which the retirement system owes money to a member or beneficiary, the period of limitation shall not apply.

(c) Notwithstanding subdivision (b), in cases in which payment is erroneous because of the death of the retired member or beneficiary or because of the remarriage of the beneficiary, the period of limitation shall be 10 years and that period shall commence with the discovery of the erroneous payment.

(d) Notwithstanding subdivision (b), if any payment has been made as a result of fraudulent reports for compensation made, or caused to be made, by a member for his or her own benefit, the period of limitation shall be 10 years and that period shall commence either from the date of payment or upon discovery of the fraudulent reporting, whichever date is later.

(e) The board shall determine the applicability of the period of limitation in any case, and its determination with respect to the running of any period of limitation shall be conclusive and binding for purposes of correcting the error or omission.

(f) This section shall apply only to a county of the first class as described in Section 28020.

(Added by Stats. 2012, Ch. 59 (AB 2664), Sec. 2)(Applicable to Los Angeles County only)

§31541. Corrections of errors or omissions (Los Angeles)

(a) Subject to subdivisions (c) and (d), the board may, in its discretion and upon any terms it deems just, correct the errors or omissions of any active or retired member, or any beneficiary of an active or retired member, if all of the following facts exist:

(1) The request, claim, or demand to correct the error or omission is made by the party seeking correction within a reasonable time after discovery of the right to make the correction, which in no case shall exceed six months after discovery of this right.

(2) The error or omission was the result of mistake, inadvertence, surprise, or excusable neglect, as each of those terms is used in Section 473 of the Code of Civil Procedure.

(3) The correction will not provide the party seeking correction with a status, right, or obligation not otherwise available under this part. Failure by a member or beneficiary to make the inquiry that would be made by a reasonable person in like or similar circumstances does not constitute an "error or omission" correctable under this section.

(b) Subject to subdivisions (c) and (d), the board shall correct all actions taken as a result of errors or omissions of the county or district, or this system.

(c) The duty and power of the board to correct mistakes, as provided in this section, shall terminate upon the expiration of obligations of this system to the party seeking correction of the error or omission, as those obligations are defined by Section 31540.

(d) The party seeking correction of an error or omission pursuant to this section has the burden of presenting documentation or other evidence to the board establishing the right to correction pursuant to subdivisions (a) and (b).

(e) Corrections of errors or omissions pursuant to this section shall be such that the status, rights, and obligations of all parties described in subdivisions (a) and (b) are adjusted to be the same as they would have been if the act that would have been taken, but for the error or omission, was taken at the proper time. However, notwithstanding any other provision of this section, corrections made pursuant to this section shall adjust the status, rights, and obligations of all parties described in subdivisions (a) and (b) as of the time that the correction actually takes place if the board finds any of the following:

(1) That the correction cannot be performed in a retroactive manner.

(2) That, even if the correction can be performed in a retroactive manner, the status, rights, and obligations of all of the parties described in subdivisions (a) and (b) cannot be adjusted to be the same, as they would have been if the error or omission had not occurred.

(3) That the purposes of this chapter will not be effectuated if the correction is performed in a retroactive manner.

(f) This section shall apply only to a county of the first class as described in Section 28020.

(Added by Stats. 2012, Ch. 59 (AB 2664), Sec. 3)(Applicable to Los Angeles County only)

§31541.1 Correction of prior retirement board decisions; time for filing application; application of section (Los Angeles)

(a) Subject to subdivisions (c), (d), and (e) of Section 31541, the board, upon any terms it deems just, may correct prior board decisions made between January 1, 2013, and December 31, 2015, that were based upon an error of law existing at the time of the decision in the determination of the effective date of disability retirement pursuant to Section 31724. A member seeking correction of errors and omissions pursuant to this section may file an application for correction to the board no later than one year from the date this section becomes operative.

(b) This section shall apply to a county of the first class as described in Section 28020 and 28022.

(Added by Stats. 2018, Ch. 97 (AB 2076), Sec. 1)

§ 31541.2. Disallowed compensation; discontinuance of reporting; submission for review of additional compensation items; publication of notice of proposed compensation language; effect of section; legislative intent

(a) For purposes of this section, the following definitions apply:

(1) "Agreement" means a memorandum of understanding or collective bargaining agreement between the employer and an exclusive representative pursuant to the Meyers-Milias-Brown Act (Chapter 10 (commencing with Section 3500) of Division 4 of Title 1).

(2) "Alameda" means the Supreme Court case of Alameda County Deputy Sheriff's Association v. Alameda County Employees' Retirement Association (2020) 9 Cal.5th 1032 and its holding.

(3) "Disallowed compensation" means nonpensionable compensation reported for a member of the retirement system that the system subsequently determines is not in compliance with PEPRA, the holding in Alameda, other provisions of this part, or the system's administrative regulations or policies through no fault of the member.

For purposes of this paragraph, "disallowed compensation" also includes nonpensionable compensation that was previously included in an agreement.

(4) "Employer" means the appropriate applicable county, county agency, or special district standing in relationship between the employee and the system.

(5) "Initiated a process" means a system has formally adopted a resolution or made an administrative determination for a correction process on identified disallowed compensation that has required or will require collecting any portion of an overpayment from, or refunding member contributions to, any affected active member, retired member, survivor, or beneficiary, or adjusting the retirement allowance of any affected retired member, survivor, or beneficiary due to the determination of disallowed compensation by the system, including a determination by the system that is consistent with PEPRA, the holding in Alameda, and other provisions of this part.

(6) "PEPRA" means the California Public Employees' Pension Reform Act of 2013 (Article 4 (commencing with Section 7522) of Chapter 21 of Division 7 of Title 1).

(7) "System" means a retirement association or system established pursuant to the County Employees Retirement Law of 1937 (commencing with Section 31450).

(b) If the system determines that the compensation reported for a member is disallowed compensation, it shall require the employer to discontinue reporting the disallowed compensation.

(1)

(A) In the case of an active member, the system shall credit all employer contributions made on the disallowed compensation against future contributions to the benefit

of the employer that reported the disallowed compensation, and shall return any member contribution paid by, or on behalf of, that member, to the member directly or indirectly through the employer that reported the disallowed compensation, except as provided by subparagraph (B).

(B) A system that has initiated a process prior to January 1, 2024, to recalculate an active member's compensation earnable pursuant to Section 31461 to exclude disallowed compensation and return contributions, either directly to the member or indirectly through the employer, may continue to use that process to ensure compliance with PEPRA, and that is consistent with, and pursuant to, the holding in Alameda.

(2) In the case of a retired member, survivor, or beneficiary whose final compensation at the time of retirement was predicated upon the disallowed compensation, the system shall credit the employer contributions made on the disallowed compensation against future contributions, to the benefit of the employer that reported the disallowed compensation, shall return any member contributions paid by, or on behalf of, that member, to the member directly, and the system shall permanently adjust the benefit of the affected retired member, survivor, or beneficiary to reflect the exclusion of the disallowed compensation.

(3)

(A) In the case of a retired member, survivor, or beneficiary whose final compensation at the time of retirement was predicated upon the disallowed compensation as described in paragraph (2), the repayment and notice requirements described in this paragraph and paragraph (4) shall apply only if all of the following conditions are met:

(i) The employer reported the compensation to the system and made contributions on that compensation while the member was actively employed.

(ii) The system determined after the date of retirement that the compensation was disallowed.

(iii) The member was not aware that the compensation was disallowed at the time the employer reported it.

(B) If the disallowed compensation meets the conditions of subparagraph (A), the employer that reported contributions on it shall do all of the following:

(i) Pay to the system, as a direct payment, or through recognition in the actuarial accrued liability, as determined by the system, the full cost of any overpayment of the prior paid benefit made to an affected retired member, survivor, or beneficiary resulting from the disallowed compensation.

(ii) Pay to the affected retired member, survivor, or beneficiary, as appropriate, an amount that is 20 percent of the amount calculated by the system representing the actuarial equivalent present value of the difference between the monthly allowance that was predicated on the disallowed compensation and the adjusted monthly allowance calculated pursuant to paragraph (2) for the duration the system projects to pay that allowance to the retired member, survivor, or beneficiary. The employer shall begin payment within six months of notice from the system as prescribed in paragraph (4) and may have up to four years to complete the payment. The system may charge the employer the actual costs of actuarial services provided under this paragraph.

(4) The system shall provide a written notice to the employer that reported contributions on the disallowed compensation and to the affected retired member, survivor, or beneficiary, including, at a minimum, all of the following:

(A) The overpayment amount that the employer shall pay to the system as described in subparagraph (B) of paragraph (3).

(B) The actuarial equivalent present value that the employer owes to the retired

member, survivor, or beneficiary as described in clause (ii) of subparagraph (B) of paragraph (3), if applicable.

(C) Written disclosure of the employer's obligations to the retired member, survivor, or beneficiary pursuant to this section.

(5) In lieu of the process described in paragraphs (3) and (4), a system that has initiated a process prior to January 1, 2024, to permanently adjust the benefit of the affected retired member, survivor, or beneficiary to reflect the exclusion of the disallowed compensation pursuant to paragraph (2) may continue to use that process provided that it is consistent with PEPRA, and with the holding in Alameda.

(6) Upon the employer's request, the system shall provide the employer with contact information data in its possession of a relevant retired member, survivor, or beneficiary in order for the employer or agency to fulfill their obligations to that retired member, survivor, or beneficiary pursuant to this section. The recipient of this contact information data shall keep it confidential, shall use such contact data only to the extent necessary to carry out its duties under this section, and shall not be disclosable under the California Public Records Act (Division 10 (commencing with Section 7920.000) of Title 1).

(c)

(1) An employer or authorized employee representative may submit to the system for review an additional compensation item that a party to a proposed agreement requests be included, contained, adopted, or entered into that agreement, on and after January 1, 2025, that is intended to form the basis of a pension benefit calculation, in order for the system to review consistency of the proposal with PEPRA, the holding in Alameda, Section 31461, other provisions in the part, and the system's administrative regulations or policies.

(2) A submission to the system for review under paragraph (1) shall include all supporting documents or requirements the system deems necessary to complete its review.

(3) The system shall provide guidance regarding the submission within 90 days of the receipt of all information required to make a review.

(d) The system may periodically publish a notice of the proposed compensation language submitted to the system pursuant to this section for review and the guidance it provided.

(e) This section does not alter or abrogate an employer's responsibility to meet and confer in good faith with the employee organization regarding the impact of the disallowed compensation or the effect of any disallowed compensation on the rights of the employees and the obligations of the employer to its employees, including any employees who, due to the passage of time and promotion, may have become exempt from inclusion in a bargaining unit, but whose benefit was the product of collective bargaining.

(f) This section does not affect or otherwise alter a party's right to appeal any determination regarding disallowed compensation made by the system after July 30, 2020.

(g) The board of retirement or board of supervisors, as authorized pursuant to this chapter, may enter into any contracts for administrative purposes or as may be necessary and appropriate to carry out the provisions of this section.

(h)

(1) It is the intent of the Legislature in enacting this section to fully comply with the provisions of the Internal Revenue Code, the Internal Revenue Service Employee Plans Compliance Resolution System (EPCRS), and any successor to such Internal Revenue Service program, that apply to public retirement systems in order to maintain and ensure the federal income tax exempt status of the county employees' retirement systems.

(2) Systems that have initiated a process under this section that was or is intended to

comply with the Internal Revenue Code and EPCRS requirements may revise the process as necessary to the extent required to comply with the Internal Revenue Code and EPCRS in order to maintain the tax exempt status of the system.

(Added by Stats. 2024, Ch. 427 (AB 3025), Sec. 1)

§31542. Compensation paid to enhance member's retirement benefit; procedure for assessment

(a) The board shall establish a procedure for assessing and determining whether an element of compensation was paid to enhance a member's retirement benefit. If the board determines that compensation was paid to enhance a member's benefit, the member or the employer may present evidence that the compensation was not paid for that purpose. Upon receipt of sufficient evidence to the contrary, a board may reverse its determination that compensation was paid to enhance a member's retirement benefits.

(b) Upon a final determination by the board that compensation was paid to enhance a member's retirement benefit, the board shall provide notice of that determination to the member and employer. The member or employer may obtain judicial review of the board's action by filing a petition for writ of mandate within 30 days of the mailing of that notice.

(c) Compensation that a member was entitled to receive pursuant to a collective bargaining agreement that was subsequently deferred or otherwise modified as a result of a negotiated amendment of that agreement shall be considered compensation earnable and shall not be deemed to have been paid to enhance a member's retirement benefit.

(Added by Stats. 2012, Ch. 296 (AB 340), Sec. 29)

§31542.5. Pay period for compensation reported to board; failure of county or district to report compensation

(a) When a county or district reports compensation to the board, it shall identify the pay period in which the compensation was earned regardless of when it was reported or paid. Compensation shall be reported in accordance with Section 31461 and shall not exceed compensation earnable, as defined in Section 31461.

(b) The board may assess a county or district a reasonable amount to cover the cost of audit, adjustment, or correction, if it determines that a county or district knowingly failed to comply with subdivision (a). A county or district shall be found to have knowingly failed to comply with subdivision (a) if the board determines that either of the following applies:

(1) The county or district knew or should have known that the compensation reported was not compensation earnable, as defined in Section 31461.

(2) The county or district failed to identify the pay period in which compensation earnable was earned, as required by this section.

(c) A county or district shall not pass on to an employee any costs assessed pursuant to subdivision (b).

(Added by Stats. 2012, Ch. 296 (AB 340), Sec. 30)

§31543. Audit of county or district by board

The board may audit a county or district to determine the correctness of retirement benefits, reportable compensation, and enrollment in, and reinstatement to, the system. During an audit, the board may require a county or district to provide information, or make available for examination or copying at a specified time and place, books, papers, data, or records, including, but not limited to, personnel and payroll records, as deemed necessary by the board.

§31564.2. Liability of district upon termination of participation

(a) If a district's participation in the retirement system is terminated pursuant to the provisions of Section 31564, the district shall remain liable to the retirement system for the district's share of any unfunded actuarial liability of the system which is attributable to the officers and employees of the district who either have retired or will retire under the retirement system.

(b) Unless otherwise developed by an actuarial source and approved by the board of retirement, the amount of the district's liability shall be the unfunded actuarial liability of the entire system, computed as described below, multiplied by a fraction:

(1) The numerator of which is the total amount required to be contributed to the plan by the withdrawing district for the last five years ending prior to the withdrawal date.

(2) The denominator of which is the total amount required to be contributed to the plan by all participating employers for the last five years.

The plan's total unfunded actuarial liability for this purpose shall be calculated on the basis of the actuarial assumptions used in the plan's most recent actuarial valuation, except that all district members shall be assumed to terminate as of the date of withdrawal.

(c) The district's liability shall be paid in accordance with a schedule determined by the retirement board over a period no longer than the period over which the plan's remaining unfunded actuarial liability is being amortized.

(d) The funding of the retirement benefits for the employees of a withdrawing agency is solely the responsibility of the withdrawing agency or the board of supervisors. Notwithstanding any other provision of law, no contracting agency shall fail or refuse to pay the employer's contribution required by this chapter or to pay the employer's contribution

required by this chapter within the applicable time limitations. In dealing with a withdrawing district, the board of retirement shall take whatever action needed to ensure the actuarial soundness of the retirement system.

(e) The Legislature finds and declares that this section is declaratory of existing law, to the extent this section provides that upon withdrawal from the retirement system, a district shall remain liable for its share of the unfunded actuarial liability of the system. This section is intended to define the method of calculating the district's share of that unfunded actuarial liability.

(Added by Stats. 1998, Ch. 109 (AB 1766), Sec. 4)

§31564.5. Contract by governing body of district for additional appropriation to pay costs of system

Whenever the governing body of a district for which the board of supervisors is not the governing body adopts a resolution for the inclusion of such district in the retirement association, if, in the opinion of the board because of conditions peculiar to such district the contributions required from such district by this chapter are insufficient to pay the same proportion of the costs of the system as will be paid by the county, the board may require that such district contract with the board to appropriate additional sums. If, because of conditions peculiar to such district the contributions required from such district by this chapter are greater than necessary to pay the same proportion of the costs of the system as will be paid by the county, the board and such district may contract for lesser sums. Either of such contracts may provide, among other things, that whenever the board of supervisors makes an additional appropriation pursuant to Section 31454.5, the district also will make an additional appropriation calculated by a formula specified in such contract. All such districts are hereby authorized to enter into and perform such contracts.

(Amended by Stats. 2021, Ch. 186 (SB 634), Sec. 13)

§31567. Member employed in active law enforcement or fire suppression position, election to become safety member; credit for service

Any member of a retirement system established under this chapter who is employed in a position, the principal duties of which consist of active law enforcement or active fire

suppression as defined under Sections 31469.3, 31470.2 and 31470.4, and who, prior to 1955, had the right to elect to become a safety member of such system shall again have the right to elect to become a safety member. Notice of such election shall be given in writing to the board of retirement administering the system.

The member's status as a safety member shall be effective on the first day of the second month following that in which the notice of election is received by the board of retirement.

Such a member may elect to receive credit for service rendered as a member of such system, as if he had been a safety member commencing in 1955. Notice of such election shall be given in writing to the board of retirement no less than 30 days prior to the member's retirement. The member shall receive credit for such service, as a safety member, if he contributes the difference between the member contributions actually made for that period of service and the contributions that he would have been required to make if he had been a safety member during that period. The member shall also contribute interest on the difference at the rates at which interest was credited on member contributions for each year of the period for which credit is sought.

An election under this section shall be irrevocable, and the additional contribution payments hereunder required, if not completed as specified, shall be forfeited to the retirement fund, and a forfeiting member shall then receive only general membership benefits. Additional contributions shall be made by lump sum payment or in such monthly payroll deduction amounts as determined by the board, but must be made prior to the member's retirement.

(b) The board of supervisors may authorize the county auditor to make an advance payment of all or part of the county's estimated annual contribution to the retirement fund, provided that the payment is made no later than 30 days after the commencement of the county's fiscal year. This subdivision does not prevent the board of supervisors from

authorizing the county auditor to make an advance payment for the estimated annual county contributions for an additional year or partial year if the advance payment is made no later than 30 days after the commencement of the county fiscal year for which the advance payment is made. If the advance is only a partial payment of the county's estimated annual contribution, remaining transfers to the retirement fund shall be made at the end of each month or at the end of each pay period until the total amount required for the year is contributed. Transfers shall be adjusted at the end of the fiscal year to reflect the actual contribution required for that year.

(c) A district subject to Section 31585 may also authorize an advance payment of all or part of the district's estimated annual contribution to the retirement fund, provided that the payment is made no later than 30 days after the commencement of the district's fiscal year. If the advance is only a partial payment of the district's estimated annual contribution, payments to the retirement fund shall be made at the end of each month or at the end of each pay period until the total amount required for the year is contributed. §31588.1. Deferred yield adjustment account

There is hereby established in the County Employees' Retirement System a deferred yield adjustment account which shall be increased by the sale or disposition of any debt securities at less than book value and shall be decreased by the sale or disposition of debt securities at more than book value. At the end of each year, a portion of the balance of this account shall be offset against the investment income for that year. The annual portion of the balance to be offset shall be proportional to the reciprocal of the average remaining life of the bonds sold. The amount of this account shall be included in any accounting or actuarial computations or listing of assets. In any year in which the gains on the sales of debt securities exceed the discounts realized on the sales of such securities, the excess shall be used to reduce the balance of the account.

§31589.1. Trade of bonds for similar bonds

There is hereby established for accounting purposes in the County Employees Retirement Law of 1937 the following procedure for treating a trade of bonds for similar bonds. Any loss or gain attributable to a trade of a like bond in the portfolio of any retirement system adopted pursuant to this chapter may be amortized over the life of the bond traded out by adding to or subtracting from the discount or premium attributable to the bond traded in. Like bonds for purposes of this section are considered to be bonds which will mature within seven years of the life of the bond traded out. Bonds to be traded must be of the first four grades. The fact that one bond may be a debenture and another a mortgage bond, or that the bonds may have different rates of return, shall not keep them from being like bonds.

This section shall not be operative in any county until such time as the board shall, by resolution adopted by majority vote, make the provisions of this section applicable in such county.

The authorization may be by blanket authorization of all warrants, checks, or electronic fund transfers appearing on a list or register, or may be by a standing order to draw warrants, checks, or electronic fund transfers, which shall be good until revoked. If the treasurer and auditor are designated by the board, a warrant, check, or electronic fund transfer is not valid until it is signed or authorized, numbered, and recorded by the county auditor, except as provided in subdivision (c).

(b) Any person entitled to the receipt of benefits may authorize the payment of the

benefits to be directly deposited by electronic fund transfer into the person's account at the financial institution of the person's choice under a program for direct deposit by electronic transfer established by the board or treasurer if authorized by the board. The direct deposit shall discharge the system's obligation in respect to that payment.

(c) The board may, or, if authorized by the board, the treasurer shall, authorize a trust company or trust department of any state or national bank authorized to conduct the business of a trust company in this state or the Federal Reserve Bank of San Francisco or any branch thereof within this state, to process and issue payments by check or electronic fund transfer.

(a)

(1) This section applies only to a retirement system in a county of the first class, as described in Sections 28020 and 28022.

(2) All warrants, checks, and electronic fund transfers drawn on the retirement fund shall be signed or authorized by at least two board officers or employees, designated by the board or by the treasurer if designated by the board. If the treasurer is designated by the board, the board shall also designate the auditor to sign or authorize warrants, checks, and electronic fund transfers. The authorization may be by blanket authorization of all warrants, checks, or electronic fund transfers appearing on a list or register, or may be by a standing order to draw warrants, checks, or electronic fund transfers, which shall be good until revoked. If the treasurer and auditor are designated by the board, a warrant, check, or electronic fund transfer is not valid until it is signed or authorized, numbered, and recorded by the county auditor, except as provided in subdivision (c).

(b) Any person entitled to the receipt of benefits may authorize the payment of the benefits to be deposited as follows:

(1) Directly deposited by electronic fund transfer into the person's account at the financial institution of the person's choice under a program for direct deposit by electronic transfer established by the board or treasurer if authorized by the board. The direct deposit shall discharge the system's obligation in respect to that payment.

(2) Deposited into a prepaid account under a program for deposit into a prepaid account that is established by the board or by the treasurer if authorized by the board. That deposit shall discharge the system's obligation in respect to that payment. For purposes of this paragraph, a prepaid account shall have the same meaning as in Section 1339.1 of the Unemployment Insurance Code and shall meet the applicable requirements of that section to qualify under this paragraph.

(c) The board may, or, if authorized by the board, the treasurer shall, authorize a trust company or trust department of any state or national bank authorized to conduct the business of a trust company in this state or the Federal Reserve Bank of San Francisco or any branch thereof within this state, to process and issue payments by check or electronic fund transfer.

Interest at the rate of 2 ½ percent per annum, until otherwise determined by the board, compounded semiannually, shall be used in the calculation of benefits under any mortality table adopted by the board of supervisors.

(b) No interest shall be credited to a member's account after the membership of the member in the retirement association has ceased, except under the following circumstances:

(1) The former member has left his or her accumulated contributions in the retirement fund and has either elected in writing a deferred retirement allowance, or is eligible to so elect under Section 31700 but has failed to do so.

(2) The surviving spouse of a deceased member or the legally appointed guardian of the member's unmarried children under age 18 has elected to leave a death benefit on deposit as provided for in Section 31781.2.

(a) In any county, earnings of the retirement fund during any year in excess of the total interest credited to contributions and reserves during such year shall remain in the fund as a reserve against deficiencies in interest earnings in other years, losses on investments, and other contingencies, except that, when such surplus exceeds 1 percent of the total assets of the retirement system, the board may transfer all, or any part, of such surplus in excess of 1 percent of the said total assets into county advance reserves for the sole purpose of payment of the cost of the benefits described in this chapter.

(b) Where the board of supervisors has provided for the payment of all, or a portion, of the premiums, dues, or other charges for health benefits, Medicare, or the payment of accrued sick leave at retirement to or for all, or a portion, of officers, employees, and retired employees and their dependents, from the county general fund or other sources, the board of retirement may authorize the payment of all, or a portion, of payments of the benefits described in this subdivision from the county advance reserves. This payment shall comply with the requirements of Section 401 of Title 26 of the United States Code. Payment may be made directly from the county advance reserves for the benefits described in Section 31691.1.

§31592.3. Excess earnings; reserve; transfer to increase retirement allowance

In any county, earnings of the retirement fund, in excess of the total interest credited to contributions and reserves shall remain in the fund as a reserve against deficiencies in interest earnings in other years, losses on investments, and other contingencies, except that when the total amount in the reserve exceeds 1 percent of the total assets of the retirement system, the board may transfer all or any part of such reserve in excess of 1 percent of the total assets into

a special fund which shall be used for the sole purpose of providing an increase in monthly retirement allowance pursuant to Section 31681.7 or Section 31739.4. In the event the amount credited to the special fund is not sufficient to pay the entire amount of the increase provided for by Section 31681.7 or Section 31739.4 then the amount of the increase shall be reduced in proportion to the amount of the balance on hand in the special fund at the close of the fiscal year preceding the fiscal year during which such increase is operative.

This section shall not be operative in any county until such time as the board of supervisors shall, by ordinance, make the provisions of this section applicable in such county. The board of supervisors may in such ordinance provide that the increase in monthly retirement allowance provided for by Section 31681.7 or 31739.4 shall be effective only subject to the provisions of this section.

§31592.4. Excess earnings; treatment as appropriations, transfers and contributions by county and applicable districts; "excess earnings" defined; compliance with federal and state income tax laws; operation of section

(a) The amount of excess earnings available at the end of a fiscal year of the retirement fund, shall, subject to the limitations in this section, be treated in the immediately succeeding fiscal year, for all purposes under this chapter, as appropriations, transfers, and contributions made to the retirement fund by the county and applicable districts. That treatment shall occur only to the extent that, in the immediately succeeding fiscal year, the county and applicable districts pay for an equal amount of health benefits for members heretofore or hereafter retired and their dependents or make contributions in an equal amount to an account established under Section 401(h) of Title 26 of the United States Code solely for the purpose of providing health benefits for retired members, their spouses, and dependents, and for the associated administrative and investment expenses.

(b) For purposes of this section, "excess earnings" means earnings of the retirement fund at the end of any fiscal year that exceed the total interest credited to contributions and reserves plus 1 percent of the total assets of the retirement fund.

(c) The board of supervisors or the board of retirement shall take any actions necessary and appropriate to ensure that the program provided by this section complies with all applicable federal and state income tax laws, including, but not limited to, establishing rules and procedures for establishing and maintaining an account under Section 401(h) of Title 26 of the United States Code.

(d) In accordance with Section 401(h) of Title 26 of the United States Code and Section 1.401-14(c) of the Code of Federal Regulations:

(1) The retirement system shall specify the medical benefits that will be available and shall set out the amount that will be paid.

(2) Medical benefits shall be subordinate to the retirement benefits when added to any life insurance benefits.

(3) A separate account shall be maintained for contributions to fund the medical benefits.

(4) The funds in the separate account may be invested with the funds for retirement benefits and the earnings shall be allocated to each account in a reasonable manner.

(5) Amounts contributed for medical benefits shall be reasonable and ascertainable.

(6) No part of the medical benefits account may be used for or diverted to any purpose other than providing medical benefits and paying necessary or appropriate expenses for the administration of the medical benefits account.

(7) Any amounts remaining in the medical benefits account after satisfaction of all medical benefits liabilities for all members, their spouses, and dependents shall be returned to

the employer.

(8) If a member's interest in the medical benefits account is forfeited prior to plan termination, an amount equal to the forfeiture shall reduce employer contributions to fund the account.

(e) Except to the extent allowed by Sections 401 and 420 of Title 26 of the United States Code, and related federal regulations, assets shall not be transferred or otherwise paid from the funds held by the retirement system for retirement benefits to a medical benefits account. Assets shall not be transferred or otherwise paid from a medical benefits account to the funds held by the retirement system for retirement benefits.

(f) This section shall not be operative in any county until the board of supervisors and the board of retirement of the county, by resolution adopted by a majority vote of each board, make this section operative in the county.

(g) This section is not intended, and shall not be construed to, affect the validity of any agreement entered into by a county and a retirement association whereby a county has agreed to provide and fund a health insurance program for retired employees and their dependents for hospital services, medical services, dental services, and optical services, prior to the effective date of this section.

(h) This section establishes a method of providing health benefits for retired members, their spouses, and dependents to the extent allowed under Sections 31592.2 and 31691. This section does not authorize duplicate benefits.

(i) This section may be made applicable in any county that has adopted Article 5.5 (commencing with Section 31610), in which case the Supplemental Retiree Benefits Reserve shall be substituted for the excess earnings described in this section. This section also may be made applicable to any arrangement established under Article 8.6 (commencing with Section 31694).

The content of those communications shall be wholly the responsibility of the recognized retiree organization, and the board shall not have any liability for the content of those communications. Cooperation and assistance in distribution may consist of combined or separate mailings. The board may charge a reasonable fee for those mailings, which may not exceed the actual costs to the system, including staff time for

preparation of the mailings.

(Added by Stats. 2012, Ch. 178 (SB 1382), Sec. 5)

§31593. Audit and report

The retirement board shall conduct an audit of the retirement system at least once every 12 months and report upon its financial condition. The retirement board may retain the services of a certified public accountant to perform the annual audit. That audit shall be performed in accordance with generally accepted auditing standards. The cost of the audit shall be considered a cost of the administration of the retirement system. The audit report shall address the financial condition of the retirement system, internal accounting controls, and compliance with applicable laws and regulations. A copy of the audit report shall be filed with the board of supervisors.

Nothing in this section shall preclude the retirement board from selecting the county auditor to perform the annual audit, and if so done, the cost of that audit shall be considered a cost of the administration of the retirement system.

A safety member not previously within the field of membership as a safety member

may receive not more than five years of credit as a safety member for all or any part of the time during which he or she was a general member by paying into the retirement fund by lump sum or by installment payments an amount equal to the difference between the member and employer contributions actually made as a general member and the member and employer contributions that would have been made had he or she been a safety member during the time for which he or she claims credit together with regular interest on the amount required to be deposited. A member who elects to receive credit for only a part of his or her county service shall elect that county service latest in time and may not receive credit for any portion of that county service prior in time to any county service for which he does not elect to receive credit. (a) When the board of supervisors, by resolution, determines that because of an impending curtailment of service or change in the manner of performing service, savings of money, or other economic benefit resulting to the county, the best interests of the county would be served, a member shall be eligible to receive additional service credit if the following conditions exist:

(1) The member is employed in a job classification, county department, or other county organizational unit included in the resolution adopted by the board of supervisors.

(2) The member retires on or between dates specified by the board of supervisors in its resolution. In no event shall the specified period exceed 180 days.

(3) The county transmits to the retirement fund an amount determined by the board of retirement which is equal to the actuarial equivalent of the difference between the allowance the member receives after the receipt of service credit under this section and the amount he would have received without such service credit. The transfer to the retirement fund shall be made in a manner and time period acceptable to the county and the board of retirement.

(b) The amount of service credit shall be that amount as the board of supervisors determines but shall not be more than two years regardless of credited service and shall not exceed the number of years intervening between the date of the member's retirement and the date the member would be required to be retired because of age.

(c) A county which elects to make the payment prescribed by subdivision (a) shall make such payment with respect to all eligible employees who retire during the period specified by the board of supervisors.

(d) This section shall not be applicable to any member otherwise eligible if such member receives any unemployment insurance payments during the period six months prior to the period specified pursuant to subdivision (a). This section shall not be applicable to any member if the member is not eligible to retire without the additional credit available under this section.

(e) This section shall not be applicable in any county until it is adopted by ordinance of the board of supervisors. Any county may adopt or readopt this section from time to time as conditions may warrant. This section shall not be applicable in any district whose employees are members of the system pursuant to Section 31557 until it is adopted by ordinance by the governing body of the district. Any district whose employees are members of the system pursuant to Section 31557 may adopt or readopt this section from time to time as conditions warrant.

(f) Any member who qualifies under this section upon subsequent reentry to county employment shall forfeit the service credit acquired under this section, unless the reentry is a result of a temporary callback limited to a maximum of 720 hours of service in any one year.

(g) This section shall not be subject to the provisions of Chapter 10 (commencing with Section 3500) of Division 4 of Title 1.

(Amended by Stats. 1986, Ch. 48, Sec. 1)

§31641.05. Members credited with 10 or more years of service; additional service credit; amounts; cost recapture; verification by audit; application of section; forfeiture upon reemployment; duration of section

(a) Notwithstanding Section 31641.04 or any other provision of this part, for only the 1994-95, 1995-96, 1996-97, 1997-98, and 1998-99 fiscal years, when the board of supervisors, by resolution, determines that because of an impending curtailment of service or change in the manner of performing service, savings of money, or other economic benefit resulting to the county, the best interests of the county would be served, a member shall be eligible to receive additional service credit if all of the following conditions exist:

(1) The member is employed in a job classification, county department, or other

county organizational unit included in the resolution adopted by the board of supervisors.

(2) The member is credited with 10 or more years of service and retires on or between dates specified by the board of supervisors in its resolution. In no event shall the specified period exceed 120 days.

(3) The county transmits to the retirement fund an amount determined by the board of retirement that is equal to the actuarial equivalent of the difference between the allowance the member receives after the receipt of service credit under this section and the amount he or she would have received without that service credit. The transfer to the retirement fund shall be made in a manner and time period acceptable to the county and the board of retirement. However, the payment period shall not exceed five years.

(b) The amount of service credit shall be the amount that the board of supervisors determines, but shall not be more than four years regardless of credited service and shall not exceed the number of years intervening between the date of the member's retirement and the date the member would be required to be retired because of age and shall not be combined with any additional service credit granted under Section 31641.04.

(c) The resolution described in subdivision (a) shall either identify sufficient deleted positions whose total cost equals or exceeds the lump-sum actuarial cost of the additional service credit granted or proclaim that all positions vacated due to the additional service credit granted pursuant to this section shall remain vacant for at least five years and until the lump-sum actuarial cost of the additional service credit granted has been recaptured from position vacancy salary savings.

(d) The board of supervisors shall certify to the board of retirement the extent to which savings will exceed necessary payments to the board of retirement, and the specific measures to be taken to assure that outcome. The board of retirement may require the board of supervisors to provide verification of its certification through independent review.

(e) At the time the county has achieved savings that are more than adequate to meet necessary payments to the board of retirement, or five years after commencement of the retirement period specified in paragraph (2) of this section, whichever occurs first, the board of supervisors shall certify to the retirement board the amount of actual savings and the measures taken to achieve the savings. The board of supervisors shall maintain records for each worker retiring pursuant to this section. The board of retirement may require the board of supervisors to provide verification of its certification through independent review. The board of supervisors shall report these certifications to the Controller, who should summarize the cost and savings information therein in his or her annual report prepared pursuant to Sections 7501 through 7504. The Controller shall perform a postaudit to verify that the savings equal or exceed the lump-sum actuarial cost of the additional service credit granted pursuant to this section. The county shall pay the cost of the postaudit.

(f) A county that elects to make the payment prescribed by subdivision (a) shall make the payment with respect to all eligible employees who retire during the period specified by the board of supervisors.

(g) This section shall not be applicable to any member otherwise eligible if the member receives any unemployment insurance payments during the period six months prior to the period specified pursuant to subdivision (a). This section shall not be applicable to any member if the member is not eligible to retire without the additional credit available under this section.

(h) This section shall not be applicable in any county until it is adopted by ordinance of the board of supervisors. Any county may adopt or readopt this section from time to time as conditions warrant.

(i) Any member who qualifies under this section upon subsequent reentry to county employment shall forfeit the service credit acquired under this section, unless the reentry is a result of a temporary callback pursuant to Section 31680.2, 31680.3, or 31680.6. Any member

who receives credit under this section shall not be temporarily employed as an annuitant pursuant to Section 31680.2, 31680.3, or 31680.6 for five years following the date of retirement.

(j) The board of supervisors shall certify to the retirement board that the county has complied with Section 7507.

(k) This section shall not be subject to Chapter 10 (commencing with Section 3500) of Division 4 of Title 1.

(l) No additional service credit shall be granted pursuant to this section on or after July 1, 1999.

(Added by Stats. 1994, Ch. 540 (SB 1488), Sec. 3)

(Amended by Stats. 1997, Ch. 458 (SB 1192), Sec. 2, Effective September 23, 1997, as an urgency statute)

§31641.1. Contributions and credit for prior public service

A member who was in public service before becoming a member may elect by written notice filed with the board to make contributions pursuant to Section 31641.2 and to receive credit in the retirement system for all allowed public service time. Credit for part-time service shall be calculated as provided in Section 31641.5.

(Amended by Stats. 1965, Ch. 508, Sec. 1)

§31641.2. Amount of contributions by member previously in public service

Any member of the retirement system who elects pursuant to Section 31641.1 to make contributions and receive credit as service for time for which he or she claims credit because of public service shall contribute to the retirement fund, prior to the effective date of his or her retirement, by lump sum payment or by installment payments over a period not to exceed five years, an amount equal to the sum of:

(a) Twice the contributions he or she would have made to the retirement fund if he or she had been a member during the same length of time as that for which he or she has elected to receive credit as service, computed by applying the rate of contribution first applicable to him or her upon commencement of his or her membership in this system to the monthly compensation first earnable by him or her at the time as provided in Section 31641.3, multiplied by the number of months for which he or she has elected to receive credit for county service, including time, if any, prior to the establishment of the system, and which will constitute current service under this system.

(b) The "regular interest" that would have accrued to the member contributions if they had been made on the date used to determine on what earnable compensation contributions pursuant to this section shall be based, from that date until the completion of payment of those contributions, computed at the current interest rate.

(c) Except as prohibited by Section 31640.7, the governing body by a four-fifths vote may provide that it shall make on behalf of officers and employees eligible to receive credit for prior service under this chapter, and who so elect prior to filing an application for retirement, part of the contributions specified in paragraphs (a) and (b) of this section. The contributions made by a governmental agency pursuant to this section shall be available only for purposes of retirement for service or for disability and a member resigning from county service shall be entitled to withdraw only that portion of his or her accumulated contributions made by him or her.

(Amended by Stats. 1967, Ch. 387, Sec. 1)

(Amended by Stats. 2006, Ch. 355 (AB 2351), Sec. 4)

§31641.3. Compensation first earnable

In Section 31641.2 compensation first earnable shall be that earnable by the member

at the time of the commencement of his membership in the retirement system, except that if a member who, prior to January 1, 1952, was a member of any retirement system in the same county which was superseded by a system established under this act, if such member so requests, the compensation first earnable by him at the later of the following times shall be used:

- (a) The commencement of his membership in such superseded retirement system.
- (b) The date on which this retirement system first became operative.

(Added by Stats. 1955, Ch. 363, Sec. 7)

§31641.4. Public service credits; certification; prior employment credits of safety members

(a) (1) Except as provided in paragraph (2), a member shall receive credit for employment in public service only for such service as the member is not entitled to receive a pension or retirement allowance from such public agency. The service for which the member elects to contribute and the fact that no pension or retirement allowance will accrue to such member by virtue of the member's employment in the public agency shall be certified to by an officer of the public agency where the member rendered such public service or shall be established to the satisfaction of the board.

(2) Nothing in this subdivision prohibits a member from receiving credit for a period of federal public service if federal law expressly permits the credit even though the member is already entitled to receive a pension or retirement allowance from that service. It is intended that this section be consistent with the holdings in *Cantwell v. San Mateo County* (1980) 631 F.2d 631.

(b) Notwithstanding any other provision of law, a safety member who receives credit for prior employment in public service, the principal duties of which consisted of active law enforcement or active fire suppression, or active service in the armed services of the United States during time of war or national emergency, shall have the member's pension or retirement allowance for this service calculated on the same basis as the calculation of the retirement allowance the member would receive as a safety member under Section 31664.

(c) A safety member who entered the service as a peace officer prior to the establishment of the safety membership provisions in the member's county shall be considered a safety member from the member's initial hiring date, for the purposes of this section, notwithstanding any other provision of law.

(Amended by Stats. 1975, Ch. 1171, Sec. 1)

(Amended by Stats. 2022, Ch. 231 (AB 1824), Sec. 9)

§31641.5. Credit for prior nonmembership service; election; payment of additional contributions; lump sum payment

A member who prior to his entrance into the retirement system held a position in the county service the tenure of which was such as to exclude him from membership, or a coroner, public administrator or coroner-public administrator who was excluded because of the means by which he was compensated, shall have the right to receive credit in the retirement association for all or any part of the county service he rendered, whether interrupted or not, during the time he was in county service before becoming a member if he elects to pay, and thereafter pays, in accordance with such election, and prior to retirement, into the retirement fund an amount equal to the contributions he would have made to the retirement fund if he had been a member during the time for which he has elected to receive credit, computed by applying the contribution rate first applicable to him upon becoming a member to the aggregate compensation he actually received during the time he was in county service and for which he has elected to receive credit, together with interest at the current rate on that amount

from the time he became a member until completion of payment. Such payment may be made by lump sum or by installment payments over a period not to exceed the length of time for which the member has elected to receive credit, in such manner and at such times as the board may by rule prescribe. No member shall receive credit under this section for any service for which he has not completed payment pursuant to this section before the effective date of his retirement. A member who has elected to make such payment in installments may complete payment thereof by lump sum at any time prior to the effective date of his retirement. Any sums paid by a member pursuant to this section shall be considered to be and administered as normal contributions by the member.

Where county service prior to membership was rendered on a part-time basis, the member may receive credit for such proportion of the time he held the part-time position as the time he was actually engaged in the performance of the duties of such position bears to the time required to perform the same duties in a full-time position.

A member who elects to receive credit for only a part of such county service shall elect that county service latest in time and may not receive credit for any portion of such county service prior in time to any county service for which he does not elect to receive credit.

(Amended by Stats. 1961, Ch. 2095, Sec. 3)

§31641.6. Assumption by county of functions of city; credit for prior service for city; election; operative date of section

An employee of a city who has become a county employee upon the assumption by the county of the functions of the city department in which he was employed, may, if he is not covered by the city under a contract with the Public Employees' Retirement System, elect to receive credit in the county retirement system for service for the city prior to the cessation of his employment by the city. When such person elects to receive credit, membership in the retirement system shall commence with the first day of the month in which credit is granted.

Any such person shall be entitled to credit in the county retirement system for service performed for the city when and if (a) the board of retirement receives certification from the city of the city service and earnable compensation of the employee; and (b) the employee deposits into the employees' retirement system the amount of contributions he would have made had he been a county employee during his city employment; and (c) there is also deposited in the employees' retirement system by the city, the employee, or both, the amount that the county would have been required to deposit to the employees' retirement fund based on the city salary paid to such employee.

Upon deposit of such funds, the employee's age at entry shall be considered to be his age at time of employment with the city or at the time this chapter was effective in the county whichever is later. Such money deposited under (b) above shall be considered as accumulated normal contributions of the employee and any such money deposited under (c) above shall be considered as contributions of the employer county.

If all the money called for under (b) above is not paid within 90 days after employment by the county, only the part of city employment latest in date covered by such deposit shall be credited and the age at entry and the amount under (c) above shall be adjusted accordingly.

An employee shall receive credit for city employment prior to his employment by the county only for such service for which he is not entitled to receive a pension or retirement from such city.

This section shall become operative in any county on the first day of the calendar month after the board of supervisors adopts by four-fifths vote a resolution making it operative in the county.

(Amended by Stats. 1973, Ch. 272, Sec. 1)

§31641.7. Rate of compensation to be used by member unable to furnish information required for purposes of section 31641.5

If the member is unable to furnish the information necessary to establish his aggregate compensation for the period of service for which he seeks credit pursuant to Section 31641.5, then the rate of compensation applicable to him at the time he first became a member of this system after the period to be credited shall be used in making the computation required by Section 31641.5.

(Added by Stats. 1969, Ch. 501, Sec. 1)

§31641.8. Installment payments; lump sum payment

Any member who has elected to make contributions pursuant to this chapter by installment payments may, at any time prior to the effective date of his retirement, complete payment thereof by lump sum.

(Added by Stats. 1955, Ch. 363, Sec. 9)

§31641.9. Treatment of contributions; matching by county

All contributions made by a member, pursuant to Sections 31641.1, 31641.2, 31641.3 and 31641.4 shall be considered to be, and shall be administered as, normal contributions but shall not be matched by the county upon retirement of the member.

(Amended by Stats. 1957, Ch. 1386, Sec. 3)

§31641.20. Prior service; lump-sum or installment payments; regular interest; public agency contributions; counties of third class (San Diego)

(a) Twice the contributions he or she would have made to the retirement fund if he or she had been a member during the same length of time as that for which he or she has elected to receive credit as service, computed by applying the rate of contribution at the time of the election to the monthly compensation earnable by him or her at the time of the election pursuant to Section 31641.1, multiplied by the number of months for which he or she has elected to receive credit for county service, including time, if any, prior to the establishment of the system, and which will constitute current service under this system.

(b) The "regular interest" which would have accrued to the member contributions if they had been made on the date used to determine on what earnable compensation contributions pursuant to this section shall be based, from that date until the completion of payment of those contributions, computed at the current interest rate.

(c) The governing body by a four-fifths vote may provide that it shall make on behalf of officers and employees eligible to receive credit for prior service under this chapter, and who so elect prior to filing an application for retirement, part of the contributions specified in paragraphs (a) and (b) of this section. The contributions made by a governmental agency pursuant to this section shall be available only for purposes of retirement for service or for disability and a member resigning from county service shall be entitled to withdraw only that portion of his or her accumulated contributions made by him or her.

(d) This section shall only apply in counties of the third class, as established by Sections 28020 and 28024, as amended by Chapter 1204 of Statutes of 1971, but it shall not apply in those counties unless and until it is adopted by a majority vote of the board of supervisors.

(Added by Stats. 1990, Ch. 205, Sec. 1)

§31641.21. Regular interest, defined for purpose of Section 31641.2

Regular interest computed at the current interest rate as used in subdivision (b) of Section 31641.2 shall mean that amount of interest which would have been credited to the account of the member on the amount to be deposited at the interest rates established for the system if the contribution required by that section had been on deposit from the date used to determine the earnable compensation on which such contributions are based until the amount required to be deposited has been paid.

(Added by Stats. 1970, Ch. 369, Sec. 3)

§31641.45. Refund of amount deposited plus interest; no credit received for public service

Whenever a member is entitled to redeposit funds previously withdrawn from a retirement system and thereby becomes eligible to receive a pension or retirement allowance for the service for which the member was granted public service credit as authorized in Section 31641.1, regardless of whether or not the member elects to exercise such entitlement, the member shall be refunded the amount deposited by the member in accordance with Section 31641.2 plus interest which has been credited to such amount and shall receive no credit in the system for such service.

This section applies only to a member who would be eligible to receive the benefit of Section 31835 or 20638 on making the redeposit.

§31641.55. Purchase of service credit in event of closure, downsizing, or realignment; Payment; Definitions; Applicability

(a) A member described in Section 31470.4 who was in public service before becoming a member, and that service was terminated as a consequence of the closure, downsizing, or realignment of a federal military installation, may elect by written notice filed with the board to make contributions pursuant to subdivision (b) and to receive credit in the retirement system for all allowed public service time.

(b) Any member described in subdivision (a) who elects pursuant to subdivision (a) to make contributions and receive service credit for time for which he or she claims credit because of public service shall contribute to the retirement fund, prior to the effective date of his or her retirement, by lump sum payment or by installment payments over a period not to exceed 10 years, an amount equal to the sum of the following:

(1) The contributions he or she would have made to the retirement fund if he or she had been a member during the same length of time as that for which he or she has elected to receive service credit, computed by applying the rate of contribution first applicable to him or her upon commencement of his or her membership in this system to the monthly compensation first earnable by him or her at the time, multiplied by the number of months for which he or she has elected to receive service credit for public service.

(2) Interest at the current rate, as defined in Section 31641.51, from the date of his

or her first membership in the system until the completion of payment of those contributions.

(c) The governing body by a majority vote may provide that it shall make part of the contributions specified in paragraphs (1) and (2) of subdivision (b) on behalf of its members eligible to receive credit for public service under this section who so elect prior to filing an application for retirement.

(d) A member who has elected to make the payment in installments may complete payment by lump sum at any time prior to the effective date of his or her retirement. Any contributions made by a member pursuant to this section shall be considered and administered as normal contributions by the member.

§31641.56. Credit for prior county service while on deferred status; election; contributions; lump sum payment; contingent operation

A member who returns to county service after having been on deferred status while rendering county service in a position excluded from membership, shall have the right to receive credit in the retirement association for all or any part of the county service he or she rendered during the time he or she was on deferred status if he or she elects to pay, and thereafter pays, in accordance with the election, and prior to retirement, into the retirement fund an amount equal to the contributions he or she would have made to the retirement fund if he or she had not been on deferred status during the time for which he or she has elected to receive credit, computed by applying the contribution rate first applicable to him or her upon returning to county service to the aggregate compensation he or she actually received during the time he or she was in county service and for which he or she has elected to receive credit, together with regular interest on that amount from the time he or she was on deferred status until completion of payment. The payment may be made by lump sum or by installment payments over a period not to exceed the length of time for which the member has elected to receive credit, in the manner and at the times as the board may by rule prescribe. No member shall receive credit under this section for any service for which he or she has not completed payment pursuant to this section before the effective date of his or her retirement. A member who has elected to make payment in installments may complete payment by lump sum at any time prior to the effective date of his or her retirement. Any sums paid by a member pursuant to this section shall be considered to be administered as normal contributions by the member.

A member who elects to receive credit for only a part of that county service shall elect that county service latest in time and may not receive credit for any portion of that county service for which he or she does not elect to receive credit.

This section shall not be operative in any county until the time that the board of

supervisors shall, by resolution adopted by majority vote, make the provisions of this section applicable in the county.

Such resolution may limit the applicability of such sections to any one or more of the public agencies as defined by Section 31478.

At any time after such a resolution has been adopted, the governing board of the county or district, by majority vote, may adopt a further resolution declaring that from and after a future date stated further in the resolution, the benefits of the resolution described in the first paragraph of this section shall not be available to any employees who are hired by the county or district after that date.

(e) The full cost, including interest, of the employee and county liability for the additional credit under this section shall be determined by the board of retirement on actuarial advice, and shall be the actuarial equivalent of the difference between the retirement benefits the person will receive after receipt of credit for prior military service under this section and the retirement benefits the person would have received without that credit.

§31646. Credit for uncompensated leave of absence for illness; conditions

(a) A member who returns to active service following an uncompensated leave of absence on account of illness may receive service credit for the period of the absence upon the payment of the contributions that the member would have paid during that period, together with the interest that the contributions would have earned had they been on deposit, if the member was not absent. The contributions may be paid in a lump sum or may be paid on a monthly basis for a period of not more than the length of the period for which service credit is claimed. Credit shall not be received for any period of such an absence in excess of 12 consecutive months.

(b) (1) A member who returns to active service following an uncompensated leave of absence on account of parental leave may receive service credit for the period of the absence upon the payment of the contributions that the member and the employer would have paid during that period, together with the interest that the contributions would have earned had they been on deposit, if the member was not absent. For purposes of this subdivision, parental leave is defined as any time, up to one year, during which a member is granted an approved maternity or paternity leave and returns to employment at the end of the approved leave for a period of time at least equal to that leave. The contributions may be paid in a lump sum or may be paid on a monthly basis for a period of not more than the length of the period for which service credit is claimed. Credit shall not be received for any period of such an absence in excess of 12 consecutive months.

(c) (1) A member who returns to active service following an uncompensated leave of absence on account of the serious illness of a family member when the absence is eligible for coverage under the federal Family and Medical Leave Act of 1993 (29 U.S.C. Sec. 2601 et seq.) or the Moore-Brown-Roberti Family Rights Act, commonly referred to as the California Family Rights Act, as described in Section 12945, may receive service credit for the period of the absence upon the payment of the contributions that the member and the employer would have paid during that period, together with the interest that the contributions would have earned had the contributions been on deposit, if the member was not absent. For purposes of this subdivision, "leave of absence on account of illness of a family member" means any time, up to one year, during which a member is granted an approved leave to care for a seriously ill family member and returns to employment at the end of the approved leave for a period of time at least equal to that leave. The contributions required to receive the service credit may be paid in a lump sum or may be paid on a monthly basis for a period of not more than the length of the period for which service credit is claimed. Credit shall not be received for any period of such an absence in excess of 12 consecutive months.

(2) This subdivision shall not be operative until the board of supervisors, by resolution adopted by majority vote, makes the provisions applicable to that county and applies it to leave that commences after the adoption by the board of supervisors.

The contributions may be paid in a lump sum or may be paid on a monthly basis for a period of not more than the length of the period for which service credit is claimed.

(3) Payment by the member of the contributions the member would have paid during the leave of absence, together with interest those contributions would have earned had they been on deposit if the member were not absent. The contributions may be paid in a lump sum, or may be paid on a monthly basis for a period of not more than the length of the period for which service credit is claimed; provided, however, that payment shall be completed prior to the effective date of the member's retirement, or in accordance with Section 31485.7 or 31485.8 if either section has been adopted by the board of supervisors.

(d) Any member who elects to make contributions and receive service credit for additional retirement credit shall contribute to the retirement fund, prior to the effective date of his or her retirement, by lump-sum payment or by installment payments over a period not to exceed 10 years, an amount that, at the time of commencement of purchase, in the opinion of the board and the actuary, is sufficient to not place any additional financial burden upon the retirement system.

(e) No member may receive service credit under this section for any additional retirement credit for which he or she has not completed payment pursuant to subdivision (d) before the effective date of his or her retirement. Subject to the limitations of United States Internal Revenue Service regulations, a member who has elected to make payment in installments may complete payment by lump sum at any time prior to the effective date of his or her retirement.

(Amended by Stats. 2020, Ch. 275 (AB 2101), Sec. 46)

§31672.3. Member of county retirement system; retirement criteria

A member of a county retirement system who is subject to the California Public Employees' Pension Reform Act of 2013 (Article 4 (commencing with Section 7522) of Chapter 21 of Division 7 of Title 1) for all or a portion of the member's membership in the county retirement system who has completed five years of service and has reached the minimum retirement age applicable to that member under the act, or has reached 70 years of age, may be retired upon filing with the board a written application, setting forth the date upon which the member desires the member's retirement to become effective. The effective retirement date shall not be either of the following:

(1) Earlier than the date the application is filed with the board.

(2) More than 60 days after the date of filing the application or more than a number of days that has been approved by the board.

(Added by Stats. 2013, Ch. 247 (AB 1380), Sec. 33)

(Amended by Stats. 2020, Ch. 275 (AB 2101), Sec. 46)

§31672.5. Member of retirement system of other public agency becoming member of county retirement association; eligibility for retirement

Notwithstanding any other provision of this chapter, when any member of a retirement system of any other public agency becomes a member of a county retirement association, established pursuant to this chapter, as a result of the transfer to and assumption by the county of any function of the other public agency, and the member retains rights in the retirement system of the other public agency in respect to service theretofore rendered to that agency,

such member shall be eligible for retirement under the county retirement system at any time at which he would have been eligible for such retirement if the service rendered to the other public agency had been rendered instead to the county. A certificate of any officer of the other public agency authorized to determine service rendered to that agency that certain service was rendered to such agency shall be accepted by the retirement board of the county retirement association as prima facie evidence of service so rendered.

This section shall be applied only to enable such members of county retirement systems to qualify for retirement. Nothing in this section entitles any member of a county retirement system to any pension or other benefit based upon service rendered to any other public agency, but such a member upon his retirement shall be entitled to a retirement allowance under the county retirement system, calculated according to the formula applicable under such system, and on the basis of his county service even though such service be less than the minimum county service required for retirement under such system.

The provisions in this chapter for minimum retirement allowances, shall not apply to any retired person who would not have qualified for retirement without including under this section service rendered to such public agency, nor shall such provisions apply unless the sum of the retirement allowances to which such person is entitled under the county retirement system and the retirement system of the other public agency, is less than the otherwise applicable minimum allowance under such provisions.

This section shall become operative in any county on the first day of the calendar month after the board of supervisors adopts by four-fifths vote a resolution making it operative in the county.

(Added by Stats. 1957, Ch. 3, Sec. 1)

§31673. Retirement allowances

Upon retirement for service a member is entitled to receive a retirement allowance which shall consist of:

- (a) His service retirement annuity.
- (b) His current service pension.
- (c) His prior service pension.

(Added by Stats. 1947, Ch. 424, Sec. 1)

§31674. Service retirement annuity

The service retirement annuity is an annuity which is the actuarial equivalent of his accumulated contributions at the time of his retirement.

(Added by Stats. 1947, Ch. 424, Sec. 1)

§31675. Current service pension

The current service pension is a pension, purchased by the contributions of the county or district, equal to that portion of the annuity purchased by the accumulated normal contributions of the member.

(Added by Stats. 1947, Ch. 424, Sec. 1)

§31676. Prior service pension

The prior service pension is an additional pension for members purchased by the contributions of the county or district, equal to one-sixtieth of the average annual compensation earnable by him during the last three years prior to the establishment of the system and the last three years of service, multiplied by the number of years of prior service credited to him.

(Amended by Stats. 1947, Ch. 348, Sec. 6)

§31676.01. Operation of section; coverage under federal system; current and prior service pensions as additional pension

This section shall be operative in a county at such time or times as may be mutually agreed to in memoranda of understanding executed by the employer and employee representatives if the board of supervisors adopts, by majority vote, a resolution declaring that the section shall be operative in the county.

Notwithstanding any other provisions of this chapter, the current service pension, or the current service pension combined with the prior service pension, is an additional pension for members purchased by the contributions of the county or district sufficient, when added to the service retirement annuity, to equal the fraction of one-ninetieth of the member's final compensation set forth opposite the member's age at retirement, taken to the preceding completed quarter year, in the following table multiplied by the number of years of current service or years of current and prior service with which the member is entitled to be credited at retirement, but in no event shall the total retirement allowance exceed the member's final compensation.

§31676.15. Additional pension; Determining amount of allowances; Applicabilty to certain members

(a) Except as provided in subdivision (d), this section may be made applicable in any county which has implemented the provisions of Article 15.6 (commencing with Section 31855). This section shall be applicable if a majority of all the members of the board of supervisors vote to adopt a resolution so to do and a majority of the members of the affected class or classes voting at an election held during 1974, with more than 50 percent of the members participating, favor the termination of retirement benefits under social security. The resolution may specify a date subsequent to the date of adoption of the resolution as the operative date for this section.

(b) (1) Notwithstanding any other provisions of this chapter, the current service pension or the current service pension combined with the prior service pension is an additional pension for members purchased by the contributions of the county or district sufficient, when added to the service retirement annuity, to equal the fraction of one-fiftieth of the member's final compensation set forth opposite the age at retirement, taken to the preceding completed quarter year, in the following table multiplied by the number of years of current service or years of current and prior service with which the member is entitled to be credited at retirement, but in no event shall the total retirement allowance exceed the member's final compensation.

§31676.56. Members with 30 years' service

In any county coming under the provisions of Section 31676.1 subsequent to January 1, 1953, any member having in excess of 30 years of service may within 90 days from the effective date of this amendment elect in writing not to come under the provisions of Section 31676.1.

§31676.95. Pension increases and decreases; pension calculation; application of section

In every county coming under the provisions of Section 31676.1 subsequent to January 1, 1953, every current service pension and prior service pension payable for time commencing on the effective date of this section to any member who was retired prior to said effective date by reason of having attained the age of compulsory retirement, is hereby increased to the amount it would be if the provisions of this chapter, including Sections 31676.1 and 31760.1, as they existed on the date that Section 31676.1 became applicable to the members' retirement system, had been in effect on the date of the actual retirement of the member; but this section does not authorize any decrease in any such pension, nor does this section give any such retired member, or his successors in interest, any claim against the county or district for any increase in any pension paid or payable for time prior to its effective date. Calculations of pensions under this section shall be made on the basis of current interest rate and mortality tables.

This section shall not apply to any retirement system established under the provisions of this chapter, nor to the members or retired members of any such system unless and until the governing board of the county or district covered by such retirement system elects to be subject to the provisions of this section in the manner provided by Article 2 of this chapter with respect to the establishment of a retirement system hereunder; except that an election among the employees is not required.

§31676.96. Previously retired members; increase in pensions

In every county coming under the provisions of Section 31676.1, every current service pension and prior service pension payable for the time commencing on the first day of the month after the effective date of this section to any member who was retired prior to such effective date is hereby increased to the amount it would be if the provisions of this chapter, including Section 31676.1, as they exist on the effective date of this section had been in effect

Calculations of pensions under this section shall be made on the basis of current interest rate and mortality tables.

This section shall not apply to any retirement system established under the provisions of this chapter, nor to the members or retired members of any such system unless and until the governing board of the county or district covered by such retirement system elects to be subject to the provisions of this section in the manner provided by Article 2 (commencing with Section 31500) of this chapter with respect to the establishment of a retirement system hereunder, except that an election among the employees is not required.

Calculations of pensions under this section shall be made on the basis of current interest rate and mortality tables.

(Added by Stats. 1965, Ch. 557, Sec. 1)

§31676.98. Retirees under former system, inclusion in new system; adjustment of contribution rates

Any county under the provisions of Section 31676.1, on the effective date of this section, whose retired employees were not included in the benefits of Section 31676.1 on the date the county or district adopted the provisions of Section 31676.1, may now include under Section 31676.1 all retirees who retired during the period of time from the establishment of such retirement system and the date such county or district passed a resolution bringing the county or district under the provisions of Section 31676.1, subject to the following conditions:

(a) The benefits of this section shall not apply to any beneficiary or successor in interest of any deceased member and shall apply only to the living retired members on the date such section is adopted by resolution of the county or district.

(b) No increases, cost of living adjustments or grants to such retired members shall be considered in the calculations of the retirement allowance, and only such pensions received by the retired members, computed at the date of the original retirement of the members shall be used in the computation of any such benefits. All living retired members shall have their benefits computed as general members. Calculations shall be made on the basis of current interest rates and mortality tables.

(c) This section shall not decrease any such pension or retirement allowance, nor shall this section give any such retired members or their beneficiary or successor in interest, any claim against the county or district for any increases in pension or retirement allowance paid or payable for the time prior to the effective date of this section.

(d) This section shall not apply to any retirement system established under the provisions of this chapter, nor to the members or retired members of such system unless

and until the governing board of the county or district adopts, by majority vote, a resolution providing that this section shall become applicable in such county or district. Upon adoption the effective date shall be the first of the month following such date of adoption.

A county or district upon the adoption of the benefits prescribed by this section shall determine and shall prescribe increases in employer or member rates of contribution or make such other adjustments as it deems appropriate to fully fund such benefits on a sound actuarial basis.

§31677. Reduction of benefits on retirement before age 60

If a member retires for service before attaining age 60, the prior service pension shall be reduced to that amount which the value of the pensions as deferred to age 60 will purchase at the actual age of retirement.

(Amended by Stats. 1947, Ch. 348, Sec. 7)

§31678. Retirement association members; calculation of retirement allowances under Sections 31676.12 to 31676.15

Notwithstanding any other provision of this chapter, any member of a retirement association established in any county pursuant to this chapter, who upon retirement receives a retirement allowance calculated in accordance with Sections 31676.1, 31676.11, 31676.12, 31676.13, 31676.14, and 31676.15, shall have his or her retirement allowance calculated under such section only for the period of time that the section was effective in the county.

The Legislature recognizes that counties subject to this chapter may adopt two or more of the enumerated retirement allowance calculation sections when changing from a section providing a lesser allowance to a section providing a larger allowance and thereby creates a windfall for a person who retires immediately after the adoption of a section providing the larger allowance because the retirement allowance is calculated as if the section had been in effect during the entire career of the member. The purpose of this section is to prevent this practice. This section shall apply only to persons who become members of the retirement system after January 1, 1981.

(Added by Stats. 1980, Ch. 720, Sec. 4)

§31678.1. Counties of the 14th class: application of Section 31678; conditions (Kern)

(a) In a county of the 14th class, as defined by Section 28020, as amended by Chapter 1204 of the Statutes of 1971, and Section 28035, as amended by Chapter 1204 of the Statutes of 1971, Section 31678 shall only be applicable to persons who first became members of the retirement system on and after January 1, 1994.

(b) This section shall not be operative in that county until the board of supervisors, by resolution, adopted by a majority vote, makes this section applicable in that county.

(c) Notwithstanding any other provision of law, this section shall only apply to members who retire on or after January 1, 1994.

(Amended by Stats. 1999, Ch. 42 (AB 455), Sec. 1)

§31678.2. Application of retirement benefits; service credits; date specified in resolution

(a) Notwithstanding Section 31678 or any other provision of this chapter, a board of supervisors or a governing body of a district may, by resolution adopted by majority vote, make any section of this chapter prescribing a formula for calculation of retirement benefits applicable to service credit earned on and after the date specified in the resolution, which date

may be earlier than the date the resolution is adopted.

(b) A resolution adopted pursuant to this section may, if approved in a memorandum of understanding executed by the board of supervisors and the employee representatives, require members to pay all or part of the contributions by a member or employer, or both, that would have been required if the section or sections specified in subdivision (a), as adopted by the board or governing body, had been in effect during the period of time designated in the resolution. The payment by a member shall become part of the accumulated contributions of the member.

(c) This section shall only be applicable to members who retire on or after the effective date of the resolution described in subdivision (a).

(d) On or after January 1, 2013, this section is inoperative pursuant to Section 7522.44.

(Added by Stats. 2000, Ch. 495 (SB 1696), Sec. 1)

§31678.3. Orange County; formula for calculation of retirement benefits; authority to adopt formula; application to employees of a county and to employees of any district within a county

(a) Notwithstanding any other provision of this chapter, a resolution adopted by a board of supervisors to make any formula for calculation of retirement benefits described in this section applicable to the employees of the county does not apply to make that formula applicable to the employees of any district within the county. The governing body of a district may elect, by resolution adopted by majority vote, to make any formula for calculation of retirement benefits described in this section applicable to the employees of the district irrespective of whether the board of supervisors has made that election with respect to employees of the county.

(b) Notwithstanding any other provision of this chapter, the board of supervisors or the governing body of a district may, by resolution adopted by majority vote, pursuant to a memorandum of understanding made under the Meyers-Milias-Brown Act (Chapter 10 (commencing with Section 3500) of Division 4 of Title 2), do any or all of the following:

(1) Apply Section 31621.8, 31676.17, 31676.18, or 31676.19 for the calculation of retirement benefits for general members to the employees in a bargaining unit comprised of general members.

(2) Apply Section 31664.1 for the calculation of retirement benefits for safety members to the employees in a bargaining unit comprised of safety members.

(3) Apply Section 31664 for the calculation of retirement benefits for safety members to the employees of the Probation Services Unit and the Probation Supervisory Management Unit.

(c) Any nonrepresented employees within similar job classifications as employees in a bargaining unit described in subdivision (b) or supervisors and managers thereof shall be subject to the same formula for the calculation of retirement benefits applicable to the employees in that bargaining unit.

(d) A resolution adopted pursuant to subdivision (b) may require members to pay a portion of the contributions attributable to past service liability, that would have been required if the benefits specified in the resolution, as adopted by the board of supervisors or the governing body of the district, had been in effect during the period of time designated in the resolution. Any payments required of represented employees shall first be approved in a memorandum of understanding made under the Meyers-Milias-Brown Act and executed by the board of supervisors or the governing body of the district and the employee

representatives. The contributions paid by a member pursuant to this subdivision shall become part of the accumulated contributions of the member.

(e) This section shall only be applicable to members who retire on or after the effective date of the resolution described in subdivision (b).

(f) The board of supervisors or the governing body of a district may not unilaterally implement a retirement formula for any of its bargaining units.

(g) This section shall apply only in Orange County.

(h) Beginning January 1, 2013, if any provision of this section conflicts with the California Public Employees' Pension Reform Act of 2013, the provisions of that act shall prevail.

§31678.4. Applicability of formula for the calculation of retirement benefits

The governing body of a district as defined in subdivision (l) of Section 31468 shall not elect to make a formula for the calculation of retirement benefits applicable to the personnel of the district appointed pursuant to Section 31522.5 who are employees of the retirement system unless the board of supervisors has made that formula applicable to personnel of that retirement system who are employees of the county.

§31678.31. Orange County; authority to require written election of pension calculations

(a) Notwithstanding any other provision of this chapter, the board of supervisors or the governing body of a district within the county may, by resolution adopted by majority vote, do the following:

(1) Require an employee hired after approval of the resolution, to elect in writing, either the pension calculation stated in Section 31676.19 or the pension calculation stated in Section 31676.01. The election shall be made within 45 calendar days of beginning employment with the county or the district. If an employee does not elect the pension calculation stated in Section 31676.19 within 45 days of beginning employment, the employee shall be deemed to have elected the pension calculation stated in Section 31676.01. An employee shall not be permitted to rescind his or her election unless the board of supervisors or the governing body of a district, through the adoption of a subsequent ordinance or resolution by majority vote, makes a provision permitting the employee to rescind the election applicable to the county or district.

(2) Require a current employee of the county or district covered by the pension calculation stated in Section 31676.19, hired before approval of the resolution, within 180 calendar days of approval of the resolution to make, at the employee's option, a one-time written election to terminate the application of the pension calculation stated in Section 31676.19 for future service and elect instead the pension calculation stated in Section 31676.01 for future service. This election shall be signed by the employee. Prior to signing an election, a current employee who chooses to terminate the pension calculation stated in Section 31676.19 and elects instead the pension calculation stated in Section 31676.01, shall be provided by the county or district governing body with a written explanation of the effect and impact of the termination. A current employee who chooses to terminate the pension calculation stated in Section 31676.19 shall be required to sign an affidavit stating that the employee has been fully informed regarding the effect of the termination and understands that the termination is

irrevocable. The affidavit shall also state that the employee has chosen termination of his or her own free will and was not coerced into termination by the employer or any other person. An employee shall not be permitted to rescind his or her election unless the board of supervisors or the governing body of a district, through the adoption of a subsequent ordinance or resolution by majority vote, makes a provision permitting the employee to rescind the election applicable to the county or district.

(3) Require a current employee of the county or district, hired before approval of the resolution, but not covered by the pension calculation stated in Section 31676.19, who after approval of the resolution becomes eligible for the pension calculation stated in Section 31676.19, to make a one-time written election between the pension calculation stated in Section 31676.19 for future service and the pension calculation stated in Section 31676.01 for future service. The election shall be made within 45 calendar days of becoming eligible for the pension calculation stated in Section 31676.19. The election shall be signed by the employee. Prior to signing the election, an employee who does not elect the pension calculation stated in Section 31676.19 and elects instead the pension calculation stated in Section 31676.01 shall be provided by the county or the district governing body with a written explanation of the effect and impact of the election. An employee who does not choose the pension calculation stated in Section 31676.19 shall be required to sign an affidavit stating that the employee has been fully informed regarding the effect of the election and understands that the election is irrevocable. The affidavit shall also state that the employee has chosen the election of his or her own free will and was not coerced into the election by the employer or any other person. An employee shall not be permitted to rescind his or her election unless the board of supervisors or the governing body of a district, through the adoption of a subsequent ordinance or resolution by majority vote, makes a provision permitting the employee to rescind the election applicable to the county or district. Failure to make an election within 45 calendar days shall be considered cause for termination of employment until the employee described in this paragraph has made the required election.

(b) The retirement allowance for service rendered prior to the effective date of the election under paragraph (2) or (3) of subdivision (a) for an employee covered by any other pension calculation shall be calculated under the employee's prior pension calculation. Any employee who has made an election shall not be eligible for retirement unless the employee meets the minimum requirements of the provision or provisions pursuant to the election applicable at the date of retirement.

(c) (1) An election for the pension calculation stated in Section 31676.01 by any employee hired before approval of the resolution shall include the signature of the designated beneficiary of the employee's pension acknowledging the election, or shall include a written declaration of one or more of the following as may be applicable:

(A) The beneficiary has no identifiable community property interest in the benefit.

(B) The employee does not know, and has taken all reasonable steps to determine, the whereabouts of the beneficiary.

(C) The beneficiary has been advised of the election and has refused to sign the written acknowledgment.

(D) The beneficiary is incapable of executing the acknowledgment because of an incapacitating mental or physical condition.

(2) The purpose of this subdivision is to notify the beneficiary, including the employee's spouse or domestic partner, of an election made by the employee that may affect the entitlement of the beneficiary. In addition to the foregoing, if the designated beneficiary of

an employee's pension is a spouse or domestic partner of the employee, the election shall also evidence agreement to the election by the spouse or domestic partner.

(3) A person who knowingly provides false information in the written declaration submitted pursuant to paragraph (1) shall be subject to a civil penalty of not less than one thousand dollars (\$1,000) and not more than twenty-five thousand dollars (\$25,000), in addition to any civil remedies available to the board. An action to impose a civil penalty pursuant to this paragraph may be brought by any public prosecutor in the name of the people of the state.

(d) In the event the employee elects the pension calculation stated in Section 31676.01, the employee shall be eligible to receive a contribution from the county or district based on the employee's contribution to a defined contribution program.

(e) In addition to employees represented by bargaining units, any other employees not represented by a bargaining unit, as well as supervisors, managers, and executives, may be subject to subdivision (a) pursuant to the resolution described in subdivision (a).

(f) This section shall apply only to members who retire on or after the effective date of the resolution described in subdivision (a).

(g) This section shall not apply to safety members.

(h) A resolution adopted by the board of supervisors under subdivision (a) shall not apply to the employees of any district within the county. The governing body of a district may elect, by resolution adopted by majority vote, to make this section applicable to the employees of the district irrespective of whether the board of supervisors has made that election applicable to employees in the county.

(i) A resolution adopted pursuant to this section may require any member that elects or is deemed to have elected the pension calculation stated in Section 31676.01 to pay additional member contributions beyond those member contributions required under Section 31621. These additional contributions shall not result in an additional benefit to the member. However, the additional contributions paid by a member pursuant to the authority granted by this subdivision shall become part of the accumulated contributions of the member for the following purposes only:

(1) Funding the annuity portion of the member's retirement allowance.

(2) Withdrawal of contributions by the member upon the member's withdrawal from, and termination of membership in, the retirement system.

(j) Any person employed subsequent to the effective date of a resolution adopted under subdivision (a) who would otherwise qualify as a member shall not become a member until he or she certifies his or her election, or otherwise as described above has been deemed to have elected, to be covered by the pension calculation stated in Section 31676.01 or the pension calculation stated in Section 31676.19. Once the election is made or is deemed to have been made, the employee will become a member retroactive to the date of hire. Any employee who subsequently otherwise becomes eligible for the pension calculation stated in Section 31676.19 subsequent to the effective date of a resolution adopted under subdivision (a) shall continue to be covered by any immediately preceding retirement plan to which he or she was entitled from the county or district until he or she certifies his or her election to be covered by the pension calculation stated in Section 31676.01 or the pension calculation stated in Section 31676.19.

(k) In the event that the final day to make an election or perform an act described in this section falls on a weekend or on a county or district holiday, a subsequent election or act shall be timely if made or performed on the immediately following regular business day of the county or district.

(l) This section shall apply only in Orange County.

(m) Beginning January 1, 2013, if any provision of this section conflicts with the California Public Employees' Pension Reform Act of 2013, the provisions of that act shall

prevail.

(3) The county or district may pay and the retired member may receive:

(b) As herein used the term “services rendered” shall refer to service rendered as an officer or employee of the county or district and shall not refer to services performed by a retired officer or employee as an independent contractor engaged by a county or district under a bona fide contract for services within the purview of Section 31000 of this code.

That employment shall not operate to reinstate the person as a member of this system or to terminate or suspend the person's retirement allowance, and no deductions shall be made from the person's salary as contributions to this system.

§31680.4. Reemployment; reinstatement to active membership; contingent operation

Notwithstanding any other provision of law, a member retired for service and reemployed in a county or district under this chapter shall become again an active member of the retirement association upon (a) his or her application to the board for reinstatement, (b) the determination of the board, based upon medical examination, that he or she is not incapacitated for the duties assigned to him or her; and (c) meeting the conditions for membership in Article 4 (commencing with Section 31550) are met.

For the purposes of this section, the effective date of the member's reinstatement to active membership shall be the first day of the month following the date of reemployment.

Except as permitted in Section 31680.2 or 31680.3, the retirement allowance of the member shall be canceled on the effective date of the member's reemployment and shall be resumed only upon the subsequent termination of the member from employment.

This section shall not be operative in any county until the board of supervisors, by resolution adopted by a majority vote, makes this section and Section 31680.5 operative in that county.

(Added by Stats. 1990, Ch. 651, Sec. 1)

§31680.5. Reinstatement; contributions and allowances; contingent operation

(a) Upon reinstatement, pursuant to Section 31680.4, the member's rate of contributions and retirement allowance upon subsequent retirement shall be determined as if the member were first entering the system.

Solely for the purpose of determining the member's eligibility for service retirement under this section, service shall include the member's credited service prior to reinstatement.

(b) The member's allowance upon his or her service or disability retirement or other termination subsequent to the reinstatement shall be the sum of (1) his or her retirement allowance calculated on the basis of credited service rendered after reinstatement in accordance with the formula applicable to him or her plus (2) his or her retirement allowance as it was prior to reinstatement, adjusted by any change after reinstatement in the provisions governing the calculation of his or her allowance which would have applied to him or her had he or she continued in retirement.

The retirement allowance otherwise payable under this section to a member whose allowance prior to reinstatement was paid pursuant to his or her election under Section 31810 shall be reduced as provided in Section 31810. However, for a member reinstated pursuant to Section 31680.4 prior to attaining age 62, the reduction required by Section 31810 shall be the amount which is the actuarial value of the increase in the allowance from date of retirement to date of reinstatement.

Notwithstanding any other provision of this chapter, the retirement allowance payable to any member subject to this section for any credited service for which a retirement allowance was paid prior to reinstatement shall not be less than the retirement allowance which would have been payable on the date of the subsequent retirement had the member not been

reinstated, adjusted, however, by any reduction under this section because of an election under Section 31810.

(c) Notwithstanding Article 10 (commencing with Section 31720), upon retirement for disability subsequent to reinstatement, a member shall receive a disability retirement allowance as follows:

(1) A service-connected disability allowance shall be equal to one-half of his or her final compensation or an allowance computed as prescribed by subdivision (b), whichever is greater.

(2) A nonservice-connected disability allowance shall be computed using the method prescribed by subdivision (b).

(d) This section shall not be operative in any county until the board of supervisors, by resolution adopted by a majority vote, makes this section and Section 31680.4 operative in that county.

§31680.6. Extension of time for which retired persons may be employed in special skill or knowledge positions; retired persons who have received unemployment compensation in prior 12-month period

(a) Notwithstanding Section 31680.2, any county subject to Section 31680.2 may, upon adoption of a resolution by a majority vote by the board of supervisors, extend the period of time provided for in Section 31680.2 for which a person who has retired may be employed in a position requiring special skills or knowledge, as determined by the county or district employing him or her, not to exceed 120 working days or 960 hours, whichever is greater, in any one fiscal year or any other 12-month period designated by the board of supervisors and may be paid for that employment. That employment shall not operate to reinstate the person as a member of this system or to terminate or suspend his or her retirement allowance, and no deductions shall be made from his or her salary as contributions to this system.

(b) (1) This section shall not apply to any retired person who is otherwise eligible for employment under this section if, during the 12-month period prior to an appointment described in this section, that retired person receives unemployment insurance compensation arising out of prior employment subject to this section with the same employer.

(2) A retired person who accepts an appointment after receiving unemployment insurance compensation as described in this subdivision shall terminate that employment on the last day of the current pay period and shall not be eligible for reappointment subject to this section for a period of 12 months following the last day of employment.

(c) Beginning January 1, 2013, if any provision of this section conflicts with the California Public Employees' Pension Reform Act of 2013, the provisions of that act shall prevail.

§31680.7. Reemployment after retirement; discontinuance of allowance; reinstatement; determination of benefits; survivor's allowance; inapplicability to early retiree; operative on adoption by county

(a) Notwithstanding any other provision of law, any person who has been retired for service may be reemployed by the county or district from which he or she has been retired. Upon reemployment, the member's retirement allowance shall be discontinued. The retirement allowance may be reinstated upon the discontinuance of reemployment, as specified in this section.

(b)(1) For purposes of this section, "original period of employment" means the period of service with the county or district upon which the member's original retirement allowance was based.

(2) For purposes of this section, "period of reemployment" means the service subsequently rendered by the member after he or she has been reemployed by the county or district.

(c) During the period of reemployment, the member shall accrue retirement service credit at the same tier or benefit level which was applicable to the member during his or her original period of employment. The member's contribution rate shall be based on the same age at entry, and the same statutory formula, which was used in calculating the member's contribution rate during his or her original period of employment.

(d) Upon termination of the member's period of reemployment for other than death or disability, the member shall begin receiving a monthly service retirement allowance which is the sum of all of the following:

(1) The monthly retirement allowance the member had been receiving immediately prior to the time the member was reemployed by the county or district.

(2) Any cost-of-living increases that would have been added to the monthly retirement allowance if the member's allowance had not been discontinued by reason of reemployment.

(A) A retirement allowance based on the amount of service credit the member accrued during the period of reemployment. This additional retirement allowance shall be calculated using the same benefit formula and tier upon which the member's original retirement allowance was calculated, but shall be based on the member's age upon termination of the period of reemployment and the member's final compensation during that period.

(B) The retirement allowance otherwise payable under this section to a member whose allowance prior to reinstatement was paid pursuant to an election under Section 31810 shall be reduced as provided in that section. However, for a member reinstated pursuant to Section 31680.4 prior to attaining age 62, the reduction required by Section 31810 shall be the amount that is the actuarial value of the increase in the allowance from the date of retirement to the date of reinstatement.

(e) If, after reemployment pursuant to this section, the member becomes disabled and is granted a service-connected or non-service-connected disability retirement by the board, the member's disability retirement allowance shall be the greater of either of the following:

(1) The disability retirement allowance the member would have been entitled to receive if all of the member's service during his or her original period of employment and subsequent period of reemployment had been continuous.

(2) The service retirement allowance the member would have been entitled to receive if the member had not become disabled and had voluntarily terminated his or her period of reemployment.

(f)(1) If the member dies during his or her period of reemployment, and leaves an eligible survivor or survivors entitled to receive a survivor's allowance, the allowance shall be the same amount that it would have been if all of the member's service during his or her original period of employment and subsequent period of reemployment had been continuous. If a lump sum death benefit is payable to the member's designated beneficiary instead of a survivor's allowance, the member's accumulated retirement contributions for purposes of computing the death benefit shall be the sum of the contributions made by the member during the period of reemployment, plus interest credited thereon, and the excess, if any, of the member's total contributions during the original period of employment, including interest credited thereon, over the total amount of retirement benefits paid to the member between the member's original retirement from the county or district and the member's reemployment pursuant to this section.

(2) Upon or after service retirement, the continuance shall be paid upon the member's death to the respective elected beneficiaries from each of the separate retirement period elections.

(g) This section shall not apply to an employee who receives an additional retirement benefit as an inducement to retire early.

(h) This section shall not be operative in any county until the board of supervisors of that county, by resolution adopted by a majority vote, makes this section applicable in that county.

(Added by Stats. 1993, Ch. 291 (AB 2069), Sec. 1)

§31680.8. (Operative date contingent) Reemployment and reinstatement; Additional Retirement benefit; Applicability (Los Angeles)

(a) Notwithstanding any other provision of law, a safety member who was required to retire for service because of age during the operative dates of, and as described in, Section 31662.4, 31662.6, 31662.8, or 31663, may be reemployed by the county in the same position that he or she retired from and be reinstated to active membership upon all of the following:

(1) His or her application to the board for reinstatement to active membership.

(2) The determination of the board, based on medical advice, that the member is not incapacitated for the duties of the position assigned to him or her.

(b) The member shall be reinstated to active membership in the plan or tier that he or she retired from, effective the first day of the month following the date of reemployment, and his or her membership shall be the same as if unbroken by retirement. Notwithstanding any other provision of law, the credited service of the member rendered both before and after reinstatement shall be included for the purpose of determining the eligibility of the member for benefits under this chapter.

(c) Upon reemployment pursuant to this section, the retirement allowance of the member shall be cancelled. Upon the subsequent termination of the member from employment, the retirement allowance of the member shall be recalculated on the basis of the credited service rendered both before and after reinstatement pursuant to the formula applicable to the member prior to reinstatement. Notwithstanding any other provision of law, the reinstatement rights conferred by this section shall not entitle a person to a retirement right or benefit that exceeds the limitations in the Internal Revenue Code that apply to public retirement systems.

(d) Upon reinstatement pursuant to this section, the rate of contribution of the member shall be based on the same age at entry that was used in calculating the contribution rate of the member during his or her original period of employment.

(e) This section shall apply only to a county of the first class as described in Section 28020 and shall not become operative in that county until the board of supervisors, by resolution adopted by majority vote, makes this section operative in that county.

§31680.9. Retirement for service or disability; reinstatement required prior to employment; persons employed in violation of specified sections; employer employing retired member in violation of specified sections; fees for violations

(a) A person who has been retired under the retirement system, for service or for disability, may not be employed in any capacity thereafter by the county or a district of the retirement system unless the person has first been reinstated from retirement pursuant to this chapter, or unless the employment, without reinstatement, is authorized by this article or the Public Employees' Pension Reform Act of 2013. A retired person whose employment without reinstatement is authorized by this article or the Public Employees' Pension Reform Act shall acquire no service credit or retirement rights under this part with respect to the employment.

(b) Any retired member employed in violation of Section 31680.2, 31680.3, 31680.6, or 7522.56 shall do all of the following:

This actuarial determination shall be made only upon authorization by the board of supervisors.

(a) The board of supervisors of a county or the governing body of a district or other public entity may, by ordinance or resolution and with the agreement of the board of retirement, provide for the contribution of funds by the county, a district, or other public entity into a Post-Employment Benefits Trust Account. The retirement system may establish the Post-Employment Benefits Trust Account as a part of the retirement fund. The Post-Employment Benefits Trust Account shall be established for the sole purpose of funding the benefits provided under a post-employment group health, life, welfare, or other supplemental benefits plan or plans established and maintained by the county or district, which plan or plans may provide for self-insured coverage or the payment of all or a portion of the premiums on one or more insurance contracts or health care service plan contracts for retired employees of the participating county, district, or other public entity, and their qualified spouses, dependents and beneficiaries.

(b) Contributions to the Post-Employment Benefits Trust Account may include the proceeds of debt issued by the county, a district, or other public entity solely for the purpose of funding post-employment health, life, welfare, or other supplemental benefits.

(c) The post-employment benefits provided with the funds contributed to the Post-Employment Benefits Trust Account are in addition to any other benefits provided under this chapter.

(d)(1) Except as described in subdivision (b) of Section 31694.1, the assets of the retirement fund may not be used, directly or indirectly, to pay the cost of any benefits provided through the Post-Employment Benefits Trust Account or, except to the extent allowed by federal tax law, to pay any direct or indirect cost of administering the Post-Employment Benefits Trust Fund.

§31694.1. Funds accounted for separately in Post-employment Benefits Trust Account; Investment and administration of funds

(a) The retirement system shall separately account for the funds contributed to the Post-Employment Benefits Trust Account by each participating employer and the earnings and expenses related to the investment and administration of those funds.

(b) The board of retirement, or a board of investments in a county in which a board of investments has been established pursuant to Section 31520.2, shall have sole, exclusive, and plenary authority and fiduciary responsibility over the investment of the funds in the Post-Employment Benefits Trust Account, consistent with Sections 31594 and 31595, and as provided for in Section 17 of Article XVI of the California Constitution. The board of retirement or board of investments may invest funds in the Post-Employment Benefits Trust Account with those of the retirement system, to the extent allowed by federal tax laws. The investment earnings and investment expenses attributable to the investment activity of the Post-Employment Benefits Trust Account shall be accounted for separately from the investment earnings and expenses of the retirement fund.

(c) The funds in and investment earnings of the Post-Employment Benefits Trust Account shall be used to pay the reasonable costs related to investment expenses and administration of the Post-Employment Benefits Trust Account to the extent allowed by federal tax law. Those expenses shall not be deemed to be an investment or administrative expense of a retirement system under this chapter.

(d) The board of retirement, or a board of investments in a county in which a board of investments has been established pursuant to Section 31520.2, may establish rules and procedures governing the investments and administration of the Post-Employment Benefits Trust Account. (f) The board of retirement, or the board of retirement acting jointly with a board of investments in a county in which a board of investments has been established pursuant to Section 31520.2, and a participating employer in the Post-Employment Benefits Trust Account shall establish, by written agreement, the respective roles and responsibilities of the retirement system and the participating employer with respect to the administration and investment of the Post-Employment Benefits Trust Account, consistent with Section 17 of Article XVI of the California Constitution. That agreement shall include, but is not limited to, funding, distribution, expenditure, actuarial, accounting, and reporting considerations, and any applicable investment parameters. The board may, in its discretion, authorize an employer to transfer assets into or out of the Post-Employment Retirement Account, however, any transfer of assets shall comply with the terms of the contract between the employer and the board, satisfy requirements under applicable rules of the Governmental Accounting Standards Board, and satisfy the requirements of federal tax law. Once the investment parameters are established, the board of retirement, or a board of investments in a county in which a board of investments has been established pursuant to Section 31520.2, shall have sole control over the investment activity of the Post-Employment Benefits Trust Account as described in subdivision (b). Upon agreement and authorization of the board of retirement and the governing body of a participating employer, the retirement system may administer a post-employment health, life, welfare, or other supplemental benefit plan sponsored by the participating employer and funded through the Post-Employment Benefits Trust Account.

(g) In accordance with procedures established in the written agreement described in subdivision (f), the participating employer may elect to terminate participation in the Post-Employment Benefits Trust and instruct the retirement system to either (1) transfer the funds held in the Post-Employment Benefits Trust Account to a successor trustee named by the employer, or (2) disburse the trust assets in accordance with subdivision (i). In addition, the

board of retirement may terminate the participation of a participating employer in the Post-Employment Benefits Trust Account if either:

(2) The board of retirement elects to terminate the Post-Employment Benefits Trust Account.

(h) If the board of retirement terminates the participation of an employer in the Post-Employment Benefits Trust Account, as described in paragraph (1) or (2) of subdivision (g), the funds attributable to that employer shall remain in the Post-Employment Benefits Trust Account, for the continued payment of post-employment benefits for current and future participants and the costs of administration and investment.

(i) If the board of retirement elects to terminate the Post-Employment Benefits Trust Account, the retirement system shall disburse the funds in Post-Employment Benefits Trust Account in the following order and manner:

(1) The retirement system shall retain an amount sufficient to pay for the post-employment benefits for participants in the post-employment benefits plan or plans provided by the former participating employer.

(2) The retirement system shall retain an amount sufficient to pay reasonable administrative and investment costs described in this section.

(3) After the amounts in paragraphs (1) and (2) have been retained or disbursed, the retirement system shall pay any remaining funds to the former participating employer or employers.

(b) The board of retirement and, if applicable, the board of investments, may, with the agreement of the county or district, act as one or more of the following for that employer-established trust: trustee, third-party administrator, or investment manager. The board of retirement and, if applicable, the board of investments, may enter a trust agreement,

third-party administrative services agreement, investment manager agreement, or other appropriate agreement with the county or district, which shall establish the respective roles and responsibilities of the parties with respect to the administration and investment of the employer-established trust. That agreement shall provide for the manner and method of payment for the reasonable costs related to investment expenses for, and administration of, the employer-established trust. (Added by Stats. 2009, Ch. 326 (SB 11), Sec. 1)

§31699.3. Purpose (San Bernardino)

The purpose of this article is to allow the retirement system board to establish a postemployment health benefits fund for public agencies that would enable the agencies to do

all of the following:

(a) Combine for investment the assets that the agencies set aside to provide for retiree health benefits.

(b) Take advantage of economies of scale.

(c) Use existing investment expertise to reduce the cost of funding for retiree health benefits and increase the security of public retirees and their dependents in those benefits.

(Added by Stats. 2009, Ch. 326 (SB 11), Sec. 1)

§31699.4. Authority to establish postemployment health benefits fund for collective investment of assets (San Bernardino)

(a)(1) The retirement system board may establish, by resolution, a postemployment health benefits fund for the collective investment of assets held in trust solely for the exclusive benefit of providing health benefits to employees of any local public agency.

(2) The postemployment health benefits fund board shall be composed of the same members that compose the retirement system board. The postemployment health benefits fund board shall have the sole and exclusive responsibility and discretion for administration of the postemployment health benefits fund. However, the retirement system board may terminate the fund in its discretion at any time.

(b) The postemployment health benefits fund shall be established and administered to comply with the requirements of Governmental Accounting Standards Board Statements No. 43 and No. 45 (GASB 43 and 45) for assets held by the postemployment health benefits fund to be treated as plan assets, to the extent reasonably practicable.

(c) The assets in the postemployment health benefits fund shall be irrevocably held for the exclusive purposes of providing health benefits to employees of the participating public agencies, and to defray the reasonable expenses of administering the fund. The postemployment health benefits fund board may require that all assets transferred to it on behalf of a participating public agency be transferred from a trust fund that meets the requirements of GASB 43 and 45 for assets to be treated as plan assets, including that the assets of the trust fund be held for the exclusive purpose of providing health benefits to employees of a local public agency.

(d) The retirement system board shall determine, at its sole discretion, the form of the postemployment health benefits fund, which may be one or more trusts that are established under Section 115 of the Internal Revenue Code or any other form or forms chosen. The retirement system board may take any and all actions necessary or appropriate to implement the postemployment health benefits fund, including, but not limited to, establishing one or more joint powers authorities, partnerships, common trust funds, or other mechanisms in order to combine or commingle the assets held by the fund for investment purposes.

(e) A public agency, or the trustees of a trust fund that has transferred assets to the postemployment health benefits fund, may, in accordance with rules established by the postemployment health benefits fund board, direct that all or part of the assets allocated to the account of that agency or trust be transferred to another fund that is maintained by the agency that holds those assets solely for the exclusive purpose of providing health benefits to employees of the agency. Upon termination of the postemployment health benefits fund by the retirement system board, the postemployment health benefits fund board shall retain an amount sufficient to pay reasonable costs and expenses of operating and terminating the postemployment health benefits fund, and thereafter shall transfer any remaining assets allocated to the account of each participating public agency only to another fund maintained by the agency that holds those assets solely for the exclusive purpose of providing health benefits to employees of the agency. If a participating agency does not maintain a fund for that exclusive purpose, the postemployment health benefits fund board shall transfer the assets allocated to the public agency's account to a trust account maintained by a bank for the exclusive purpose of providing health benefits to employees of the agency. The bank shall

have net assets of at least five hundred million dollars (\$500,000,000). The postemployment health benefits fund board shall be reimbursed from the assets of the postemployment health benefits fund allocated to the public agency for all direct and indirect costs of establishing and transferring fund assets to a bank trust account.

(Added by Stats. 2009, Ch. 326 (SB 11), Sec. 1)

§31699.5. Fiduciary standards (San Bernardino)

The investment of the assets in the postemployment health benefits fund shall be subject to the fiduciary standards governing investments under Section 17 of Article XVI of the California Constitution, as those standards apply to the management of investments of the retirement system governed by the board, notwithstanding that assets in the postemployment health benefits fund will be used to provide retiree health benefits and not retirement allowances. Each public agency and trust fund, and each governing body and member thereof, that participates in the postemployment health benefits fund shall be conclusively determined to have accepted and approved the applicability of the investment standards set forth in this article.

(Added by Stats. 2009, Ch. 326 (SB 11), Sec. 1)

§31699.6. Investment authority; delegation of authority; investment pools (San Bernardino)

(a) The postemployment health benefits fund board shall determine the investments of the postemployment health benefits fund and may delegate this function to the extent consistent with its fiduciary responsibilities, including delegating this function to the retirement system board.

(b) The postemployment health benefits fund board may offer different investment pools to be chosen by the public agencies and their trust funds that participate in the postemployment health benefits fund.

(c) To the extent allowed by California law and federal law, including, but not limited to, federal tax and securities law, the postemployment health benefits fund board may invest the assets that it holds, and the retirement system board may invest the assets that it holds, in investment pools established under this article, and each of those boards may combine or commingle, for investment purposes only, the assets that it holds with the assets held by the other board. The postemployment health benefits fund board and the retirement system board may take any and all actions necessary or appropriate to implement that combination or commingling, including, but not limited to, unitizing the investments held for retirement purposes.

(d) The retirement system board may invest the assets that it holds for retirement purposes, and the postemployment health benefits fund board may invest the assets held in the postemployment health benefits fund in the same or similar investments by parallel investing rather than commingling the assets for investment.

(Added by Stats. 2009, Ch. 326 (SB 11), Sec. 1)

§31699.7. Terms and conditions for participating public agencies; separate accounting; authority over governance of fund (San Bernardino)

(a) The postemployment health benefits fund board shall establish the terms and conditions for a public agency and its trust fund to participate in the postemployment health benefits fund, including, but not limited to, eligibility to participate, amount of assets transferred to the fund, investments, withdrawal, transfer of assets to or from the fund, termination of participation, and reporting to the public agency.

(b) The postemployment health benefits fund board shall account separately for each public agency and its trust fund with respect to contributions, withdrawals, earnings, losses, fees paid to third-party vendors, expenses, and all other relevant items. Any expenses charged to the postemployment health benefits fund by the retirement system shall be reported at

least monthly by the postemployment health benefits board in its public records and shall be reported at least annually to each agency or trust that participates in the postemployment health benefits fund. The portion of the postemployment health benefits fund that is attributable to each public agency and its trust fund after the accounting, including each agency's and trust fund's allocated share of expenses as provided in this section, shall be used only for the exclusive benefit of the employees of that agency.

(c) The postemployment health benefits fund board shall, by resolution, establish all rules, regulations, or bylaws for the administration of the postemployment health benefits fund, including any revision that it deems appropriate, and shall have sole discretion to interpret those rules, regulations, or bylaws.

(Added by Stats. 2009, Ch. 326 (SB 11), Sec. 1)

§31699.8. Limitation of liability; obligations not changed or created; status as separate legal entity (San Bernardino)

(a) The sole function of the postemployment health benefits fund shall be to invest assets of participating public agencies and their trust funds that are held for the exclusive benefit of agency employees. The postemployment health benefits fund shall not have any liability for benefits that are provided by any agency or trust that transfers assets to the postemployment health benefits fund for investment. Additionally, the retirement system shall not have any liability for those benefits.

(b) The transfer of assets to or from the postemployment health benefits fund, and the investment of assets by that fund, shall not change the obligation of any agency for retiree health benefits, shall not create any obligations on the part of the retirement systems for retiree health benefits, and shall not create any obligation on the part of a postemployment health benefits fund for any pension or annuity benefits.

(c) The retirement system and the postemployment health benefits fund are separate legal entities, and they and their boards, board members, and staffs, are liable only for their own actions or failures to act. Any liability shall be determined in accordance with Chapter 1 (commencing with Section 900) and Chapter 2 (commencing with Section 910) of Part 3 of Division 3.6 of Title 1. Any of those claims or causes of action shall accrue in accordance with Division 3.6 (commencing with Section 810) of Title 1.

(Added by Stats. 2009, Ch. 326 (SB 11), Sec. 1)

§31699.9. Expenses of administration (San Bernardino)

(a) Expenses of administration of this article shall be allocated by the retirement system board, in its discretion and on a reasonable basis, among the postemployment health benefits fund, the retirement system, and the accounts of the public agencies and trust funds that participate in the postemployment health benefits fund.

(b) The establishment of the postemployment health benefits fund will enable the sharing of expenses of administration and investment, bringing economies of scale and better use of investment expertise to the retirement system. Consequently, the retirement system board may pay the startup and initial administrative expenses for the fund if the retirement system board determines that this expenditure is in the long-term best interests of the members and beneficiaries of the retirement system, and the employers that participate in that system. The board may also assess participating agencies and trusts for all or a portion of those expenses.

(Added by Stats. 2009, Ch. 326 (SB 11), Sec. 1)

§31699.10. Separate governance from retirement system; power and authority, fiduciary insurance (San Bernardino)

The postemployment health benefits fund board shall act as a separate governing board

of the postemployment health benefits fund, with separate rules, regulations, and bylaws, and shall meet separately from the meetings of the retirement system. The postemployment health benefits fund board shall have all of the power, authority, and ability to act on behalf of the postemployment health benefits fund that the retirement system board has with respect to the retirement system, including, but not limited to, the power to obtain fiduciary insurance.

(a) A member may be retired for disability upon the application of the member, the head of the office or department in which he is or was last employed, the board or its agents, or any other person on his behalf, except that an employer may not separate because of disability a member otherwise eligible to retire for disability but shall apply for disability retirement of any eligible member believed to be disabled, unless the member waives the right to retire for disability and elects to withdraw contributions or to permit contributions to remain in the fund with rights to service retirement as provided in Article 9 (commencing with Section 31700).

(b) When a member appeals from a separation for disability, disputing the employer's assertion or assumption that he is not eligible for disability retirement, the official, entity other than the board, or court to whom appealed shall transfer the proceedings to the board for determination of the eligibility and of disability if so eligible.

The appointing authority shall have the burden of proving disability. Thereafter, the appellant shall have the burden of proving job causation.

This subdivision shall not be operative in any county until such time as the board of supervisors shall, by resolution adopted by a majority vote, make the provisions applicable in that county.

(Amended by Stats. 1981, Ch. 1158, Sec. 1)

§31722. Time for application

The application shall be made while the member is in service, within four months after his or her discontinuance of service, within four months after the expiration of any period during which a presumption is extended beyond his or her discontinuance of service, or while, from the date of discontinuance of service to the time of the application, he or she is continuously physically or mentally incapacitated to perform his or her duties.

The board may require such proof, including a medical examination at the expense of the member, as it deems necessary or the board upon its own motion may order a medical examination to determine the existence of the disability.

(Added by Stats. 1947, Ch. 424, Sec. 1)

§31724. Action of board on proof of incapacity; time allowances become effective

If the proof received, including any medical examination, shows to the satisfaction of the board that the member is permanently incapacitated physically or mentally for the performance of his duties in the service, it shall retire him effective on the expiration date

of any leave of absence with compensation to which he shall become entitled under the provisions of Division 4 (commencing with Section 3201) of the Labor Code or effective on the occasion of the member's consent to retirement prior to the expiration of such leave of absence with compensation. His disability retirement allowance shall be effective as of the date such application is filed with the board, but not earlier than the day following the last day for which he received regular compensation. Notwithstanding any other provision of this article, the retirement of a member who has been granted or is entitled to sick leave shall not become effective until the expiration of such sick leave with compensation unless the member consents to his retirement at an earlier date.

When it has been demonstrated to the satisfaction of the board that the filing of the member's application was delayed by administrative oversight or by inability to ascertain the permanency of the member's incapacity until after the date following the day for which the member last received regular compensation, such date will be deemed to be the date the application was filed.

(Amended by Stats. 1974, Ch. 9, Sec. 2)

Permanent incapacity for the performance of duty shall in all cases be determined by the board.

If the medical examination and other available information do not show to the satisfaction of the board that the member is incapacitated physically or mentally for the performance of his duties in the service and the member's application is denied on this ground the board shall give notice of such denial to the employer. The employer may obtain judicial review of such action of the board by filing a petition for writ of mandate in accordance with the Code of Civil Procedure or by joining or intervening in such action filed by the member within 30 days of the mailing of such notice. If such petition is not filed or the court enters judgment denying the writ, whether on the petition of the employer or the member, and the employer has dismissed the member for disability the employer shall reinstate the member to his employment effective as of the day following the effective date of the dismissal.

(Amended by Stats. 1970, Ch. 1016, Sec. 1)

§31725.5. Change of position in lieu of disability retirement allowance members eligible to retire for nonservice-connected disability

If the board finds, on medical advice, that a member in county employment, although incapacitated for the performance of his duties, is capable of performing other duties in the service of the county, the member shall not be entitled to a disability retirement allowance if any competent authority in accordance with any applicable civil service or merit system procedures offers and he accepts a transfer, reassignment, or other change to a position with duties within his capacity to perform with his disability. If this new position returns to the member compensation less than that of the position from which he was disabled, the board, in lieu of a disability retirement allowance, shall pay him the difference in such compensation until the compensation of the new position equals or exceeds the compensation (including later changes) of the former position, but such amount shall not exceed the amount to which he would otherwise be entitled as a disability retirement allowance. Such payments in lieu of disability retirement allowance shall be considered as a charge against county advance reserve for current service.

If a new position cannot be arranged at the time of eligibility for disability retirement allowance, such disability retirement allowance to which the member is entitled under this article shall be paid until such time as a new position is available and accepted.

If a disability retirement allowance is paid and the member later accepts such a new

position, the period while on disability retirement shall not be considered as breaking the continuity of service and his rate of contributions shall be based on the same age as it was at the date of disability. The member's accumulated contributions shall be the same as at the date his disability retirement began less the amount charged to his accumulated normal contributions.

Nothing in this section shall be construed to require a member to accept reassignment or transfer in lieu of a disability retirement allowance.

The provisions of this section become effective in any county only when the board of supervisors adopts an ordinance providing for their implementation by the board of retirement which may include application to persons retired for disability before such effective date.

The provisions of this section shall only apply to members eligible to retire for nonservice-connected disability.

(Amended by Stats. 1980, Ch. 720, Sec. 5)

§31725.6. Member rehabilitation program; vocational evaluation; plan; disability retirement allowance and supplemental allowance

(a) When the board finds, based on medical advice, that a member in county service is incapacitated for the performance of the member's duties, the board shall determine, based upon that medical advice, whether the member is capable of performing other duties. If the board determines that a member, although incapacitated for the performance of the member's duties, is capable of performing other duties, the board shall inform the appropriate agency in county service of its findings and request that the agency immediately initiate a suitable rehabilitation program for the member pursuant to Section 139.5 of the Labor Code, whereby the member could become qualified for assignment to a position in county service consistent with the rehabilitation program.

(b) When the appropriate agency in county service receives such a request from the board, the agency shall immediately refer the member to a qualified rehabilitation representative for vocational evaluation. During the course of the evaluation, the rehabilitation representative shall consult with the appropriate agency in county service to determine what position, if any, in county service would be compatible with the member's aptitudes, interests, and abilities and whether rehabilitation services will enable the member to become qualified to perform the duties of the position.

(c) Upon completion of the vocational evaluation of the member, the rehabilitation representative shall develop a suitable rehabilitation plan and submit the plan for concurrence by the member and the appropriate agency in county service and, thereafter, the agency shall forward the plan to the Division of Industrial Accidents for approval pursuant to Section 139.5 of the Labor Code.

(d) Upon receipt of approval of the rehabilitation plan, the appropriate agency in county service shall notify the board that the agency is either proceeding to implement an approved rehabilitation plan that will qualify the member for a position in county service specified in the plan or is unable to provide a position in county service compatible with the approved rehabilitation plan.

(e) Upon commencement of service by the member in the position specified in the approved rehabilitation plan, the member shall not be paid the disability retirement allowance to which the member would otherwise be entitled during the entire period that the member remains in county service. However, if the compensation rate of the position specified in the approved rehabilitation plan is less than the compensation rate of the position for which the member was incapacitated, the board shall, in lieu of the disability retirement allowance, pay to the member a supplemental disability allowance in an amount equal to the difference between the compensation rate of the position for which the member was incapacitated, applicable on the date of the commencement of service by the member in the position specified in the approved rehabilitation plan, and the compensation rate of the position specified in the plan,

applicable on the same date. The supplemental disability allowance shall be adjusted annually to equal the difference between the current compensation rate of the position for which the member was incapacitated and the current compensation of the position specified in the approved rehabilitation plan. The supplemental disability allowance payments shall commence upon suspension of the disability retirement allowance and the amount of the payments shall not be greater than the disability retirement allowance to which the member would otherwise be entitled. Supplemental disability allowance payments made pursuant to this section shall be considered as a charge against the county advance reserve for current service, and all of these payments received by a member shall be considered as a part of the member's compensation within the meaning of Section 31460.

(f) From the time that the member is eligible to receive a disability retirement allowance until the appropriate agency is able to provide the position in county service specified in the approved rehabilitation plan, and the member has commenced service in that position, the disability retirement allowance to which the member is entitled under this article shall be paid. Upon commencement of service by the member in the position specified in the approved rehabilitation plan, the period during which the member was receiving disability retirement payments shall not be considered as breaking the continuity of the member's service, and the rate of the member's contributions shall continue to be based on the same age at entrance into the retirement system as the member's rates were based on prior to the date of the member's disability. The member's accumulated contributions shall not be reduced as a result of the member receiving the disability retirement payments, but shall be increased by the amount of interest that would have accrued had the member not been retired.

(g) Notwithstanding Section 31560, a member whose principal duties while serving in the position for which the member was incapacitated, consisted of activities defined in Section 31469.3 shall, upon commencement of service by the member in the position specified in the approved rehabilitation plan, continue to be considered as satisfying the requirements of Section 31560, notwithstanding the actual duties performed during the entire period that the member remains in county service.

(h) If, within one year from the date that the member has been eligible for a disability retirement allowance, the appropriate agency in county service has offered to the member, in writing, the position specified in the rehabilitation plan which had previously been concurred, in writing, by the member and approved by the Division of Industrial Accidents pursuant to Section 139.5 of the Labor Code, the member shall, within 30 days of receipt of the notice, report for duty at the location specified in the notice. If the member refuses to report for duty within the time specified, the appropriate agency in county service may apply to the board to have the member's allowance discontinued.

The board shall be authorized to discontinue the member's disability retirement allowance if based upon substantial evidence of the refusal of the member to report to work without reasonable cause. However, the board shall not be authorized to impair any other of the rights or retirement benefits to which the member would otherwise be entitled.

(i) This section shall apply only to members who were incapacitated for the performance of the member's duties prior to January 1, 2004, and who are eligible to retire for service-connected disability.

(Amended by Stats. 1992, Ch. 132, Sec. 2)

(Amended by Stats. 2004, Ch. 379 (AB 2982), Sec. 1, Effective August 30, 2004)

§31725.7. Service retirement allowance pending determination of entitlement

(a) Except as provided in subdivision (b), at any time after filing an application for disability retirement with the board, the member may, if eligible, apply for, and the board in its discretion may grant, a service retirement allowance pending the determination of their entitlement to disability retirement. If the member is found to be eligible for disability

retirement, appropriate adjustments shall be made in their retirement allowance retroactive to the effective date of their disability retirement as provided in Section 31724.

(b) Notwithstanding subdivision (a), this section shall also apply to a member retired for service who subsequently files an application for disability retirement with the board. If the member retired for service is found to be eligible for disability retirement, appropriate adjustments shall be made in their retirement allowance retroactive to the effective date of their disability retirement, as provided in Section 31724.

(c) This section shall not be construed to authorize a member to receive more than one type of retirement allowance for the same period of time nor to entitle any beneficiary to receive benefits that the beneficiary would not otherwise have been entitled to receive under the type of retirement that the member is finally determined to have been entitled. In the event a member retired for service is found not to be entitled to disability retirement, they shall not be entitled to return to their job as provided in Section 31725.

(d) If the retired member should die before a final determination is made concerning entitlement to disability retirement, the rights of the beneficiary shall be as selected by the member at the time of retirement for service. The optional or unmodified type of allowance selected by the member at the time of retirement for service shall also be binding as to the type of allowance the member receives if the member is awarded a disability retirement.

(e) Notwithstanding subdivision (d), if the retired member should die before a final determination is made concerning entitlement to disability retirement, the rights of the beneficiary may be as selected by the member at the time of retirement for service, or as if the member had selected an unmodified allowance. The optional or unmodified type of allowance selected by the member at the time of retirement for service shall not be binding as to the type of allowance the member receives if the member is awarded a disability retirement. A change to the optional or unmodified type of allowance shall be made only at the time a member is awarded a disability retirement and the change shall be retroactive to the service retirement date and benefits previously paid shall be adjusted. If a change to the optional or unmodified type of allowance is not made, the benefit shall be adjusted to reflect the differences in retirement benefits previously received. This subdivision shall only apply to members who retire on or after January 1, 1999.

(Amended by Stats. 2023, Ch. 159 (SB 885), Sec. 14)

§31725.8. Nonservice-connected disability retirement allowance to members applying for rehearing on service-connected disability claims; intervening death of member

If any applicant for service-connected disability retirement is found by the board to be permanently physically or mentally incapacitated for the performance of his duties but not because of injury or disease arising out of and in the course of his employment, he may apply for, and the board in its discretion may grant, a nonservice-connected disability retirement allowance while he is pursuing any rehearing before the board or judicial review concerning his right to service-connected disability retirement. If his disability is finally determined to have been service-connected, appropriate adjustments shall be made in his retirement allowance retroactive to the effective date of his disability retirement.

If any member dies after electing to receive nonservice-connected disability retirement and before the question of his entitlement to service-connected disability retirement is finally resolved, the rights of his beneficiary shall be those selected by the member at the time he elected to receive nonservice-connected disability retirement.

(Added by Stats. 1976, Ch. 1209, Sec. 1)

§31725.65. Reemployment plan for incapacitated members; Application to incapacitation on or after January 1, 2004

(a) When the board finds, based on medical advice, that a member in county service is incapacitated for the performance of the member's duties, the board shall determine, based upon that medical advice, whether the member may be capable of performing other duties. If the board determines that a member, although incapacitated for the performance of the member's duties, is capable of performing other duties, the board shall notify the appropriate agency in county service of its findings.

(b) When the appropriate agency in county service receives that notification from the board, the agency shall immediately inform the member of any vacant county positions that may be suitable for the member, consistent with his or her disability, and shall consult with the member in an effort to develop a reemployment plan that shall identify what position, if any, in county service would be compatible with the member's aptitudes, interests, and abilities.

(c) Upon approval by the member of the reemployment plan, the appropriate agency in county service shall notify the board that the agency is proceeding to implement the approved reemployment plan.

(d) Upon commencement of service by the member in the position specified in the approved reemployment plan, the member shall not be paid the disability retirement allowance to which the member would otherwise be entitled during the entire period that the member remains in county service.

However, if the compensation rate of the position specified in the approved reemployment plan is less than the compensation rate of the position for which the member was incapacitated, the board shall, in lieu of the disability retirement allowance, pay to the member a supplemental disability allowance in an amount equal to the difference between the compensation rate of the position for which the member was incapacitated, applicable on the date of the commencement of service by the member in the position specified in the approved reemployment plan, and the compensation rate of the position specified in the plan, applicable on the same date. The supplemental disability allowance shall be adjusted annually to equal the difference between the current compensation rate of the position for which the member was incapacitated and the current compensation of the position specified in the approved reemployment plan. The supplemental disability allowance payments shall commence upon suspension of the disability retirement allowance and the amount of the payments shall not be greater than the disability retirement allowance to which the member would otherwise be entitled. Supplemental disability allowance payments made pursuant to this section shall be considered as a charge against the county advance reserve for current service, and all of these payments received by a member shall be considered as a part of the member's compensation within the meaning of Section 31460.

(e) From the time that the member is eligible to receive a disability retirement allowance until the appropriate agency is able to provide the position in county service specified in the approved reemployment plan, and the member has commenced service in that position, the disability retirement allowance to which the member is entitled under this article shall be paid. Upon commencement of service by the member in the position specified in the approved reemployment plan, the period during which the member was receiving disability retirement payments shall not be considered as breaking the continuity of the member's service, and the rate of the member's contributions shall continue to be based on the same age at entrance into the retirement system on which the member's rates were based prior to the date of the member's disability. The member's accumulated contributions shall not be reduced as a result of the member receiving the disability retirement payments, but shall be increased by the amount of interest that would have accrued had the member not been retired.

(f) Notwithstanding Section 31560, a member whose principal duties, while serving in the position for which the member was incapacitated, consisted of activities defined in Section

31469.3 shall, upon commencement of service by the member in the position specified in the approved reemployment plan, continue to be considered as satisfying the requirements of Section 31560, notwithstanding the actual duties performed during the entire period that the member remains in county service.

(g) This section shall apply only to members who are incapacitated for the performance of the member's duties on or after January 1, 2004, and who are eligible to retire for service-connected disability.

In addition to the above disability allowance, 10 percent of the member's final compensation shall be paid on behalf of each of the member's children up to a maximum of three children.

§31760.1. Continuance of allowance to family of deceased member; minor children; designated beneficiary

Upon the death of any member after retirement for service or non-service-connected disability from a retirement system established in a county subject to the provisions of Section 31676.1, 60 percent of the member's retirement allowance, if not modified in accordance with one of the optional settlements specified in this article, shall be continued throughout life to the member's surviving spouse. If there is no surviving spouse entitled to an allowance hereunder

or if the surviving spouse dies before every natural or adopted child of the deceased member attains the age of 18 years, then the allowance which the surviving spouse would have received had the surviving spouse lived, shall be paid to the surviving spouse's natural or adopted child or children under that age collectively, to continue until every child dies or attains that age; provided, that no child shall receive any allowance after marrying or attaining the age of 18 years. No allowance, however, shall be paid under this section to a surviving spouse unless the surviving spouse was married to the member at least one year prior to the date of the member's retirement. The right of a child or children of a deceased member to receive an allowance under this section, in the absence of an eligible surviving spouse, shall not be dependent on whether the child or children were nominated by the deceased member as the beneficiary of any benefits payable upon or by reason of the member's death, and shall be superior to and shall supersede the rights and claims of any other beneficiary so nominated.

Notwithstanding any other provisions of this section, the benefits otherwise payable to the children of the member shall be paid to those children up to the 22nd birthdays of the children if the children remain unmarried and are regularly enrolled as full-time students in an accredited school as determined by the board.

If at the death of any retired member there is no surviving spouse or minor children eligible for the 60-percent continuance provided in this section, and the total retirement allowance income received by the member during the member's lifetime did not equal or exceed the member's accumulated normal contributions, the member's designated beneficiary shall be paid an amount equal to the excess of the member's accumulated normal contributions over the member's total retirement allowance income.

The superseding rights pursuant to this section shall not affect benefits payable to a named beneficiary as provided under Section 31789, 31789.01, 31789.1, 31789.12, 31789.13, 31789.2, 31789.3, 31789.5, or 31790.

(a) Notwithstanding Section 31481 or 31760.1, upon the death of any member after retirement for service or non-service-connected disability from a retirement system established in a county pursuant to this chapter, 60 percent of the member's retirement allowance, if not modified in accordance with one of the optional settlements specified in this article, shall be continued to the member's surviving spouse for life. If there is no surviving spouse entitled to an allowance under this section or if the surviving spouse dies before every child of the deceased member attains the age of 18 years, then the allowance that the surviving spouse would have received had the surviving spouse lived, shall be paid to the surviving spouse's child or children under that age collectively, to continue until each child dies or attains that age. However, no child may receive any allowance after marrying or attaining the age of 18 years.

(b) No allowance may be paid under this section to a surviving spouse unless the surviving spouse was married to the member at least two years prior to the date of death and has attained the age of 55 years on or prior to the date of death.

(c) Notwithstanding any other provisions of this section, the benefits otherwise payable to the children of the member shall be paid to the children up to the 22nd birthdays of the children if the children remain unmarried and are regularly enrolled as full-time students in an accredited school, as determined by the board.

(d) If at the death of any retired member there is no surviving spouse or minor children eligible for the 60-percent continuance provided in this section and the total retirement allowance income received by the retired member during the member's lifetime did not equal

or exceed the member's accumulated normal contributions, the retired member's designated beneficiary shall be paid an amount equal to the excess of the member's accumulated normal contributions over the member's total retirement allowance income.

(e) No allowance may be paid pursuant to this section to any person who is entitled to an allowance pursuant to Section 31760.1.

(f) The superseding rights pursuant to this section do not affect benefits payable to a named beneficiary as provided under Section 31789, 31789.01, 31789.1, 31789.12, 31789.13, 31789.2, 31789.3, 31789.5, or 31790.

(g) This section is not applicable in any county until the board of retirement, by resolution adopted by a majority vote, makes this section applicable in the county. §31760.3. Notice to spouse of member's selection of benefits or change of beneficiary; spouse's applications for refund, etc.; exceptions; adoption by county

The sole purpose of this section is to notify the current spouse of the selection of benefits or change of beneficiary made by a member. Nothing in this section is intended to conflict with community property law. An application for a refund of the member's accumulated contributions, an election of optional settlement, or a change in beneficiary designation shall contain the signature of the current spouse of the member, unless the member declares, in writing under penalty of perjury, any of the following:

(a) The member is not married.

(b) The current spouse has no identifiable community property interest in the benefit.

(c) The member does not know, and has taken all reasonable steps to determine, the whereabouts of the current spouse.

(d) The current spouse has been advised of the application and has refused to sign the written acknowledgment.

(e) The current spouse is incapable of executing the acknowledgment because of incapacitating mental or physical condition.

(f) The member and the current spouse have executed a marriage settlement agreement pursuant to Part 5 (commencing with Section 1500) of Division 4 of the family Code which makes the community property law inapplicable to the marriage.

This section shall not be operative in any county until such time as the board of supervisors shall, by resolution adopted by majority vote, make this section applicable in the county.

§31760.5. (Operative date contingent) Election of lesser pension amount and increased survivor allowance; Applicability

(a) Notwithstanding Section 31760 and in lieu of the retirement allowance and the continuing or survivor allowance, if any, otherwise payable to a retired member and his or her surviving spouse pursuant to this article, a member may elect in writing to have the actuarial equivalent of these benefits, as of the date of retirement, applied to a lesser amount payable throughout the retired member's life, and to an increased survivor allowance as approved by the board, upon the advice of the actuary, that, upon the death of the retired member, shall be continued throughout the life of and paid to his or her surviving spouse. To qualify for

benefits under this section, the surviving spouse must be married to the member at least one year prior to the date of retirement. If there is no surviving spouse entitled to this allowance, or if the surviving spouse dies before every child of the deceased retired member, including every stepchild and adopted child, attains the age of 18 years, then the increased survivor allowance that the spouse would have received had he or she survived shall be paid to the deceased retired member's child or children under the age of 18 years. If the increased survivor allowance is to be paid to surviving children, it shall be divided among the children in equal shares. However, the right of any child to share in the allowance shall cease upon his or her death, marriage, or attaining the age of 18 years.

(b) Notwithstanding any other provisions of this section, the allowance otherwise payable to the children of the deceased retired member shall be paid through the age of 21 years if the children remain unmarried and are regularly enrolled as full-time students in any accredited school as determined by the board.

(c) The election under this section may not, in the opinion of the board and the actuary, place any additional burden upon the retirement system. If a member elects to be subject to this section, the retirement allowance that would otherwise be payable to the member shall be reduced by the additional cost to the system resulting from the increased survivor allowance. The actuarial cost of the survivor allowance payable under this section shall be calculated taking into account the life expectancy of the member's surviving spouse.

(d) This section is only applicable to Los Angeles County and is not operative unless and until the board of supervisors of the county elects, by resolution adopted by a majority vote, to make this section operative in the county. This section applies only to those members who retire after the operative date of this section.

§31760.7. Retired member entitled to elect or change optional retirement allowance if specified criteria met

(2) At retirement, the member elected an unmodified retirement allowance or one of the optional settlements specified in this article naming his or her domestic partner as beneficiary.

(3) At the time of election under this section, the retired member and domestic partner are registered as domestic partners with the Secretary of State, and provide a copy of their Certificate of Registered Domestic Partnership to the retirement system.

(4) The retired member and domestic partner sign an affidavit under penalty of perjury stating that at least one year prior to the member's service retirement effective date or at the disability retirement date the member and partner would have qualified to be registered as domestic partners pursuant to Section 297 of the Family Code.

(b) The retirement system has no obligation to locate or otherwise contact retired members who may qualify for allowances under the terms of this section.

(c) Notwithstanding any other provision of this chapter, if a retired member elects to change his or her retirement election pursuant to this section, the member's allowance shall be adjusted prospectively only. The adjusted retirement allowance shall be effective on the first day of the month following receipt of the member's signed election. The member shall not be eligible to recover payment retroactively for any period between his or her retirement effective date and the date of election under this section.

(d) This section does not apply to members who are required to provide a continuing benefit to a former spouse pursuant to court order.

(e) The right of a member to make an election pursuant to this section shall expire on January 1, 2007.

§31760.8. Revision of designated beneficiary of an optional settlement; conditions

(a) Notwithstanding Section 31782, a retired member, in order to provide for his or her spouse, shall be entitled to revise the designated beneficiary of an optional settlement elected pursuant to Section 31762, 31763, or 31764 at the time of retirement, if all of the following criteria are satisfied:

(1) The member retired on or before the date the board made Section 31760.2, 31785.1, or 31786.1 applicable in the county.

(2) At retirement, the member was unmarried or had been married less than one year.

(3) The member's spouse is at least 55 years of age and is older than the originally designated beneficiary.

(4) The member's application satisfies the requirements described in subdivisions (b) and (c).

(b)(1) An application for a revision of an optional settlement pursuant to this section shall include the signature of the designated beneficiary of the optional settlement acknowledging the revision or shall include a written declaration of one or more of the following as may be applicable to the member:

(A) The beneficiary has no identifiable community property interest in the benefit.

(B) The member does not know, and has taken all reasonable steps to determine, the whereabouts of the beneficiary.

(C) The beneficiary has been advised of the application and has refused to sign the written acknowledgment.

(D) The beneficiary is incapable of executing the acknowledgment because of an incapacitating mental or physical condition.

(2) The purpose of this subdivision is to notify the beneficiary of the revision of an optional settlement made by a member that may affect the entitlement of the beneficiary.

(3) A person who knowingly provides false information in the written declaration submitted pursuant to paragraph (1) shall be subject to a civil penalty of not less than one thousand dollars (\$1,000) and not more than twenty-five thousand dollars (\$25,000), in addition to any civil remedies available to the board. An action to impose a civil penalty pursuant to this paragraph may be brought by any public prosecutor in the name of the people of the state.

(c) In addition to the requirements of subdivision (b), if the originally designated beneficiary of the optional settlement is a former spouse or domestic partner of the member, the application for revision of an optional settlement shall also evidence agreement to the revision by the former spouse or domestic partner.

(d) After revision, the member's retirement allowance shall remain the same as provided by the optional settlement, adjusted by any cost-of-living increases that have been added to the retirement allowance.

(e) The retirement system has no obligation to locate or otherwise contact retired members who may qualify for a revision under this section.

(f) No actions taken pursuant to this section excuse the obligation of a member to provide a continuing benefit to a former spouse or other person pursuant to court order.

(g) This section is not applicable in any county until the board of retirement, by resolution adopted by a majority vote, makes this section applicable in the county. The board's resolution may designate a date, which may be prior or subsequent to the date of the resolution, as of which the resolution and this section shall be operative in the county.

- (a) Under 18 years of age, or
- (b) Whether or over 18 years of age, totally disabled and such disability occurred prior to such child attaining the age of 18 years, or
- (c) Eighteen years of age or over, but has not attained the age of 22 years, and is enrolled as a full-time student in an accredited school, as determined by the board.

If, at the death of any retired member, there is no surviving spouse or children eligible for the continuance of the allowance provided in this section, and the total retirement allowance income received by the member during the member's lifetime did not exceed the member's accumulated normal contributions and cost-of-living contributions, the member's designated beneficiary shall be paid an amount equal to the excess of such contributions at retirement date over the total amount of the retirement allowance income received by the member.

The sum so paid shall not be included in the calculation of the annuity of the surviving spouse.

Notwithstanding Sections 31765 and 31765.1, upon the death of any member covered under Section 31751 who was either eligible for retirement or would have been entitled to disability retirement but died prior to such retirement and who leaves a spouse, such surviving spouse may, in lieu of the death benefit provided for in Article 12 (commencing with Section 31780), elect to receive a retirement allowance equal to 60 percent of the amount to which the member would have been entitled had the member retired on the date of death with a retirement allowance not modified in accordance with one of the optional settlements specified

§31770.3. Implementing ordinance required

(a) This article, or selected provisions of this article, shall become effective in any county or district only when the county board of supervisors or governing board of the district adopts an ordinance or resolution providing for that implementation. The board of supervisors or governing board may not adopt that ordinance or resolution, and this article, or selected portions of this article, may not become effective in the county or district unless and until the actuarial analysis described in Section 31770.4 has been completed and has determined that the program, as proposed to be adopted by the county or district, will be cost neutral and agreed to in a collective bargaining agreement.

(b) Based on the actuarial analysis, the requirement of cost neutrality, and the collective bargaining agreement, the county or district shall, in the implementing ordinance, elect one of the following for each bargaining unit other than a bargaining unit whose members are described in Section 31470.4:

(1) To be subject to the provisions of this article, including the forward DROP

provisions contained in Sections 31771 to 31776.5, inclusive, but excluding the actuarial equivalent DROP provisions contained in Section 31777 and excluding the backward DROP provisions contained in Sections 31778 to 31778.2, inclusive.

(2) To be subject to the provisions of this article, including the actuarial equivalent DROP provisions contained in Section 31777, but excluding the forward DROP provisions contained in Sections 31771 to 31776.5, inclusive, and excluding the backward DROP provisions contained in Sections 31778 to 31778.2, inclusive.

§31770.4. Actuarial analysis of cost neutrality

(a) The board shall, upon the request of, and before adoption of, the implementing ordinance by the county board of supervisors or governing board of the district, cause an actuarial analysis to be conducted to determine whether the program, as proposed to be adopted, will be cost neutral. A proposed program shall be deemed to be cost neutral if, based on the applicable actuarial assumptions, it will not have a significant negative financial impact on the members, employer, or the retirement system, as specified in subdivision (b).

(b) The actuarial analysis shall take into account the impact of the proposed program on specific measures, including, but not limited to, employer contributions, the system's actuarial accrued liability, and the present value of benefits. A proposed program will not be deemed to be cost neutral if there is any anticipated increase in any of these measures attributable to the implementation of the program or if there is a decrease in the present value of benefits of more than 3 percent attributable to the implementation of the program.

(c) The actuarial analysis shall identify all cost elements expected to change due to the implementation of the program and shall include the impact of those changes. These may include, but are not limited to, cost elements such as benefit payments, expected retirement age, and the likelihood of termination or disability by those near retirement age. The analysis may not take into account items unrelated to the proposed programs, including the investment return on fund assets or the life expectancy of currently retired members.

(1) "Actuarial accrued liability" means the portion of the present value of benefits attributable to service before the valuation date.

(2) "Present value of benefits" means the value, as of the valuation date, of all benefits expected to be paid to current members of the system.

(b) Members shall be eligible to elect to participate in the program at any time after the attainment of the minimum age and years of credited service in the system specified in the implementing ordinance. Members who satisfy the eligibility requirements on the implementation date of the program, as set forth in the implementing ordinance, shall be eligible to elect to participate in the program as of the operative date of the program.

(1) Sick leave and vacation time accrued by the member as of the election date may not be included in the calculation of service credit or final compensation for the retirement time where the member enters the program, except as otherwise provided in a collective bargaining agreement.

(2) The provisions of Article 15 (commencing with Section 31830) may not apply in the calculation of the participant's final compensation.

(d) If the surviving spouse elects to receive the "optional death allowance," and thereafter dies leaving an unmarried surviving child or unmarried children of the deceased member under the age of 18 years, the "optional death allowance" shall thereafter be paid to those surviving children collectively until each child dies, marries, or reaches the age of 18 years. The right of any child to the allowance shall cease upon the child's death or marriage, or upon reaching the age of 18 years, and the entire amount of the allowance shall thereafter be paid collectively to each of the other qualified children.

If, at the death of the spouse, the spouse is survived by one or more unmarried children of the member, under the age of 18 years, the retirement allowance shall continue to the child or children, collectively, until every child dies, marries, or attains the age of 18 years. The election made shall be binding and conclusive upon all parties in interest.

(f) The rights and privileges conferred by this section upon the surviving spouse and each child of the deceased member are not dependent upon whether any of those persons have been nominated by the deceased member as the beneficiary of any death benefits and shall supersede the rights and claims of any other beneficiary so nominated.

(g) Notwithstanding any other provision of this section, the benefits otherwise payable to each child of the member shall be paid to each child up to the 22nd birthday of the child if the child remains unmarried and is regularly enrolled as a full-time student in an accredited school as determined by the board.

§31800. Applicability; resolution of governing board; approval by eligible members; referendum

(a) Except as provided in subdivision (b), the provisions of this article shall be applicable to any member who is subject to the federal old age and survivors insurance provisions of the federal Social Security Act, when the governing board of the county or district in which the member is employed adopts by majority vote a resolution providing that this article shall be applicable to all members in such county or district who are subject to the federal system. §31800.1. San Mateo County; general or safety members; optional calculation of retirement allowance (San Mateo)

Notwithstanding any other provisions of law, the board of supervisors in a county of the 10th class as described by Sections 28031 may adopt, by majority vote, a resolution providing that:

(a) Any general member employed by the county or any district included within the

membership of the county retirement association shall have the option, at any time prior to retirement, of having his retirement allowance for service rendered after the date of his exercising this option calculated to equal the following:

(1) The fraction of one-ninetieth of the first one thousand fifty dollars (\$1,050) monthly of the member's final compensation set forth in the table appearing in Section 31676.1 in the column applicable to the member's age at retirement taken to the preceding completed quarter year multiplied by the number of years of creditable service as provided therein.

(2) The fraction of one-sixtieth of any remaining portion of the member's final compensation set forth in the table appearing in Section 31676.1 in the column applicable to the member's age at retirement taken to the preceding completed quarter year multiplied by the number of years of creditable service.

The retirement allowance payable for service rendered prior to the date of the member's election shall be computed in accordance with the provisions of Section 31676.1. The retirement allowance payable for service performed after the effective date of the member's election shall equal the total of paragraphs (1) and (2) of this subdivision.

Any member who elects to have his retirement allowance so calculated shall have the definition of "final compensation" in Section 31462 or Section 31462.2, whichever is applicable, applied at the date of retirement regardless of previous service under the provisions of Section 31462.1.

(b) Any safety member employed by the county or any district included within the membership of the county retirement association shall have the option, at any time prior to retirement, of having his retirement allowance for service rendered after the date of his exercising this option calculated to equal the following:

(1) The fraction of one seventy-fifth of the first one thousand fifty dollars (\$1,050) monthly of the member's final compensation set forth in the table appearing in Section 31664 in the column applicable to the member's age at retirement taken to the preceding completed quarter year multiplied by the number of years of creditable service as provided therein.

(2) The fraction of one-fiftieth of any remaining portion of the member's final compensation set forth in the table appearing in Section 31664 in the column applicable to the member's age at retirement taken to the preceding completed quarter year multiplied by the number of years of creditable service.

The retirement allowance payable for service rendered prior to the date of the safety member's election shall be computed in accordance with provisions of Section 31664. The retirement allowance payable for service performed after the effective date of the safety member's election shall equal the total of paragraphs (1) and (2) of this subdivision.

Any safety member who elects to have his retirement allowance so calculated shall have the definition of "final compensation" in Section 31462 or Section 31462.2, whichever is applicable, applied at the date of retirement regardless of previous service under the provisions of Section 31462.1.

(c) Before permitting a member to exercise the option authorized by this section, the board of supervisors shall provide that member with a written explanation of the effect on the member's retirement benefits and contributions of exercising that option. No member may rescind his action after exercising the option authorized in this section.

(d) Any member who elects deferred retirement after becoming subject to the provisions of this section shall receive a retirement allowance determined in accordance with subdivision (a) or subdivision (b) of this section.

(e) Any member who exercises the option authorized in this section shall continue to contribute as provided for in Article 6 (commencing with Section 31620) or Article 6.8

(f) Any member who exercises the option authorized in this section and who is also eligible and elects or has elected to receive credit in the retirement system for public service as provided in Section 31641.1 shall have the retirement allowance for such public service calculated as if he had not exercised the option authorized in this section.

(g) Any member who exercises the option authorized in this section and who is also eligible and elects to receive the benefits of Section 31641.5, 31652, or 31831.1 shall have the retirement allowance for that service calculated in accordance with subdivisions (a) or (b) of this section.

For the purposes of this section, all contributions, liabilities, actuarial interest rates, and other valuation factors shall be determined on the basis of actuarial assumptions and methods which, in the aggregate, are reasonable and which, in combination, offer the actuary's best estimate of anticipated experience under the system.

Any additional employer contributions required under this section shall be computed as a level percentage of member compensation. The additional contribution rate required at the time this section is adopted shall not be less than the sum of (1) the actuarial normal cost, plus (2) the additional contribution required to amortize the increase in accrued liability attributable to benefits elected under this section over a period of not more than 30 years from the date this section becomes effective in the public agency's contract.

§31800.5. Integration as to members employed by county or district; conversion to supplementation system

Whenever pursuant to the provisions of this article federal old age and survivors insurance provisions of the Social Security Act have been integrated as to members employed by a county or district, the relationship may be converted to a supplementation system under which the social security benefits shall be in addition to unintegrated retirement benefits. The conversion shall take place when the governing body of the county or district adopts by majority vote, a resolution providing that the conversion shall take place; provided, however, the resolution shall have received prior approval by majority affirmative vote of eligible members employed by the county or district in a referendum conducted in accordance with the provisions of Article 2 (commencing with Section 22300), Chapter 2, Part 4, Division 5 of Title 2 of this code. The conversion shall take place and become fully effective and operative on the date specified in the resolution.

§31801. Legislative intent; supersedure of inconsistent provisions; extension of federal system to policeman's and fireman's position

It is the intent of the Legislature that the enactment of this article shall authorize persons in positions covered by a retirement system pursuant to this chapter to participate in the federal old age and survivors insurance provisions of the Social Security Act without jeopardizing the continued maintenance of their local system.

To this end and notwithstanding any other provisions of this chapter, the provisions of this article, when made applicable by resolution of the governing board, shall supersede or modify any inconsistent provision in this chapter in its application to every member whose position is included in an agreement between the state and federal government for coverage under the old age and survivors insurance provisions of the Social Security Act.

The provisions of this chapter are not repealed by this article, however, and except as superseded or modified by this article in their application to members who are covered by old age and survivors insurance, they shall continue to be fully effective and operative.

§31870.4. Computation of accumulation established in Section 31870 to Section 31870.3; accumulation adjustment; operative effect

Notwithstanding any other provision of law, the accumulation established in Section 31870, 31870.1, 31870.2, or 31870.3 shall be computed by multiplying the existing accumulation from prior years by an amount equal to one plus the amount of any cost-of-living increase or decrease in the current year, and adding to this result the “accumulation adjustment,” where “accumulation adjustment” means the amount of any cost-of-living increase or decrease in the current year that is not met by the maximum annual change in allowances provided in Section 31870, 31870.1, 31870.2, or 31870.3, whichever is applicable. At no time may the accumulation established in Section 31870, 31870.1, 31870.2, or 31870.3 be less than zero.

This section shall not be operative in any county until it is adopted by a majority vote of the board of supervisors. §31870.11. Determination; increase or decrease by 60 percent of cost-of-living increase or decrease; three percent minimum increase (Los Angeles)

(a) The board of retirement shall, before April 1 of each year, determine whether there has been an increase or decrease in the cost-of-living as provided in this section. Notwithstanding Section 31481 or any other provision of this chapter, every retirement allowance, optional death allowance, or annual death allowance payable to or on account of any member, of this system or a superseded system, who retires or dies or who has retired or died shall, as of April 1st of each year, be increased or decreased to the nearest one-tenth of 1 percent, by 60 percent of the annual increase or decrease in the cost-of-living as of January 1st of each year as shown by the then current (year ending December) Bureau of Labor Statistics’ Consumer Price Index for All Urban Consumers for the United States City Average, except that no decrease shall reduce the allowance below the amount being received by the member or his or her beneficiary on the effective date of the allowance.

(b) The allowance shall be increased a minimum of 3 percent in any year in which the board’s determination of cost-of-living change of allowance would result in less, provided that the member or beneficiary has an accumulated unpaid cost-of-living account sufficient to provide the 3 percent increase.

(c) When this section becomes applicable in a county, the accumulated unpaid cost-of-living account of each retired member or beneficiary under the superseded Section 31870.1, shall be transferred to a like account under this section. Thereafter, no increases shall be made to such account.

(d) The board of retirement may adopt this section to be effective in lieu of Section 31870.1, provided, that no increase in unfunded actuarial liability nor in current member or employer contributions to the system are required as a result of the adoption and is so attested by an enrolled actuary. After adoption, the effective date for increases or decreases in allowances pursuant to this section shall be the next succeeding April 1.

(e) This section shall apply only in a county of the first class, as established by Sections 28020 and 28022, as amended by Chapter 1204 of the Statutes of 1971.

The board of supervisors by a majority vote may elect to pay part of the costs of the contributions which would otherwise be assessed to the individual members.

(a) Any cost-of-living contributions required for benefits under Section 31870.3 shall be shared equally between the county or district and the contributing members. The individual member’s contributions shall be based upon the member’s age at the member’s nearest birthday at time of entrance into the retirement system, and shall be expressed as a percentage of the member’s normal contribution rate. The board of supervisors by a majority vote may elect to pay all or part of the costs of the contributions which would otherwise be assessed to the individual members.

(b) Notwithstanding subdivision (a), pursuant to Section 7522.30, the board of supervisors shall not pay any part of the costs of the member contributions of new members as defined in subdivision (f) of Section 7522.04.

(c) Until revised by subsequent actuarial studies, the member’s cost-of-living contribution rate shall be 39.57 percent of the member’s normal contribution rate. §31874. Applicable date of article; use of surplus for cost-of-living adjustments

This article (commencing Section 31870) may be made applicable in any county on the date specified in the ordinance, or if no such date is specified, on the first day of the month after the effective date of an ordinance adopted by the board of supervisors to this effect, provided that an actuarial survey of the retirement system has been made by the adopting county prior to the passage of said ordinance. No provision of this chapter shall prevent or be construed to prevent the use and expenditure of surplus described in Section 31592.2 to fund any part or all of any increases in allowances otherwise permitted after this article or Article 16.6 (commencing with Section 31875) or both this article and Article 16.6 or any of the provisions of

this article or Article 16.6 have been made applicable.

Except in a county of the first class, upon adoption by a county providing increases in allowances pursuant to this article, of Article 5.5 (commencing with Section 31510) of this chapter, only that portion of the increases in allowances which is paid from surplus earnings described in Section 31592.2 shall be paid, instead, from the Supplemental Retiree Benefits Reserve established pursuant to Section 31510.8.

(Amended by Stats. 1983, Ch. 886, Sec. 10)

§31874.1. Determination; application of excess over three percent to allowances

Whenever the percentage of annual increase in the cost-of-living as of January 1st of each year as shown by the Bureau of Labor Statistics Consumer Price Index for All Urban Consumers exceeds 3 percent, all or part of such excess over 3 percent shall be applied to the retirement allowances, optional death allowances or annual death allowances increased in Section 31870 or 31870.1. The board of supervisors shall determine the amount of such excess to be applied, and the cost of the increases in allowances provided shall be paid from county and district contributions.

This section shall not be operative in any county until it is adopted by a majority vote of the board of supervisors.

(Amended by Stats. 1978, Ch. 900, Sec. 13)

§31874.2. Determination; maximum annual change; ordinance

The board of supervisors in any county, by a majority vote, may enact an ordinance providing that the maximum annual change pursuant to this article shall be increased to 4, 5, or 6 percent, as determined by the board, on the operative date of such ordinance.

(Added by Stats. 1974, Ch. 343, Sec. 1)

§31874.3. Determination; application of excess to allowances; effect on subsequent increases

(a)(1) Whenever the percentage of annual increase in the cost of living as of January 1 of each year as shown by the Bureau of Labor Statistics Consumer Price Index for All Urban Consumers exceeds the maximum benefit increase provided in Section 31870, 31870.1, 31870.2, or 31870.3, whichever is applicable, the board of retirement may provide that all or part of the excess percentage increase shall be applied to the retirement allowances, optional death allowances, or annual death allowances increased in Section 31870, 31870.1, 31870.2, or 31870.3. The board shall determine the amount of the excess to be applied, which amount shall not exceed an amount that can be paid from earnings of the retirement fund that are in excess of the total interest credited to contributions and reserves plus 1 percent of the total assets of the retirement fund.

(2) The supplemental increases in excess of the increases applied to the retirement allowances, optional death allowances, or annual death allowances pursuant to Section 31870, 31870.1, 31870.2, or 31870.3 shall not become a part of the retirement allowances, optional death allowances, or annual death allowances to be increased by subsequent increases under Section 31870, 31870.1, 31870.2, or 31870.3.

(3) This subdivision shall be operative in any county that has elected by a majority vote of the board of supervisors to make either Section 31870, 31870.1, 31870.2, or 31870.3 applicable in that county.

(b)(1) The board of retirement may, instead of taking action pursuant to subdivision (a), provide supplemental cost-of-living increases, effective on a date to be determined by the board, to the retirement allowances, optional death allowances, or annual death allowances increased in Section 31870, 31870.1, 31870.2, or 31870.3; provided however, that only those

members shall be eligible for this increase whose accumulations established by Section 31870, 31870.1, 31870.2, or 31870.3 shall equal or exceed 20 percent as of January 1 of the year in which the board of retirement adopts an increase under this subdivision.

(2) The supplemental increases to the retirement allowances, optional death allowances or annual death allowances increased in Section 31870, 31870.1, 31870.2, or 31870.3 shall not become a part of the retirement allowances, optional death allowances or annual death allowances to be increased by subsequent increases under Section 31870, 31870.1, 31870.2, or 31870.3.

(3) This subdivision shall be operative in any county that has elected by a majority vote of the board of supervisors to make either Section 31870, 31870.1, 31870.2, or 31870.3 applicable in that county.

(c)(1) The board of retirement may, instead of taking action pursuant to subdivision (a) or (b), provide supplemental cost-of-living increases, on a prefunded basis and effective on a date to be determined by the board, to the retirement allowances, optional death allowances, or annual death allowances increased in Section 31870, 31870.1, 31870.2, or 31870.3; provided however, only those members shall be eligible for this increase whose accumulations established by Section 31870, 31870.1, 31870.2, or 31870.3 equal or exceed 20 percent as of January 1 of the year in which the board of retirement takes action pursuant to this subdivision.

(2) The supplemental increases to the retirement allowances, optional death allowances, or annual death allowances increased in Section 31870, 31870.1, 31870.2, or 31870.3 shall become a part of the retirement allowances, optional death allowances, or annual death allowances and shall serve to reduce the accumulations established by Section 31870, 31870.1, 31870.2, or 31870.3, as applicable, by the same percentage as the payment that is made pursuant to this Section.

(3) Before the board of retirement provides benefits pursuant to this subdivision, the costs of the benefits shall be determined by a qualified actuary and the board of retirement shall, with the advice of the actuary, provide for the full funding of the benefits utilizing funds in the reserve against deficiencies established pursuant to Section 31592.2, using surplus earnings that exceed 1 percent of the total assets of the retirement system.

(4) This subdivision shall be operative in any county that has elected by a majority vote of the board of supervisors to make either Section 31870, 31870.1, 31870.2, or 31870.3 applicable in that county.

(d) Upon adoption by any county providing benefits pursuant to this section, of Article 5.5 (commencing with Section 31610) of this chapter, the board of retirement shall, instead, pay those benefits from the Supplemental Retiree Benefit Reserve established pursuant to Section 31618.

§31874.4. Accumulation of unused increases or decreases for future years; applicability (San Mateo)

Notwithstanding any other provision of law, the board of supervisors in a county of the 10th class may provide in any ordinance implementing any section in this article that the provision of this article requiring unused increases or decreases in any year to be accumulated for future years shall not apply to those employees and officials specified in the ordinance.

(Added by Stats. 1992, Ch. 707, Sec. 5, Effective September 15, 1992)

§31874.5. Additional cost-of-living adjustments

(a) Whenever the percentage of annual increase in the cost of living as of January 1 of each year as shown by the Bureau of Labor Statistics Consumer Price Index for All Urban Consumers exceeds a full 3 percent of the existing cost-of-living increase factor provided by any provision of this article, an additional 1 percent of the excess for each full 3 percent over the existing increase factor shall be applied to the retirement allowances, optional death allowances, or annual death allowances increased by any provision of this article. The increases in allowances resulting from the adoption of this section shall be used to offset any accumulated carryover balances under existing cost-of-living adjustments. The cost of implementing this section shall be prefunded commencing with the adoption of this section by the board of supervisors. The method of paying the cost of implementing this section may be mutually agreed to in a memorandum of understanding executed by the employer and employee representatives. The board of retirement shall conduct the actuarial studies to determine those costs.

(b) This section shall not be operative in any county until it is adopted by a majority vote of the board of supervisors.

(c) Notwithstanding subdivision (a), a memorandum of understanding regarding the application of the contributions of new members, as defined in subdivision (f) of Section 7522.04, towards paying the cost of the additional cost-of-living adjustment shall not conflict with the requirements of Section 7522.30 or as may be agreed to in accordance with Sections 7522.30 and 31631.

§31874.6. Cost-of-living adjustments (Sonoma, Imperial)

(a) Notwithstanding any other provision of law, on an annual basis, the board of retirement may, with the approval of the county board of supervisors, grant a cost-of-living adjustment on a prefunded basis to the retirement allowances, optional death allowances, or annual death allowances payable to or on account of eligible members. The action by the board of retirement may specify a date as of which the adjustment shall be effective and, if no effective date is specified, the adjustment shall be made in allowances payable for the time commencing on the first day of the month following the action by the board of retirement or approval by the county board of supervisors, whichever is later.

(b) Before the board of retirement may grant an adjustment pursuant to this section, the total costs of the adjustment shall be determined by a qualified actuary and the board shall determine, with the advice of the actuary, that full funding of the adjustment can be provided from earnings of the retirement fund that are in excess of the total interest credited to contributions and reserves plus 1 percent of the total assets of the retirement fund.

(c) The adjustment provided by this section shall be payable only to those retired members, survivors, beneficiaries, or successors in interest whose accumulated loss of purchasing power equals or exceeds 20 percent as of January 1 of the year the board of retirement takes action pursuant to this section. Loss of purchasing power shall be determined by the board of retirement based on the difference between the following:

(1) The initial retirement allowance, optional death allowance, or annual death allowance as it would have been increased by the cumulative total effect of the annual changes, rounded to the nearest one-half of 1 percent, in the Consumer Price Index for All Urban Consumers for the area in which the county seat is situated.

(2) The retirement allowance, optional death allowance, or annual death allowance as actually increased by cost-of-living adjustments previously granted with respect to the

allowance.

(d) A cost-of-living adjustment granted pursuant to this section shall become part of the retirement allowance, optional death allowance, or annual death allowance to be increased by any subsequent cost-of-living adjustments. The granting of an increase pursuant to this section in any particular year does not create any continuing entitlement to additional increases in subsequent years, and does not create any claim by a retired member, survivor, beneficiary, or successor in interest against the county, district, or retirement fund for any increase in any allowance paid or payable prior to the effective date of the action by the board of retirement pursuant to this section.

(e) This section shall only be applicable in the following counties:

(1) A county of the 19th class, as defined by Sections 28020 and 28040, as amended by Chapter 1204 of the Statutes of 1971.

(2) A county of the 32nd class, as defined by Sections 28020 and 28053, as amended by Chapter 1204 of the Statutes of 1971.

(Chapter 3.9 added as “Internal Revenue Code County Compliance and Optional Replacement Benefits Program” by Stats. 1990, Ch. 797 (SB 2327), Sec. 3, Effective September 13, 1990, was amended by Stats. 2003, Ch. 520 (AB 1585), Sec. 7, to read as now appearing)

§31899. Purpose

(a) The purpose of this chapter is to ensure the federal tax-exempt status of the county employees’ retirement systems, to preserve the deferred treatment of federal income tax on public employer contributions to public employee pensions, and to ensure that members are provided with retirement and other related benefits that are commensurate, to the extent deemed reasonable, with the services rendered without violating the intent and purposes of Section 415 of the Internal Revenue Code.

(b) To achieve this purpose, this chapter incorporates certain pension payment limitations and elects the “grandfather” option in Section 415(b)(10) of the Internal Revenue Code. Also, this chapter provides for certain replacement benefits.

(c) On or after January 1, 2013, the application of this chapter is limited as specified in Section 7522.43.

(Added by Stats. 1990, Ch. 797 (SB 2327), Sec. 3, Effective September 13, 1990)

(Amended by Stats. 2013, Ch. 247 (AB 1380), Sec. 50)

§31899.1. Definitions

(a) The definitions in Chapter 3 (commencing with Section 31450) of this part shall apply to this chapter.

(b) The term “Internal Revenue Code” includes all regulations, revenue rulings, notices, and revenue procedures issued by the Internal Revenue Service.

(Added by Stats. 1990, Ch. 797 (SB 2327), Sec. 3, Effective September 13, 1990)

(Amended by Stats. 2003, Ch. 520 (AB 1585), Sec. 9)

§31899.2. First time members on or after January 1, 1990; payment limitations; grandfather election; counties of first class; application

(a) In accordance with Section 31899.3, the retirement benefits for any person who for the first time became a member of the system on or after January 1, 1990, shall be subject to the payment limitations of Section 415 of the Internal Revenue Code. The retirement benefits for any person who became a member of the system before January 1, 1990, also shall be subject to the payment limitations of Section 415 of the Internal Revenue Code to the extent that those benefits are not exempt from those limitations under the “grandfather” election that has been made under that section and this section.

(b) The “grandfather” election in Section 415(b)(10) of the Internal Revenue Code is

hereby made. All members of a retirement system who joined the system prior to January 1, 1990, are exempt from the Section 415 limits to the extent permitted by the Internal Revenue Code.

(c) This section does not apply in a county of the first class as defined in Section 28020, as amended by Chapter 1204 of the Statutes of 1971, and Section 28022, as amended by Chapter 43 of the Statutes of 1961, which county is instead subject to Article 2.1 (commencing with Section 31510) of Chapter 3.

(Added by Stats. 1990, Ch. 797 (SB 2327), Sec. 3, Effective September 13, 1990)

(Amended by Stats. 2003, Ch. 520 (AB 1585), Sec. 10)

§31899.3. Impact of I.R.C. upon retirement rights; notice to employers; counties of first class

(a) Notwithstanding any other provision of law, the retirement rights conferred by this chapter and by Chapter 3 (commencing with Section 31450) of this part upon any person who for the first time becomes a member of a retirement system on or after January 1, 1990, shall be subject to the limitations in the Internal Revenue Code upon benefits that may be paid by public retirement systems. That person may not have any retirement right or benefit that exceeds those limitations, and no retirement right or benefit may accrue to or vest in that person under Chapter 3 (commencing with Section 31450) that exceeds those limitations. That person may, however, have retirement rights and benefits under the replacement benefits program established under this chapter.

(b) Each retirement board shall provide to each employer a notice of the content and effect of subdivision (a) for distribution, prior to employment, to each person who may become a member and to each person who for the first time becomes a member on or after January 1, 1990.

(c) Chapter 3 (commencing with Section 31450) shall be construed as if it included this section.

(d) This section does not apply in a county of the first class as defined in Section 28020, as amended by Chapter 1204 of the Statutes of 1971, and Section 28022, as amended by Chapter 43 of the Statutes of 1961, which county is instead subject to Article 2.1 (commencing with Section 31510) of Chapter 3.

(Renumbered Section 31899.3 and amended by Stats. 2003, Ch. 520 (AB 1585), Sec. 11)

§31899.4. Replacement benefits program

(a) Each county and district shall provide a program to replace the benefits that are limited by Section 415 of the Internal Revenue Code for members whose retirement benefits are limited by Section 415 and cannot be fully maximized pursuant to Section 31538. The replacement benefits program shall provide benefits that, together with the benefits provided by the retirement system, are the same as, and may not exceed, the benefits that would be paid by the retirement system but for the application of the limits of Section 415.

Notwithstanding the foregoing, the county or district may modify its replacement benefits program and may add, modify, or eliminate any replacement benefits, as necessary, to carry out the purpose of this chapter. A replacement benefit may not be reduced if the reduction would impair the vested rights of any person.

(b) Each county shall establish and administer its own replacement benefits program for members whose retirement benefits are limited by Section 415 of the Internal Revenue Code.

(c) A county may, pursuant to a contract with a district, agree to administer the district's replacement benefits program for the district's members whose retirement benefits are limited by Section 415 of the Internal Revenue Code. The county may charge each district a reasonable fee for administering the district's program and the county and district may agree on any other conditions relating to that administration. If a district does not contract with the county to administer its replacement benefits program, it shall establish and administer its own replacement benefits program.

(d) Upon the recommendation of the retirement system's actuary, and in accordance with its obligation to recommend county and district contribution rates under Sections 31453 and 31453.5, the board shall adjust the contributions required to be made by a county or district to the extent that benefits are payable under a replacement benefits program of that county or district.

(e) The county, and any district that establishes and administers its own program, shall enact an ordinance or prescribe regulations or other written documentation setting forth the terms of its replacement benefits program.

(f) Notwithstanding any other provision of this chapter, a county of the first class, as defined in Section 28020, as amended by Chapter 1204 of the Statutes of 1971, and Section 28022, as amended by Chapter 43 of the Statutes of 1961, is not required to provide replacement benefits to any member under this section if that member participates in General Plan F or Safety Plan F under Article 2.1 (commencing with Section 31510) of Chapter 3.

(Added by Stats. 2003, Ch. 520 (AB 1585), Sec. 12)

§31899.5. Administration of replacement benefits program

Each county, and each district that establishes its own replacement benefits program, shall administer the replacement benefits program established by it pursuant to this chapter. The board may, pursuant to an agreement with the county or the district that establishes its own program, assist in the administration of the replacement benefits program to the extent permitted under the Internal Revenue Code.

(Added by Stats. 2003, Ch. 520 (AB 1585), Sec. 14)

§31899.6. Nonconformity with I.R.C. Sec. 415; inoperative effect on chapter

If the Internal Revenue Service determines that any provision of Chapter 3 (commencing with Section 31450) of this part or this chapter cannot be given effect without placing a retirement system administered under this chapter or Chapter 3 (commencing with Section 31450) of this part out of conformity with Section 415 of the Internal Revenue Code, that provision, only to the extent that it causes that nonconformity and only with respect to the affected parties shall become inoperative with respect to the payment of benefits pursuant to Chapter 3 (commencing with Section 31450) of this part, as of the effective date of the determination. The retirement board shall notify the Secretary of State of inoperation under this section.

(Formerly Section 31899.7, added by Stats. 1990, Ch. 797 (SB 2327), Sec. 3, Effective September 13, 1990)

(Renumbered Section 31899.6 and amended by Stats. 2003, Ch. 520 (AB 1585), Sec. 16)

§31899.7. Exclusion of public retirement systems; invalidation of application of I.R.C. Sec. 415; inoperation of chapter; action by retirement board

(a) If Section 415 of the Internal Revenue Code is amended to exclude public retirement systems, or if the application of Section 415 of the Internal Revenue Code to public retirement

systems is invalidated by the final decision of an appellate court of proper jurisdiction, all sections of this chapter, except this section, shall become inoperative as of the effective date of that amendment or decision. The retirement board shall immediately notify the Secretary of State whenever any provision of this chapter becomes inoperative pursuant to this section.

(b) Whenever all sections of this chapter, except this section, become inoperative pursuant to this section, and to the extent not prohibited by the Internal Revenue Code, the retirement board, county, and districts shall do all of the following:

(1) Remove the pension limitations imposed by Section 415 of the Internal Revenue Code for prospective payments to annuitants.

(2) Eliminate the replacement benefits, and pay benefits that are due under the system to the affected annuitants without regard to any limitations of Section 415 of the Internal Revenue Code.

(3) Take any and all other actions they deem necessary and feasible.

(Formerly Section 31899.8, added by Stats. 1990, Ch. 797 (SB 2327), Sec. 3, Effective September 13, 1990)

(Renumbered Section 31899.7 and amended by Stats. 2003, Ch. 520 (AB 1585), Sec. 17)

§31899.8. Legislative intent; compliance with I.R.C.; legislative findings and declarations; costs

It is the sole intent of the Legislature, in enacting this chapter, to fully comply with the provisions of the Internal Revenue Code that apply to public retirement systems in order to maintain and ensure the federal income tax exempt status of the county employees' retirement systems, to elect the "grandfather" option in Section 415(b)(10) of the Internal Revenue Code, and to require that each county and district provide benefits that replace the benefits that are limited by Section 415 of the Internal Revenue Code for affected members of the county employees' retirement systems.

The Legislature finds and declares that all costs of local public agencies and local public retirement systems of complying with Section 415 of the Internal Revenue Code are a federal mandate within the meaning of Section 6 of Article XIII B of the California Constitution and Part 7 (commencing with Section 17500) of Division 4 of Title 2, as construed in *City of Sacramento v. State of California* (50 Cal. 3d 51).

It is the intent of the Legislature that this chapter not be construed to impose upon local public agencies that are maintaining county retirement systems pursuant to Chapter 3 (commencing with Section 31450) of this part, state-reimbursable, state-mandated local program benefit costs within the meaning of Section 6 of Article XIII B of the California Constitution and Part 7 (commencing with Section 17500) of Division 4 of Title 2.

If either the Commission on State Mandates or a court determines that this chapter imposes upon any local agency, state-mandated local program benefit costs, notwithstanding any other provision of law, no reimbursement therefor shall be made from the State Mandates Claims Fund pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 or from any other state fund.

(Formerly Section 31899.9, added by Stats. 1990, Ch. 797 (SB 2327), Sec. 3, Effective September 13, 1990)

(Renumbered Section 31899.8 and amended by Stats. 2003, Ch. 520 (AB 1585), Sec. 18)

§31899.9. Amendment of chapter; reservation of power; memorandums of understanding

The Legislature reserves the power and right to amend this chapter, as needed to effect its purposes. This chapter shall be controlling over any memorandum of understanding

reached between employers and employees pursuant to Chapter 10 (commencing with Section 3500) of Division 4 of Title 1.

**CALIFORNIA PUBLIC EMPLOYEES' PENSION REFORM
ACT OF 2013**
Sections 7522-7522.74

§7522. Short title

This article shall be known as the California Public Employees' Pension Reform Act of 2013.

(Added by Stats. 2012, Ch. 296 (AB 340), Sec. 15)

§7522.02. Construction and application of article

(a)(1) Notwithstanding any other law, except as provided in this article, on and after January 1, 2013, this article shall apply to all state and local public retirement systems and to their participating employers, including the Public Employees' Retirement System, the State Teachers' Retirement System, the Legislators' Retirement System, the Judges' Retirement System, the Judges' Retirement System II, county and district retirement systems created pursuant to the County Employees Retirement Law of 1937 (Chapter 3 (commencing with Section 31450) of Part 3 of Division 4 of Title 3), independent public retirement systems, and to individual retirement plans offered by public employers. However, this article shall be subject to the Internal Revenue Code and Section 17 of Article XVI of the California Constitution. The administration of the requirements of this article shall comply with applicable provisions of the Internal Revenue Code and the Revenue and Taxation Code.

(2) Notwithstanding paragraph (1), this article shall not apply to the entities described in Section 9 of Article IX of, and Sections 4 and 5 of Article XI of, the California Constitution, except to the extent that these entities continue to be participating employers in any retirement system governed by state statute. Accordingly, any retirement plan approved before January 1, 2013, by the voters of any entity excluded from coverage by this section shall not be affected by this article.

(3)(A) Notwithstanding paragraph (1), this article shall not apply to a public employee whose interests are protected under Section 5333(b) of Title 49 of the United States Code until a federal district court rules that the United States Secretary of Labor, or their designee, erred in determining that the application of this article precludes certification under that section, or until January 1, 2016, whichever is sooner.

(B) If a federal district court upholds the determination of the United States Secretary of Labor, or their designee, that application of this article precludes them from providing a certification under Section 5333(b) of Title 49 of the United States Code, this article shall not apply to a public employee specified in subparagraph (A).

(4) Notwithstanding paragraph (1), this article shall not apply to a multiemployer plan authorized by Section 302(c)(5) of the federal Taft-Hartley Act (29 U.S.C. Sec. 186(c)(5)) if the public employer began participation in that plan prior to January 1, 2013, and the plan is regulated by the federal Employee Retirement Income Security Act of 1974 (29 U.S.C. Sec. 1001 et seq.).

(b) The benefit plan required by this article shall apply to public employees who are new members as defined in Section 7522.04.

(c)(1) Individuals who were employed by any public employer before January 1, 2013, and who became employed by a subsequent public employer for the first time on or after January 1, 2013, shall be subject to the retirement plan that would have been available to employees of the subsequent employer who were first employed by the subsequent employer

on or before December 31, 2012, if the individual was subject to concurrent membership for which creditable service was performed in the previous six months or reciprocity established under any of the following provisions:

(A) Article 5 (commencing with Section 20350) of Chapter 3 of Part 3 of Division 5 of Title 2.

(B) Chapter 3 (commencing with Section 31450) of Part 3 of Division 4 of Title 3.

(C) Any agreement between public retirement systems to provide reciprocity to members of the systems.

(D) Section 22115.2 of the Education Code.

(2) An individual who was employed before January 1, 2013, and who, without a separation from employment, changed employment positions and became subject to a different defined benefit plan in a different public retirement system offered by their employer shall be subject to that defined benefit plan as it would have been available to employees who were first employed on or before December 31, 2012.

(d) If a public employer, before January 1, 2013, offers a defined benefit pension plan that provides a defined benefit formula with a lower benefit factor at normal retirement age and results in a lower normal cost than the defined benefit formula required by this article, that employer may continue to offer that defined benefit formula instead of the defined benefit formula required by this article, and shall not be subject to the requirements of Section 7522.10 for pensionable compensation subject to that formula. However, if the employer adopts a new defined benefit formula on or after January 1, 2013, that formula must conform to the requirements of this article or must be determined and certified by the retirement system's chief actuary and the retirement board to have no greater risk and no greater cost to the employer than the defined benefit formula required by this article and must be approved by the Legislature. New members of the defined benefit plan may only participate in the lower cost defined benefit formula that was in place before January 1, 2013, or a defined benefit formula that conforms to the requirements of this article or is approved by the Legislature as provided in this subdivision.

(e) If a public employer, before January 1, 2013, offers a retirement benefit plan that consists solely of a defined contribution plan, that employer may continue to offer that plan instead of the defined benefit pension plan required by this article. However, if the employer adopts a new defined benefit pension plan or defined benefit formula on or after January 1, 2013, that plan or formula must conform to the requirements of this article or must be determined and certified by the retirement system's chief actuary and the system's board to have no greater risk and no greater cost to the employer than the defined benefit formula required by this article and must be approved by the Legislature. New members of the employer's plan may only participate in the defined contribution plan that was in place before January 1, 2013, or a defined contribution plan or defined benefit formula that conforms to the requirements of this article. This subdivision shall not be construed to prohibit an employer from offering a defined contribution plan on or after January 1, 2013, either with or without a defined benefit plan, whether or not the employer offered a defined contribution plan prior to that date.

(f)(1) If, on or after January 1, 2013, the Cities of Brea and Fullerton form a joint powers authority pursuant to the provisions of the Joint Exercise of Powers Act (Article 1 (commencing with Section 6500) of Chapter 5), that joint powers authority may provide employees the defined benefit plan or formula that those employees received from their respective employers prior to the exercise of a common power, to which the employee is associated, by the joint powers authority to any employee of the City of Brea, the City of Fullerton, or a city described in paragraph (2) who is not a new member and subsequently is employed by the joint powers authority within 180 days of the city providing for the exercise of a common power, to which the employee was associated, by the joint powers authority.

(2) On or before January 1, 2017, a city in Orange County that is contiguous to the City of Brea or the City of Fullerton may join the joint powers authority described in paragraph (1) but not more than three cities shall be permitted to join.

(3) The formation of a joint powers authority on or after January 1, 2013, shall not act in a manner as to exempt a new employee or a new member, as defined by Section 7522.04, from the requirements of this article. New members may only participate in a defined benefit plan or formula that conforms to the requirements of this article.

(g)(1) If, on or after January 1, 2013, the Belmont Fire Protection District, the Estero Municipal Improvement District, and the City of San Mateo form a joint powers authority pursuant to the provisions of the Joint Exercise of Powers Act (Article 1 (commencing with Section 6500) of Chapter 5), that joint powers authority may provide employees the defined benefit plan or formula that those employees received from their respective employers prior to the exercise of a common power, to which the employee is associated, by the joint powers authority to any employee of the Belmont Fire Protection District, the Estero Municipal Improvement District, and the City of San Mateo who is not a new member and subsequently is employed by the joint powers authority within 180 days of the agency providing for the exercise of a common power, to which the employee was associated, by the joint powers authority.

(2) The formation of a joint powers authority on or after January 1, 2013, shall not act in a manner as to exempt a new employee or a new member, as defined by Section 7522.04, from the requirements of this article. New members may only participate in a defined benefit plan or formula that conforms to the requirements of this article.

(3) On and after January 1, 2024, a county and a trial court that separate their joint contract into individual contracts pursuant to Section 20471.2 may provide employees the defined benefit plan or formula that those employees received from their respective employers prior to the exercise of the option to separate, provided that the employee subsequently does not otherwise meet the definition of a new employee.

(h) The Judges' Retirement System and the Judges' Retirement System II shall not be required to adopt the defined benefit formula required by Section 7522.20 or 7522.25 or the compensation limitations defined in Section 7522.10.

(i) This article shall not be construed to provide membership in any public retirement system for an individual who would not otherwise be eligible for membership under that system's applicable rules or laws.

(j) On and after January 1, 2013, each public retirement system shall modify its plan or plans to comply with the requirements of this article and may adopt regulations or resolutions for this purpose.

(h) The retirement system shall limit the pensionable compensation used to calculate the contributions required of an employer or a new member to the amount of compensation that would be used for calculating a defined benefit as set forth in subdivision (c) or (d).

(Added by Stats. 2012, Ch. 296 (AB 340), Sec. 15)

(e) On and after January 1, 2013, an employer shall offer one or more of the safety formulas prescribed by this section to new members who are safety employees. The formula offered shall be the formula that is closest to, and provides a lower benefit at 55 years of age than, the formula provided to members in the same retirement classification offered by the employer on December 31, 2012.

(f) On and after January 1, 2013, an employer and its employees subject to Safety Option Plan One or Safety Option Plan Two may agree in a memorandum of understanding to be subject to Safety Option Plan One or the Basic Safety Plan, subject to the following:

(1) The lower plan shall apply to members first employed on or after the effective date of the lower plan, and shall be agreed to in a memorandum of understanding that has been collectively bargained in accordance with applicable laws.

(2) A retirement plan contract amendment with a public retirement system to alter a retirement formula pursuant to this subdivision shall not be implemented by the employer in the absence of a memorandum of understanding that has been collectively bargained in

accordance with applicable laws.

(3) An employer shall not use impasse procedures to impose the lower plan.

(4) An employer shall not provide a different defined benefit for nonrepresented, managerial, or supervisory employees than the employer provides for other public employees, including represented employees, of the same employer who are in the same membership classifications.

(g) Pensionable compensation used to calculate the defined benefit shall be limited as described in Section 7522.10.

(Amended by Stats. 2013, Ch. 528 (SB 13), Sec. 5, Effective October 4, 2013, as an urgency statute)

§7522.30. Sharing of normal costs

(a) This section shall apply to all public employers and to all new members. Equal sharing of normal costs between public employers and public employees shall be the standard. The standard shall be that employees pay at least 50 percent of normal costs and that employers not pay any of the required employee contribution.

(b) The "normal cost rate" shall mean the annual actuarially determined normal cost for the plan of retirement benefits provided to the new member and shall be established based on the actuarial assumptions used to determine the liabilities and costs as part of the annual actuarial valuation. The plan of retirement benefits shall include any elements that would impact the actuarial determination of the normal cost, including, but not limited to, the retirement formula, eligibility and vesting criteria, ancillary benefit provisions, and any automatic cost-of-living adjustments as determined by the public retirement system.

(c) New members employed by those public employers defined in paragraphs (2) and (3) of subdivision (i) of Section 7522.04, the Legislature, the California State University, and the judicial branch who participate in a defined benefit plan shall have an initial contribution rate of at least 50 percent of the normal cost rate for that defined benefit plan, rounded to the nearest quarter of 1 percent, unless a greater contribution rate has been agreed to pursuant to the requirements in subdivision (e). This contribution shall not be paid by the employer on the employee's behalf.

(d) Notwithstanding subdivision (c), once established, the employee contribution rate described in subdivision (c) shall not be adjusted on account of a change to the normal cost rate unless the normal cost rate increases or decreases by more than 1 percent of payroll above or below the normal cost rate in effect at the time the employee contribution rate is first established or, if later, the normal cost rate in effect at the time of the last adjustment to the employee contribution rate under this section.

(e) Notwithstanding subdivision (c), employee contributions may be more than one-half of the normal cost rate if the increase has been agreed to through the collective bargaining process, subject to the following conditions:

(1) The employer shall not contribute at a greater rate to the plan for nonrepresented, managerial, or supervisory employees than the employer contributes for other public employees, including represented employees, of the same employer who are in related retirement membership classifications.

(2) The employer shall not increase an employee contribution rate in the absence of a memorandum of understanding that has been collectively bargained in accordance with applicable laws.

(3) The employer shall not use impasse procedures to increase an employee contribution rate above the rate required by this section.

(f) If the terms of a contract, including a memorandum of understanding, between

a public employer and its public employees, that is in effect on January 1, 2013, would be impaired by any provision of this section, that provision shall not apply to the public employer and public employees subject to that contract until the expiration of that contract. A renewal, amendment, or any other extension of that contract shall be subject to the requirements of this section.

§7522.32. Determination of benefit paid to new member of public retirement system; final compensation; restrictions on plan modification

For the purposes of determining a retirement benefit to be paid to a new member of a public retirement system, the following shall apply:

(a) Final compensation shall mean the highest average annual pensionable compensation earned by the member during a period of at least 36 consecutive months, or at least three consecutive school years if applicable, immediately preceding his or her retirement or last separation from service if earlier, or during any other period of at least 36 consecutive months, or at least three consecutive school years if applicable, during the member's applicable service that the member designates on the application for retirement.

(b) On or after January 1, 2013, an employer shall not modify a benefit plan to permit a calculation of final compensation on a basis of less than the average annual compensation earned by the member during a consecutive 36-month period, or three school years if applicable, for members who have been subject to at least a 36-month or three-school-year calculation prior to that date.

(Added by Stats. 2012, Ch. 296 (AB 340), Sec. 15)

(Amended by Stats. 2013, Ch. 528 (SB 13), Sec. 7, Effective October 4, 2013, as an urgency statute)

§7522.34. Pensionable compensation

(a) "Pensionable compensation" of a new member of any public retirement system means the normal monthly rate of pay or base pay of the member paid in cash to similarly situated members of the same group or class of employment for services rendered on a full-time basis during normal working hours, pursuant to publicly available pay schedules, subject to the limitations of subdivision (c).

(b) Compensation that has been deferred shall be deemed pensionable compensation when earned rather than when paid.

(c) Notwithstanding any other law, "pensionable compensation" of a new member does not include the following:

(1) Any compensation determined by the board to have been paid to increase a member's retirement benefit under that system.

(2) Compensation that had previously been provided in kind to the member by the employer or paid directly by the employer to a third party other than the retirement system for the benefit of the member and which was converted to and received by the member in the form of a cash payment.

(3) Any one-time or ad hoc payments made to a member.

(4) Severance or any other payment that is granted or awarded to a member in connection with or in anticipation of a separation from employment, but is received by the member while employed.

(5) Payments for unused vacation, annual leave, personal leave, sick leave, or compensatory time off, however denominated, whether paid in a lump sum or otherwise, regardless of when reported or paid.

(6) Payments for additional services rendered outside of normal working hours, whether paid in a lump sum or otherwise.

(7) Any employer-provided allowance, reimbursement, or payment, including, but not limited to, one made for housing, vehicle, or uniforms.

(8) Compensation for overtime work, other than as defined in Section 207(k) of Title 29 of the United States Code.

(9) Employer contributions to deferred compensation or defined contribution plans.

(10) Any bonus paid in addition to the compensation described in subdivision (a).

(11) Any other form of compensation a public retirement board determines is inconsistent with the requirements of subdivision (a).

(12) Any other form of compensation a public retirement board determines should not be pensionable compensation.

(13) (A) Any form of compensation identified that has been agreed to be nonpensionable pursuant to a memorandum of understanding for state employees bound by the memorandum of understanding. The state employer subject to the memorandum of understanding shall inform the retirement system of the excluded compensation and provide a copy of the memorandum of understanding.

(B) The state employer may determine if excluded compensation identified in subparagraph (A) shall apply to nonrepresented state employees who are either excluded from the definition of state employee in Section 3513, or are nonelected officers or employees of the executive branch of government who are not members of the civil service and aligned with state employees subject to the memorandum of understanding described in subparagraph (A). The state employer shall inform the retirement system of the exclusion of this compensation and provide a copy of the public pay schedule detailing the exclusion.

(d) Notwithstanding any other law, if a form of compensation is expressly designated as pensionable compensation for a new member pursuant to a memorandum of understanding for state employees, the memorandum of understanding shall be controlling as to that form of compensation without further legislative action, except that if the provisions of a memorandum of understanding require the expenditure of funds, those provisions shall not become effective unless approved by the Legislature in the annual Budget Act. This subdivision does not apply to any form of compensation that is excluded from the definition of pensionable compensation pursuant to paragraphs (1) through (9), inclusive, of subdivision (c). The state employer shall inform the retirement system of the inclusion of this form of compensation and provide a copy of the public pay schedule detailing the inclusion.

(e) The state employer may determine if a form of compensation shall be designated as pensionable compensation for new members, who are nonrepresented state employees excluded from the definition of state employee in Section 3513, or are nonelected officers or employees of the executive branch of government who are not members of the civil service. This subdivision does not apply to any form of compensation that is excluded from the definition of pensionable compensation pursuant to paragraphs (1) through (9), inclusive, of subdivision (c). The state employer shall inform the retirement system of the inclusion of this form of compensation and provide a copy of the public pay schedule detailing the inclusion.

§7522.40. Health benefit vesting schedule

(a) A public employer shall not provide to a public employee who is elected or appointed, a trustee, excluded from collective bargaining, exempt from civil service, or a manager any vesting schedule for the employer contribution payable for postretirement health benefits that is more advantageous than that provided generally to other public employees, including represented employees, of the same public employer who are in related retirement membership classifications.

(b) This section shall not require an employer to change the vesting schedule for the employer contribution payable for postretirement health benefits of any public employee who was subject to a specific vesting schedule pursuant to statute, collective bargaining agreement, or resolution for these employer contributions prior to January 1, 2013, or who had a contractual agreement with an employer prior to January 1, 2013, for a specific vesting schedule for these employer contributions.

(b) A public employer shall not seek an exception to the prohibition in subdivision (a) on or after January 1, 2013.

(c) For employees first hired on or after January 1, 2013, a public employer shall not make employer contributions to any qualified retirement plan or plans on behalf of an employee based on that portion of the amount of total pensionable compensation that exceeds the amount specified in Section 401(a)(17) of Title 26 of the United States Code, or its successor.

(d) This section shall not apply to salary, compensation, or payrate paid to individuals who, due to their dates of hire, are not subject to the limits specified in subdivision (a).

(Added by Stats. 2012, Ch. 296 (AB 340), Sec. 15)

§7522.43. Replacement benefits; allowable offerings

(b) A public retirement system may continue to administer a plan of replacement benefits for employees first hired prior to January 1, 2013.

(c) A public employer that does not offer a plan of replacement benefits prior to January 1, 2013, shall not offer such a plan for any employee on or after January 1, 2013.

§7522.44. Enhancements to retirement formula or retirement benefit; application

This section shall apply to all public employers and to all public employees:

(a) Any enhancement to a public employee's retirement formula or retirement benefit adopted on or after January 1, 2013, shall apply only to service performed on or after the operative date of the enhancement and shall not be applied to any service performed prior to the operative date of the enhancement.

(b) If a change to a member's retirement membership classification or a change in employment results in an enhancement in the retirement formula or retirement benefit applicable to that member, that enhancement shall apply only to service performed on or after the operative date of the change and shall not be applied to any service performed prior to the operative date of the change.

(c) For purposes of this section, "operative date" in a collective bargaining agreement means one of the following:

(1) The date that the agreement is signed by the parties.

(2) A date agreed to by the parties that will occur after the date that the agreement is signed by the parties.

(3) A date designated by the parties that occurred prior to the date the agreement was signed if the most recent collective bargaining contract was expired at the time of the agreement and the date designated is not earlier than 12 months prior to the date of the agreement or the day after the last day of the expired bargaining contract, whichever occurred later.

(d) For purposes of this section, an increase to a retiree's annual cost-of-living adjustment within existing statutory limits shall not be considered to be an enhancement to a retirement benefit.

§7522.46. Purchase of nonqualified service credit prohibited; exemption

(a) A public retirement system shall not allow the purchase of nonqualified service credit, as defined by Section 415(n)(3)(C) of the Internal Revenue Code of 1986 (26 U.S.C. Sec. 415(n)(3)(C)).

(Added by Stats. 2012, Ch. 296 (AB 340), Sec. 15)

§7522.48. Final compensation

(a) Final compensation of a member for the purpose of determining any pension or benefit resulting from service as an elective or appointed officer on a city council or a county board of supervisors accrued while in membership of a public retirement system shall be based on the highest average annual pensionable compensation earned by the member during the period of service in each elective or appointed office. Where that elective or appointed service is a consideration in the computation of any pension or benefit, the member may have more than one final compensation.

(b) Any final compensation calculation shall otherwise be subject to this article except that if any individual period of elective service is less than 36 months or three years, then the entire period of that individual's elected service shall be used to determine the final compensation for that period of service.

(c) This section shall apply to a member first elected or appointed to a city council or a county board of supervisors on or after January 1, 2013.

(1) The plan is funded by more than 120 percent, based on a computation by the retirement system actuary in accordance with the Governmental Accounting Standards Board requirements that is included in the annual valuation.

(2) The retirement system actuary, based on the annual valuation, determines that continuing to accrue excess earnings could result in disqualification of the plan's tax-exempt status under the provisions of the federal Internal Revenue Code.

(3) The board determines that the receipt of any additional contributions required under this section would conflict with its fiduciary responsibility set forth in Section 17 of Article XVI of the California Constitution.

(Added by Stats. 2012, Ch. 296 (AB 340), Sec. 15)

§7522.56. Retired persons; service and employment restrictions

(a) This section shall apply to any person who is receiving a pension benefit from a public retirement system and shall supersede any other provision in conflict with this section.

(b) A retired person shall not serve, be employed by, or be employed through a contract directly by, a public employer in the same public retirement system from which the retiree receives the benefit without reinstatement from retirement, except as permitted by this section.

(c) A person who retires from a public employer may serve without reinstatement from retirement or loss or interruption of benefits provided by the retirement system upon appointment by the appointing power of a public employer either during an emergency to prevent stoppage of public business or because the retired person has skills needed to perform work of limited duration.

(d) Appointments of the person authorized under this section shall not exceed a total for all employers in that public retirement system of 960 hours or other equivalent limit, in a calendar or fiscal year, depending on the administrator of the system. The rate of pay for the employment shall not be less than the minimum, nor exceed the maximum, paid by the employer to other employees performing comparable duties, divided by 173.333 to equal an hourly rate. A retired person whose employment without reinstatement is authorized by this section shall acquire no service credit or retirement rights under this section with respect to the employment unless the retired person reinstates from retirement.

(e)(1) Notwithstanding subdivision (c), any retired person shall not be eligible to serve or be employed by a public employer if, during the 12-month period prior to an appointment described in this section, the retired person received any unemployment insurance compensation arising out of prior employment subject to this section with a public employer. A retiree shall certify in writing to the employer upon accepting an offer of employment that the retired person is in compliance with this requirement.

(2) A retired person who accepts an appointment after receiving unemployment insurance compensation as described in this subdivision shall terminate that employment on the last day of the current pay period and shall not be eligible for reappointment subject to this section for a period of 12 months following the last day of employment.

(f) A retired person shall not be eligible to be employed pursuant to this section for a

period of 180 days following the date of retirement unless the retired person meets one of the following conditions:

(1) The employer certifies the nature of the employment and that the appointment is necessary to fill a critically needed position before 180 days have passed and the appointment has been approved by the governing body of the employer in a public meeting. The appointment may not be placed on a consent calendar.

(2)(A) Except as otherwise provided in this paragraph, for state employees, the state employer certifies the nature of the employment and that the appointment is necessary to fill a critically needed state employment position before 180 days have passed and the appointment has been approved by the Department of Human Resources. The department may establish a process to delegate appointing authority to individual state agencies, but shall audit the process to determine if abuses of the system occur. If necessary, the department may assume an agency's appointing authority for retired workers and may charge the department an appropriate amount for administering that authority.

(B) For legislative employees, the Senate Committee on Rules or the Assembly Rules Committee certifies the nature of the employment and that the appointment is necessary to fill a critically needed position before 180 days have passed and approves the appointment in a public meeting. The appointment may not be placed on a consent calendar.

(C) For employees of the California State University, the Trustees of the California State University certifies the nature of the employment and that the appointment is necessary to fill a critically needed position before 180 days have passed and approves the appointment in a public meeting. The appointment may not be placed on a consent calendar.

(3) A retired person is eligible to participate in the Faculty Early Retirement Program pursuant to a collective bargaining agreement with the California State University that existed prior to January 1, 2013, or has been included in subsequent agreements.

(4) A retired person is a public safety officer or firefighter hired to perform a function or functions regularly performed by a public safety officer or firefighter.

(g) A retired person who accepted a retirement incentive upon retirement shall not be eligible to be employed pursuant to this section for a period of 180 days following the date of retirement and subdivision (f) shall not apply.

(h) This section shall not apply to a person who is retired from the State Teachers' Retirement System, and who is subject to Section 24214, 24214.5, or 26812 of the Education Code.

(i) This section shall not apply to (1) a subordinate judicial officer whose position, upon retirement, is converted to a judgeship pursuant to Section 69615, and the judicial officer returns to work in the converted position, and the employer is a trial court, or (2) a retired person of the Judges' Retirement System or the Judges' Retirement System II who is assigned to serve in a court pursuant to Section 68543.5.

(j) The 960-hour limit set forth in subdivision (d) shall not apply to hours worked in an appointment by the Solano County Sheriff's Office to perform a function or functions regularly performed by a deputy sheriff, evidence technician, or communications operator provided the Solano County Board of Supervisors certifies, by resolution at a public meeting, that the appointment satisfies the following conditions:

(1) The retired person has undergone and passed a preemployment background investigation.

(2) The retired person is not subject to decertification or under investigation for decertification by the Commission on Peace Officer Standards and Training.

(3) The County of Solano has posted a position for recruitment of an active member for not less than six continuous months to perform the same function or functions to be performed by the retired person, prior to appointing the retired person to perform the function or functions and no qualified applicant either applied to the position or was available for hire.

(4) Notwithstanding the rate of pay described in subdivision (d), the rate of pay for the retired person shall not exceed the average rate of pay of all positions in the same class of the position as filled by active members, divided by 173.333 to equal an hourly rate.

(5) Subject to the limitation in paragraph (4), the rate of pay upon appointment of the retired person shall not exceed the higher of either the retired person's last rate of pay as an active member or the rate of pay of the entry step on the publicly available pay schedule for the class. However, the retired person shall be eligible for reasonable and regular adjustments to the rate of pay that apply generally to positions in the same class, if the rate of pay after the adjustment meets the requirement in paragraph (4).

(6) The appointment may not be placed on a consent calendar.

(7) The maximum aggregate number of appointments made pursuant to this subdivision and subdivision (c) of Section 21224 shall not exceed 20.

(8) Pay a fee to the system in the amount of two hundred dollars (\$200) for each month the retired person worked.

(k) This section shall remain in effect only until January 1, 2027, and as of that date is repealed.

(d) Appointments of the person authorized under this section shall not exceed a total for all employers in that public retirement system of 960 hours or other equivalent limit, in a calendar or fiscal year, depending on the administrator of the system. (B) For legislative employees, the Senate Committee on Rules or the Assembly Rules Committee certifies the nature of the employment and that the appointment is necessary to fill a critically needed position before 180 days have passed and approves the appointment in a public meeting. A retired person whose employment without reinstatement is authorized by this subdivision shall acquire no benefits, service credit, or retirement rights with respect to the employment. Unless otherwise defined in statute, for the purpose of this section, a part-time appointment shall mean an appointment with a salary of no more than \$60,000 annually, which shall be increased in any fiscal year in which a general salary increase is provided for state employees. (c) A person who is retired from the Public Employees' Retirement System shall not serve on a full-time basis on a state board or commission without reinstatement unless that person serves as a nonsalaried member of the board or commission and receives only per diem authorized to all members of the board or commission. A person who serves as a nonsalaried member of a board or commission shall not earn any service credit or benefits in the Public Employees' Retirement System or make contributions with respect to the service performed.

(d) A person retired from a public retirement system other than the Public Employees' Retirement System who is appointed on a full-time basis to a state board or commission shall choose one of the following options:

(1) The person may serve as a nonsalaried member of the board or commission and continue to receive his or her retirement allowance, in addition to any per diem authorized to all members of the board or commission. (Added by Stats. 1974, Ch. 1478, Sec. 1)

§7501. Legislative intent and purpose

It is the intent and purpose of the Legislature, in enacting this chapter, to safeguard the solvency of all public retirement systems and funds. The Legislature finds and declares that public agencies maintaining retirement systems can benefit from periodic and independent analysis of their financial condition. It is the purpose of Sections 7502, 7503, and 7504 to enable the State Controller to gather information to compare and evaluate the financial condition of such systems and to make such comparisons and evaluations.

The Controller shall also review the triennial valuation of each public retirement system submitted pursuant to Section 7504 and shall give particular consideration to the assumption concerning the inflation element in salary and wage increases, mortality, service retirement rates, withdrawal rates, disability retirement rates, and rate of return on total assets.

The Controller shall establish an advisory committee that shall include actuaries who have attained the designation of Associate or Fellow of the Society of Actuaries and state and local public retirement system administrators to assist in carrying out the duties imposed by this section.

(Amended by Stats. 1978, Ch. 388, Sec. 2, effective July 11, 1978)

The penalty prescribed in Section 53895 shall be invoked for failure to comply with this section. Upon a satisfactory showing of good cause, the Controller may waive the penalty for late filing provided by this subdivision.
